Office of the President

June 8, 1968

Dear Graduate:

The Board of Trustees, faculty and students join me in extending warm congratulations and best wishes to you on the very happy occasion of your graduation from St. Francis College.

During your time at St. Francis, two words have dominated the world scene - "freedom" and "power." The academic society, the social and ethnic groups, the political subdivisions, the representatives of religious opinion, are only some of those who have seized "freedom and power" as their slogan in recent years.

These words have been the inspiration for student riots that extended from the Berkeley campus in the west to the Brooklyn College campus in the east and on through Europe and Asia; the racial leaders from Watts in California to East New York in Brooklyn claim the same banner; the apartheid policy of South Africa, the corruption of Vietnam and other political troubles in various parts of the world all represent the demand for freedom and power. The extremes of conviction on religious matters from strict traditionalism to absolute individualism have one common goal - freedom and power.

In all of this you must have wondered, as one would expect any member of the St. Francis College community to wonder, about the lack of the use of the words "responsibility and self discipline." Few of the leaders of current social movements ever mention these words.

It is my prayerful wish that as the Class of 1968 moves from the halls of St. Francis College to the marketplace of life there will be among you many articulate, intelligent spokesmen who will remind society that freedom without responsibility and power without self discipline can lead only to chaos and anarchy.

Good luck and God bless you.

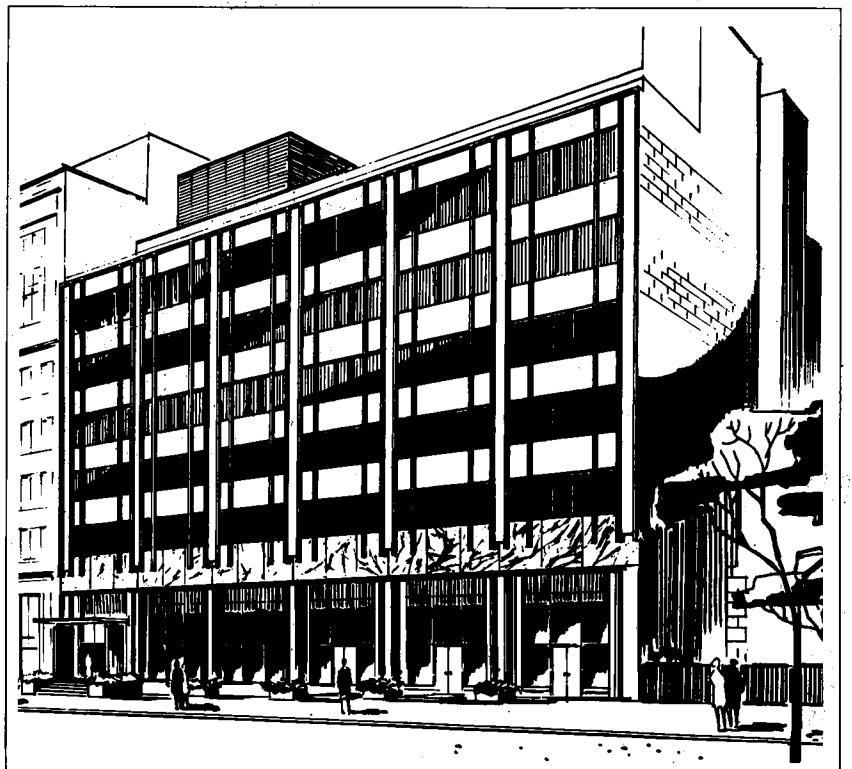

Sincerely yours,

Brother Urban Gonnoud, O. S. F.
President

DEDICATION

PROFESSOR JOHN CLIFFORD

Dedication . . . means many things to many people; no two people view a person, action, or object in the same perspective. The staff of the 1968 *Franciscan* has endeavored through pictorial means to capture the essence, spirit, and character of a faculty member beloved by the staff and respected by all who have associated with him while at St. Francis.

Words are not sufficient to express exactly what Professor Clifford has come to mean to the staff. Affectionately known to us as "Mr. C," he has seen the *Franciscan* through many problems and trying times. Mr. Clifford assumed the position of moderator four years ago. The graduating seniors, or rather the *Franciscan Veterans*, have published four successful yearbooks under his guidance.

Selection of such a man was easy for those of us who have been so closely associated with him. His obvious dedication to the students and his concern for their aspirations has endeared him to St. Francis. His patient understanding and ever-present humor gave to the student body a treasure which will ever be remembered.

It is with these thoughts in mind that we, the staff of the 1968 *Franciscan*, respectfully dedicate this book to our moderator Mr. John Clifford.

GEORGE MARKS

In Memoriam

It is with deep regret the class of 1968 notes the passing of George Marks. For more than twenty years he served the students of St. Francis as Director of Science Laboratories with true dedication and concern. His was the sympathetic ear, the understanding mind and the calming influence to which many frustrated science students turned in moments of need. They never turned in vain. Not all of the students had the opportunity to know George Marks well, but those who did came to respect him. For many students he was the ideal teacher half of the close student-teacher relationship for which St. Francis is known.

We comfort ourselves with the thought that all his patience, kindness and understanding will not have gone unnoticed nor remain unrewarded. Nevertheless, he will be missed.

*“Eternal rest grant unto him O Lord
Let the perpetual light shine upon him . . .”*

In Memoriam

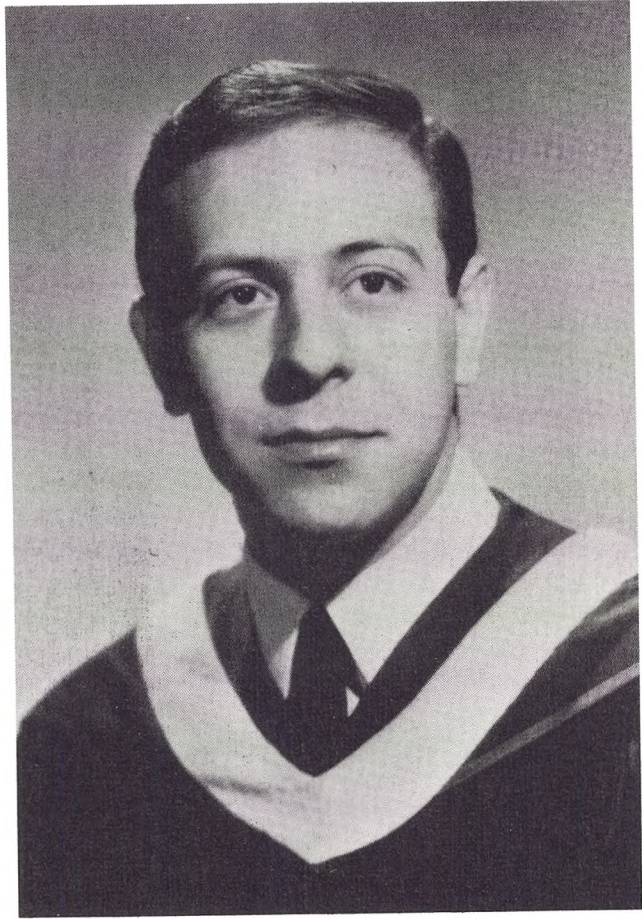

Ferdinand Di Stefano, class of 1965, was killed in action while serving the U.S. Marines at Khe Sanh, South Viet Nam.

A Lieutenant in the Marines, he died during a Viet Cong rocket attack on Hill 861 Alpha on February 24th while assigned to E. Co., 2/26 3rd Division.

Lt. Di Stefano was a History major at St. Francis and studied for a masters degree at Hunter College following graduation. He had six credits to complete for his masters when he enlisted in the Marines.

He is the first graduate of St. Francis to be killed in Viet Nam.

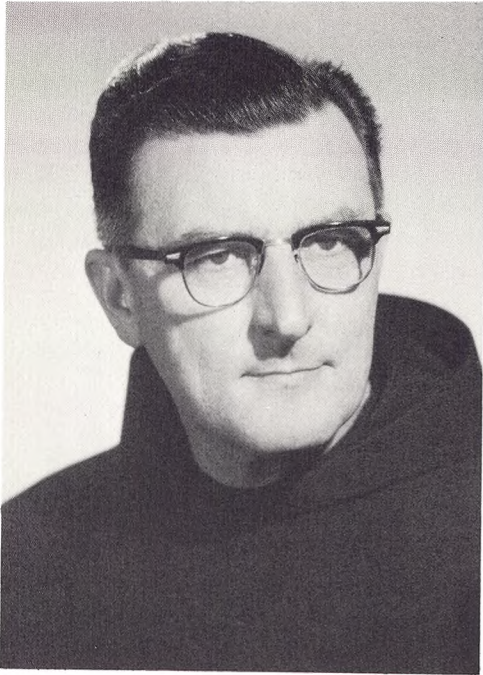

We extend our sincerest sympathy to his parents and to all those to whom he was close.

FERDINAND DI STEFANO

*May God grant him peace.
To his family strong faith.
To one another fraternity.*

Division of Business Administration

DR. CHARLES L. SAVAGE

Professor of Accounting; Chairman, Division of Business Administration; LL.B., St. John's University; LL.M., Ibid; M.A., Columbia University; J.S.D., St. John's University; C.P.A. (New York).

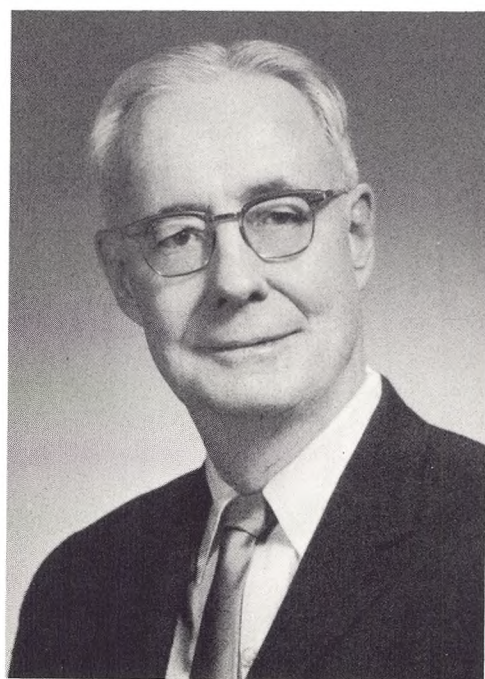

The Division of Business Administration, composed of the departments of Accounting, Business Law and Business Management, affords the student the opportunity to direct his education towards a career in business. While the aim of imparting professional purpose to the student receives due emphasis, the Division does not attach major importance to the development of specific skills but rather to the inculcation of analytical thought habits and a desire to achieve competence. The courses offered by the Division are based on the cultural and philosophical core provided in the liberal arts and are oriented towards the attainment of a basic understanding of the American business economy and an appreciation of the role which can be performed therein by a graduate of a Catholic college. The faculty of the Division seek to discern and develop the particular qualities and abilities of the student and to direct him towards the optimum realization of his potentialities.

The Division offers majors in Accounting and Business Management leading to the B.B.A. (Bachelor of Business Administration) degree.

Emphasis in the Accounting curriculum is upon completion of the academic requirements for the permissible parts of the C.P.A. Examination; but the student may, by registering under the Business Management major and by judicious selection of accounting courses, prepare himself for managerial accounting.

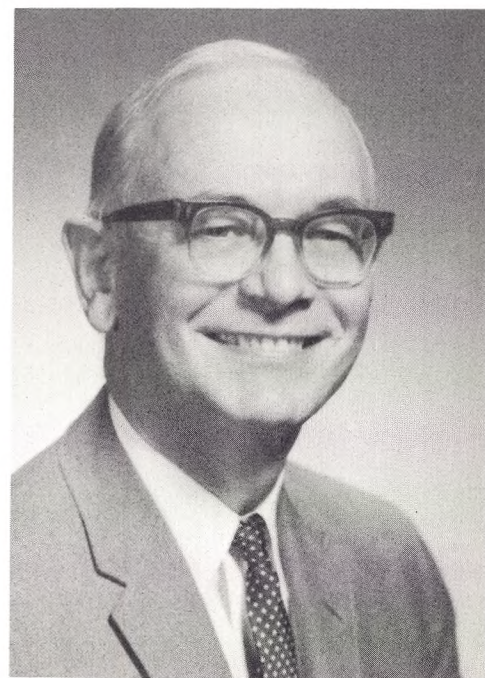

The Business Management major is designed to impart a basic knowledge of the major areas of business activity—production, distribution, and finance—with particular emphasis upon the management principles inherent therein.

Internship programs designed to provide a guided practical experience in both industrial and public accounting are available to selected students.

Division of

JAMES J. FLYNN

Professor of History; Chairman, Social Studies Division; B.A., Fordham University; M.A., Ibid.; Ph.D., Ibid.

The Division of Social Studies aims to awaken in the student a clear realization of his true position in a Christian Democracy. The courses in the Division are geared to develop a love of one's fellowman so that the student may participate in and work for the betterment of society; to acquaint him with a knowledge of our social and economic heritage which the study of the past provides as an interpretation of the present; to see always the working of Divine Providence and the exercise of man's free will in molding the destinies of men and nations; to understand the need of a clear sense of values in summing up the importance of the past in relation to current situations; to furnish him with a knowledge of our heritage and its application to modern social and economic issues.

Social Studies

Majors offered in the Division: Economics, History, Latin American Studies, Political Science, Social Studies, Social Studies-Secondary School Teacher Training and Sociology.

All majors of the Division must take an oral comprehensive examination and write a senior thesis to fulfill the requirements for degree.

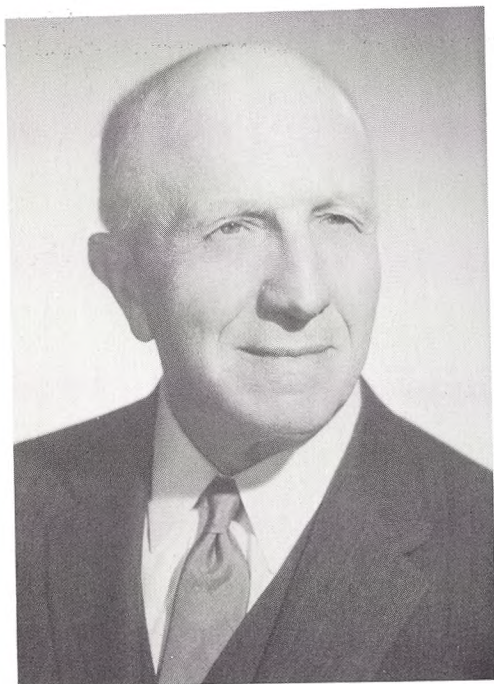

The thesis in History is done on some aspect of local history and its writing is supervised by members of the Department of History.

The Latin American Studies Program is a four year course leading to the degree of Bachelor of Arts with a major in Latin American Studies. The College was one of the pioneers in instituting such areas studies programs on the undergraduate level.

BROTHER CAMILLUS CASEY, O.S.F.

Professor of Modern Languages; Chairman, Humanities Division; B.A., St. John's University; M.A., Fordham University; Ph.D., Columbia University.

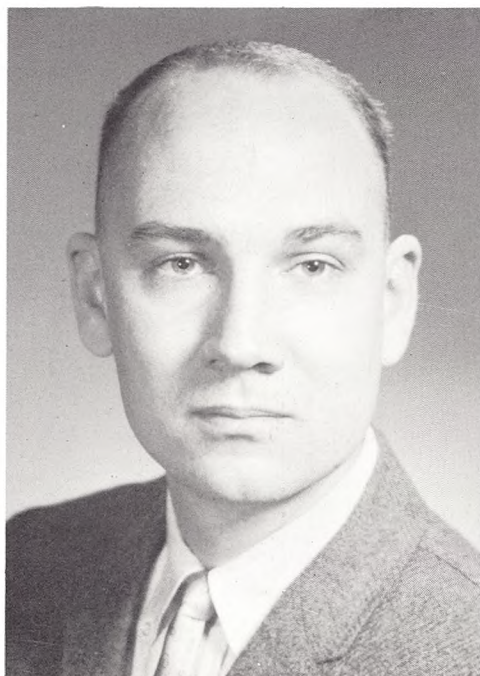

The Division of Humanities has for its primary purpose to instill into the student a breath and depth of sympathy and vision by interpreting what is ennobling in the civilization and culture of man. Its aim is therefore to develop good taste through a knowledge of man's thoughts and ideas as expressed in his language, literature, music and art. Its concern is with such realities as life, death, love, and the problems of good and evil and how these influence man in his relationship to society, his physical environment, his inner self, and his God.

The Division consists of the departments of Classical Languages, English, Fine Arts, Modern Languages, and Speech.

Philosophy . . .

Within the framework of the teachings of the Church and in the light of the personal reality of Christ, Christian Philosophy investigates the meanings, purposes, and values inherent in the natural world. Through its endeavor to cultivate the growth of a philosophizing mind rather than a mere conceptual directory, true Philosophy can be of real and vital assistance to the Catholic student and graduate by developing within him a unique faculty, organic to the intellect itself. Not having memorized, sound principles of thought cannot be forgotten; they will inevitably assist the thinking Christian to achieve his natural and supernatural ends by providing for a flexible yet secure core to the life of the mind. It is the specific aim of the Department; therefore, to develop philosophically "thought-minded" Catholics, able to discern philosophical error but unafraid of any truth.

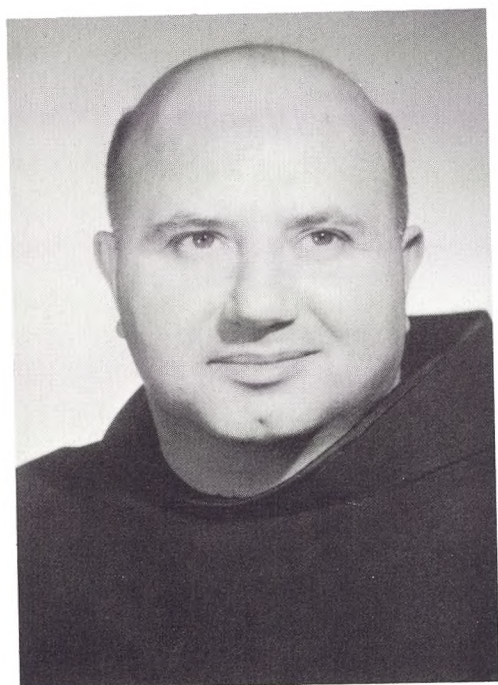

The Psychology Major is designed primarily to produce a well-rounded student whose training has been such as to meet the existing requirements of most graduate schools. In order to implement this goal the Psychology Department concentrates on providing a strong foundation in the basic courses necessary for continued study, while also offering a wide selection of electives which will allow the student to pursue additional areas of interest.

The purpose of the course in Theology is twofold. First, the aim of these courses is to impart a clear and comprehensive knowledge of Catholic dogmatic and moral teachings; and secondly, to stress the necessity of Christian living and Christian leadership in today's society.

ON FOR OLD ST. FRANCIS

On for old St. Francis,
 On Red and Blue.
 Our colors streaming,
 Rush right in and
 Fight for old St. Francis, fellows.

Lead us on to victory
 Again without a miss,
 Fight for our colors,
 Old St. Francis!

ALMA MATER

Alma Mater, hail to thee
 Loyal sons salute thee
 Mem'ries of thy name recall
 Deep affection for thee.

Thy ideals shall ever be
 Inspiration constantly
 Binding us together,
 Binding us to thee.

Hail St. Francis, we thy sons
 Loyal to thee ever
 Sing the praises of thy name
 With accord together.

This the pledge we give anew,
 Loyal to the Red and Blue
 Alma mater to thee
 Ever true to thee.

GUIDANCE

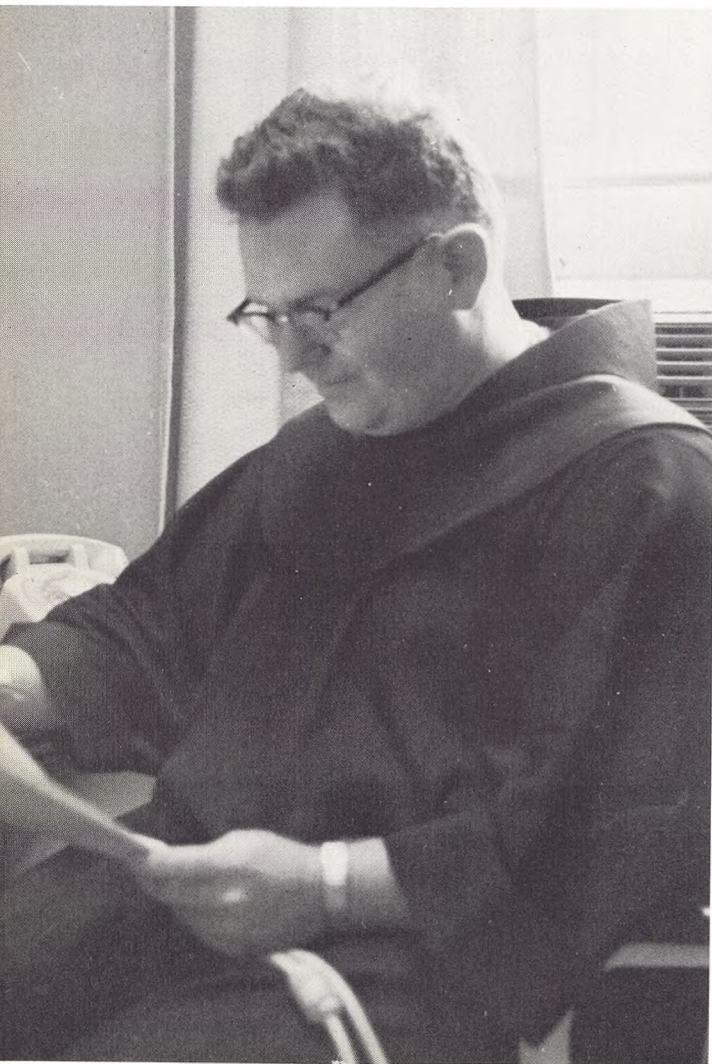

MR. PATRICK TUFANO
Mental Health Consultant

The Guidance Center provides specialized services for all the students of the college. Its assistance was sought by many seniors who were preparing for graduate school and seeking national and foreign fellowships. The center also arranged interviews with many of the large corporations in the metropolitan area, for those who plan to enter the business world.

In addition to counseling the center provides programs for testing all phases of personality, reading skills improvement and job and graduate school placement.

The new director James Dixon provided excellent and expanded programs while working jointly with the Administration, Faculty Advisors and Moderators to assist the students in accepting his challenges, and responsibilities, and in solving his difficulties.

Approved by the American Board of Counseling Services, the Guidance Center has aided students in making decisions concerning their future education and occupation as well as matters concerning their day to day problems.

Brother Mathias, our Financial Advisor, coordinates the Work-Study Program.

Mr. Pena helps students with an encouraging word and expert advise.

Mr. Dixon, Director of Guidance Center, counsels Nunzi DeSetto. "I'm afraid there isn't much demand for harpsichord repairmen right now, but I'll let you know if anything comes up."

STUDENT COUNCIL continues

"Mah fella stud'nts . . ."

". . . concerning the new dress regulations . . ."

The academic year of 1967-68 witnessed a marked increase of activity in Student Government, primarily due to the qualified personnel involved. Many worthwhile contributions were made to this effort by the combined talents of Vice-Pres. William Trentman, Parliamentarian Michael Davino, Secretary Daniel Griesbach, S.A.C. President Donald Hayward and the Senior Representative to the Council, Henry Rabush, William Denzer, and the Junior class officers notably Peter Bittel, Michael Moriarity and Kevin Schultz.

This year was also a year of firsts here at the college as the plans that are usually made early in the year and then scrapped, emerged from their committees and actually reached reality. Long awaited by the student body was a Jazz Concert which was presented to the students primarily through the herculean efforts of I.R.C. President Joe Campanaro and members of the Student Council. An enjoyable evening was had by all as the remarks concerning its presentation call for the offering of a similar concert next semester. Not to be forgotten was the admirable donation to the college's cultural field in the Film Societies inauguration of the "Friday Night Flicks."

Aside from cultural innovations, several academic proposals were presented to the respective administrative officials for approval. The much needed revisions in the Freshman Advis-

ory System were wholeheartedly accepted by the Administration. This legislation of the Council has now become the foundation for the current designs of advising students throughout their stay here at the college.

Among the many proposals submitted at the Council's weekly meetings were the following which are to be considered worthy of future Council attention: a policy of voluntary attendance for upperclassmen, the creation and effective installation of the Student Court which handled all disciplinary measures of a non-academic nature concerning the students and a Pass-Fail-Honor system of grading for elective courses which would stimulate enrollment in a non-major course of study without endangering the student's overall grade point index.

Socially, this year's Council put music in the lounge, much to the amusement of the student body and the library staff and tried to inaugurate for the next semester, the availability of alcoholic beverages at social functions in the school which had been prohibited up to now.

I sincerely thank all the members and non-members of the council, especially Joe Forte, Dennis Reilly, Joseph Mercurio, Anthony Porta and Thomas Bockrath, without whose cooperation none of the aforementioned affairs would have been possible.

SAC it to me . . .

Don Hayward, S.A.C. President, gives a rep. the evil eye.

The Student Activities Council grew out of an awareness that the Student Council was becoming too big and unwieldy. For the last two years S.A.C. has been a council in its own right. Under its president, Donald Hayward, S.A.C. has organized the various activities of the College into an organized program. This has allowed students who are active in the College to more fully take advantage of all of its functions. Although independent bodies, S.A.C. and the Student Council have worked together to promote an atmosphere in which the student's needs can best be met.

With this spirit of mutual respect, these two bodies of student government have helped to show that the students at the College are willing and anxious to take part in the activities which it offers.

Judging by the facetious facial expressions Hayward must have made a funny.

GLEE CLUB slowly fades

This was a challenging season for the St. Francis College Glee Club and its members. Unfortunately, due to the problems of construction, it was not possible to stage a joint concert this season, as we have done in the past. This was a great letdown to all the members who anxiously await this part of the year's activities. It is hoped that the program of joint concerts will be continued in our future seasons.

Under our new Director, Mr. George F. Seuffert, several new numbers were added to the repertoire, and presented to the students at the Christmas Assembly, as well as several other school functions.

ASTRONOMY CLUB shines

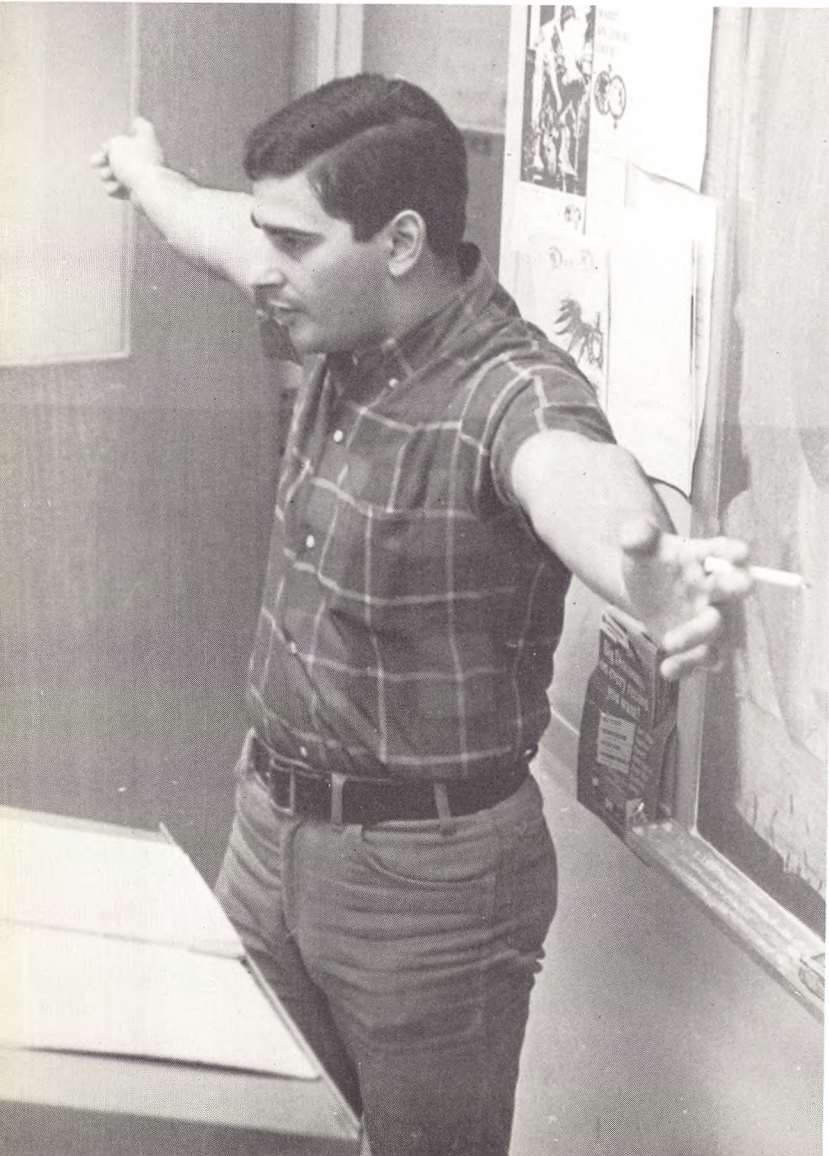

Jim Paciello, Mike Sinneck, Ron Eidshaug, Terry Ellison, and Bill Vahaly begin their star gazing a bit early.

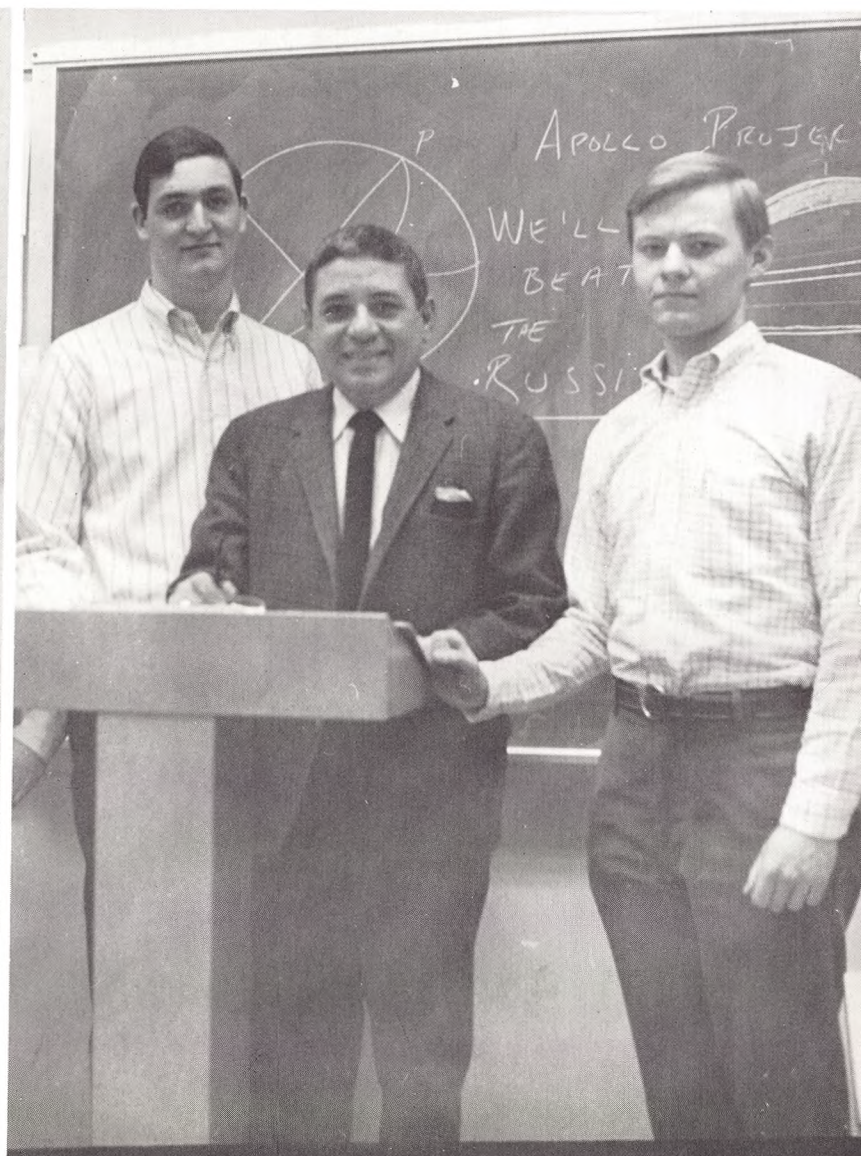

The Astronomy Club, under the leadership of Dr. Jorge Andres, has once again had a very successful year.

Besides continuing its lecture series, it has supplemented them with field trips to various observatories and planetariums.

Also, due to the efforts of Club officers, Mike Sinnick, Ron Eidshaug, Terry Ellison and Frank Clinton, the Astronomy Club is becoming affiliated with the Amateur Astronomers of America.

Lee Gugliotto demonstrates to the members the proper way to catch a falling star.

BUSINESS CLUB prospers

The Business Club started the 1967-68 year with the look of productivity.

Under the auspices of Daniel Correa, President; Edward Constantino, Vice-President; James Quinn, Secretary; Anthony Ponzio, Treasurer; and Joseph Pesola, the Parliamentarian, work was started early in the summer.

Letters of introduction were sent to the incoming freshman class advising of the advantages which the club holds and welcoming them to join. Utilizing a two week membership drive the club was able to establish itself as the second largest on campus.

The members attended numerous lectures in the field of private industries and that of government agencies. The lectures subjected the members to what is expected of them in the business environment. The response was of extreme gratitude with the hope of continuing in the same stream.

Not being all business the club held its annual dance at a prominent New York hotel.

At this time the officers would like to thank all who were involved in making this a most successful year.

DELANEY DEBATING SOCIETY

Ray Derise and Pat O'Mara show us some of the enthusiasm possessed by the members.

Robert Tomeo advises the team of future debates.

In early 1966, a handful of interested students combined to resurrect the lapsed debate program here at St. Francis. Over the past two years, the activities of the Delaney Debating Society have crescendoed, and much promise has been demonstrated. Debaters have participated in such diverse activities as international debates, intercollegiate tournaments, television debates, and college undertakings. Their efforts last semester brought a third place finish at an intercollegiate tournament, good for a novice team which has been pitted against difficult and experienced varsity competition.

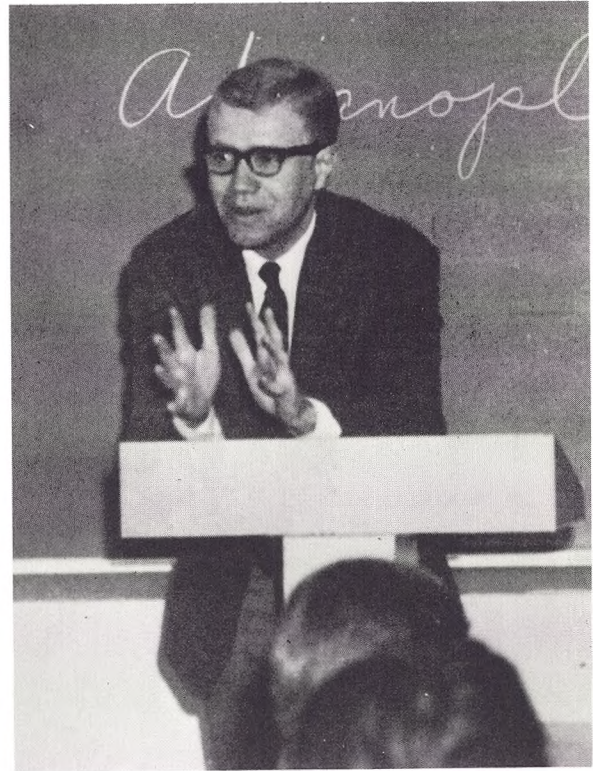

This college year, forensic enterprises have been implemented by a team of William Leininger, Patrick O'Mara, Robert Tomeo, and Raymond Derise, with temporary assistance from Pat Reavey and Louis Martinenko. Coach Brian Griffin has provided instruction and has supervised all phases of debate. In working with the team to ease organizational difficulties, such as a shortage of active members, Brother Theodore has furnished welcome aid.

The Debate Team—with strong individual efforts by coach and members—has worked hard to forward debate at the college. Experience has been accumulated and improvement displayed. But debate benefits should be shared by more students, and the activity is open to all who will work to advance it. Forwarding research methods, improving logical presentation, studying important foreign policy and domestic issues, communion with other college students from all over the country, representation of the college, and even preparation for later life are all part of debate. Defending a thesis has been the classical method of gauging academic achievement and of bestowing academic awards. It is an invaluable technique to be developed by a world citizen in an age where irrational and prejudiced decisions can herald pointless conflicts. In a liberal arts college, in any college, the absence of debate is unthinkable.

ECONOMIC SOCIETY economizes

The Society was established in 1964. Its primary function has been to promote a better understanding of current economic problems through the medium of guest speakers and field trips. In addition to this, the organization provides members with information concerning careers in business and other professions.

During the first semester, the activity centered around the seniors as requirements for graduation and graduate schools were discussed. However, the officers, Robert Bombara—President, Dennis Forde—V. Pres., Charles Parente—Secretary, James Willis—Treasurer and Frank Harvey—S.A.C. Rep, along with the Moderator, Professor Michael Casey, are working out plans for the spring semester at this writing. Chief among the plans is a field trip to study production procedures at a brewery. Such activities should help provide members with first hand knowledge of the business world.

President Bob Bombara tells economists how he's planning to take over the Big Bull Market.

FLYING CLUB takes off

The Flying Club, under the direction of Bro. Michael, has again given the college six fledgling flyers.

Flight safety and ground instructions were stressed by Bro. Michael to insure proper plane handling to the members once they were airborne.

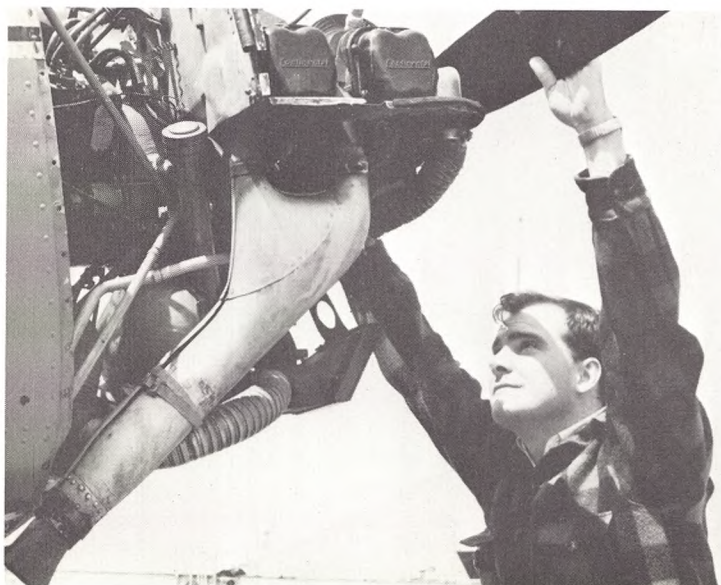

Over the years many pilots have received their initial instructions from the Moderator and have received excellent preparation for many continuous hours of flying enjoyment.

Out of the Depths of the FRANCISCAN

Editor Fabian DeJesus . . . at work? ? ?

Photographer Bill Breyfogle and his incredible spy-camera which enabled him to get so many candid shots this year. Everyone thought it was a cigarette lighter.

The 1968 *Franciscan* started off on the right foot in September with a membership of close to twenty men but as work began to accumulate the numbers became more and more depleted. This only gave us a skeleton crew to work with but when deadlines came around that crew quickly crumbled into four dedicated members of the staff doing the bulk of the work.

The general inefficiency and lack of cooperation by many of the clubs, fraternities and not to mention some of the staff members kept us up to our necks in work for most of the year. Thus when we say that the book you hold in your hands is the result of blood, sweat, and tears—we mean it.

In spite of our setbacks, we have been able to record in pictures and in words the events which made history at St. Francis this year, and the men who helped to put this book together can take pardonable pride in their accomplishment.

In conclusion, we here in Room 500 would like to extend our regrets to those who found their picture unflattering; did not find their picture at all; saw their picture and someone else's name; their name and someone else's picture; had their name spelled wrong or did not have their name spelled at all; and finally to those of you who are grammatical purists.

FILM SOCIETY turns on

Tom Bockrath, Dr. Bush, Anthony Porter and Joe Mercurio, the guts behind the successful running of the Film Society, pose behind the Grand Old Lady.

A dedicated committee presents Saint Francis College's own Film Thing. We recognize that the film has become a new medium which has found itself. No longer is the film a moving picture for a staged play or a re-written novel, but it has become an art form unto itself and warrants an independent examination.

A series of select films are presented in a continuous scheme of development. After the society views and experiences the film, its techniques, direction, cinematic performance, message and purpose are examined and explicated with the accompaniment of coffee and cake.

SCIENCE CLUB catalyses

President Richard Bradley . . . the man in the know.

Under the leadership of President Richard Bradley and Vice-President Peter Bruno, the Science Society has taken on a forward look and has become very active in preparation for the opportunities which will be afforded in the new laboratories.

The year began with a lecture on "Organic Synthesis and Modern Rocket Fuels" by Dr. Vincent Perciaccante of Brooklyn Polytech's Polymer Research Department. Shortly after, the Society was off to Philadelphia where they visited the U.S. Naval Aerospace Development Center. The semester was brought to an end with a very successful Christmas Party which was open to all students.

The spring semester turned to the advancement of science in human areas, and to support this venture the Society sponsored a dance in the school lounge. The plans for the semester included a lecture by Dr. Vernon Bryce of Rutgers University on "Life Suspension" arranged with the help of the Society Moderator, Dr. John Burke. The Society also helped in arranging a Duns Scotus Lecture with Dr. Adrian Kantowitz, the internationally known heart surgeon. In an effort to relate science to other disciplines, the officers arranged a seminar between the Science and Psychology Departments, for a discussion of human response.

It is through these activities that the officers of the Society hoped to fulfill the primary goal of the organization—an awareness in the student body of the many important changes in the rapidly growing world of science.

The officers would like to see the proper example set to the underclassmen so that the students of the college can grow in the scientific area as the physical boundaries of the college expand.

Dr. John Burke, moderator, casts a watchful eye . . .

I. R. C. expands its programs

Joe Campanaro, President of the I.R.C., power hungry opportunist, tries to explain that George Hamilton dresses that way.

The 1967-68 program of the International Relations Club broadened the organization's spectrum and instituted a number of new evening activities.

Early in the year it sponsored a six speaker symposium on the proposed New York State Constitution. Participating in this project were former Assemblyman James Tully and the Assistant Director of the State's Liberal Party, Paul Greenburg.

With the rising interest in the sometimes actor, sometimes governor of California, the Conservative Club, headed by Chairman Bill Noonan, organized a film-lecture. *The Truth About Communism* narrated by Ronald Reagan and a discussion led by Prof. James McGinnis provided an opportunity for our "extremist element" to get together for an evening of red-baiting.

The IRC also took an historic step, along with the Student Council, in sponsoring the first Jazz concert at SFC. Realizing that international understanding can not be accomplished without a feeling for culture and the arts, Ahmed Abdul-Malik presented the student body with an exciting program of African and Middle Eastern Music.

Geza De Rosner, Edinburgh Film Festival and Emmy Award winner, lectured on *Peru Today*. With the aid of his documentary films he traced the history of Peru from the pre-Incan civilizations to the Presidency of Belaunde Terry. Mr. De Rosner is a world renowned lecturer-explorer-adventurer.

Through the efforts, particularly of President Joe Campanaro and Treasurer Cliff Mylett, and the other officers the year must be recognized as one of the club's most interesting and productive.

Comrade Pat Reavy explains to Cliff Mylett and Bob Mishko why Red China must be recognized. "It's Big."

MATH CLUB adds up

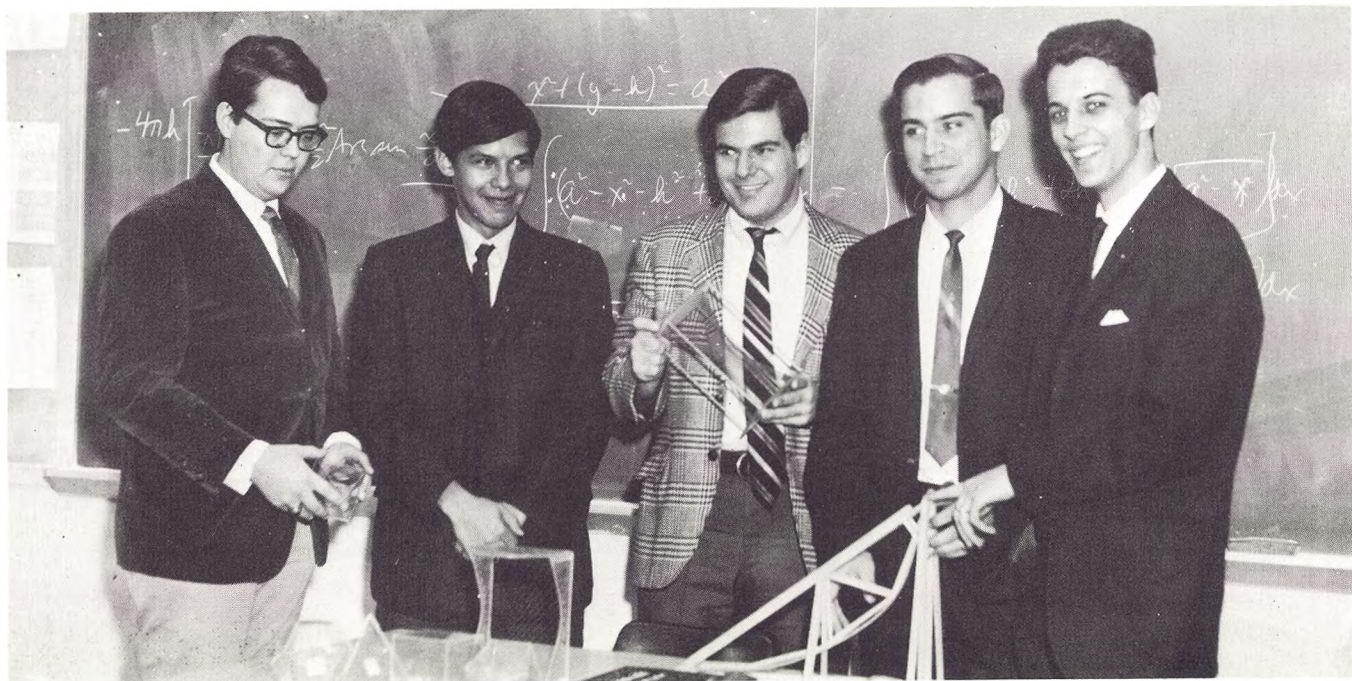

Bro. Leo lectures on the Octehedron.

The Math Club, one of the oldest curricular activities in the school, completed another successful year under the guidance of its moderator, Bro. Leo. Through the administration of its officers, Steve Schwaroch (President) Jerry Benes (Vice-Pres.), Bob Purcell (Treasurer), Jim Tupino (Secretary), and Ron Banasyek (S.A.C. Rep.), it conducted and participated in various functions with Molloy and St. Joseph's College for Women.

In October, the Math Club went to a lecture hosted by Molloy and given by an expert in the field of mathematics. Next, a forum was held at St. Joseph's at which Seniors John Kosta and Tom Bannon were the speakers. Career Night which has been

conducted annually and is a source of information for opportunities for those who are mathematically inclined, proved to be a great success this year—thanks to the time and effort donated by the Alumni. Finally, a Math Bowl was held at St. Joe's and was based on the format of the television regular College Bowl. The team from St. Francis emerged the victor and was hailed by both teams as a great experience to be tried again.

Through its films, lectures, tutoring service and the efforts of Bro. Leo, the Math Club has been a source of great benefit to its members and to the students of St. Francis.

LATIN AMERICAN SOCIETY hablan . . .

Dr. F. Crowley, head of the Latin American Studies Department.

Aside from sponsoring projects at the College, the Society had members traveling south of the border this past summer, as it has in previous years. Two of our '67 graduates spent study sessions in Mexico while one of this year's grads, Kevin MacNamara, worked for two months in the rural areas of Puerto Rico. In the area of academics, our moderator and head of the Latin American Studies Department, Dr. Crowley, was instrumental in bringing about changes in the curriculum requirements of the Department which, it is hoped, will lure more candidates to declare as Latin American Studies majors. Chief among these changes was the dropping of the summer abroad requirement which had proved to be an economic barrier to many prospective majors. Next year, an increase in the ranks of the Department is expected as more and more students are made aware of the different areas towards which a Latin America degree can be applied such as sociology, language, history, international business, government service and the like.

PHOTO CLUB exposed

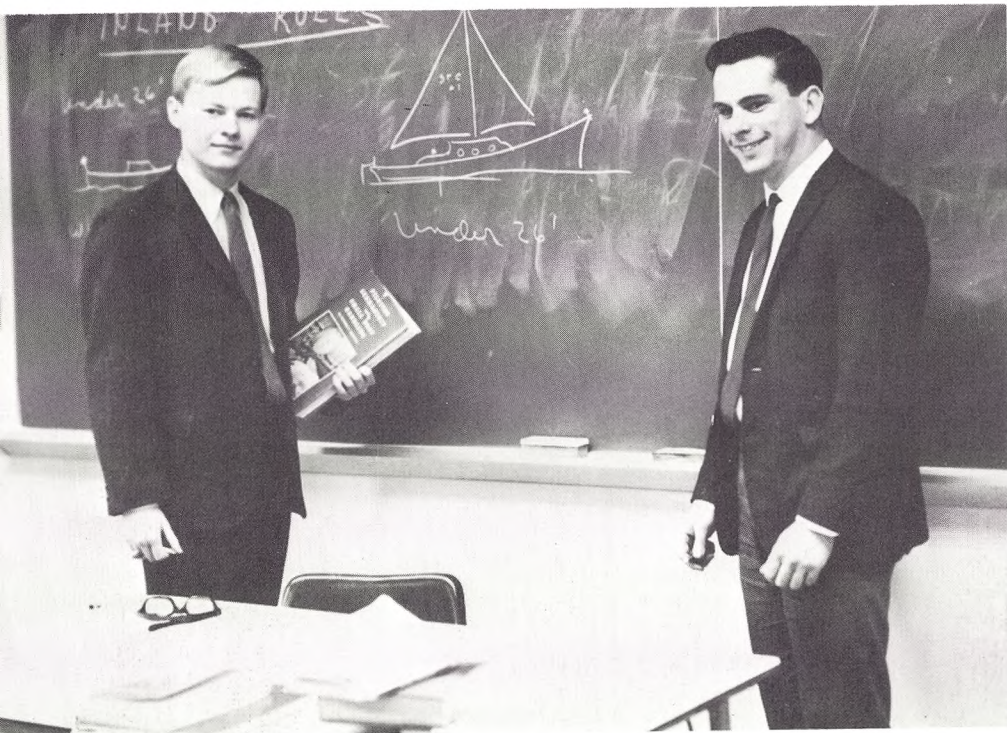

Photographers Bill Breyfogle, Jim Mitchel, Ted Timmins and Joe Westfield wait to join the human race.

Newly formed and with only a limited number of members, the Photography Club has accomplished a great deal. The six active members, all very interested in photography decided to band together for mutual protection and to save on their flash-bulbs. The club has undertaken photo tours of the N.Y.C. subway system (illegally), and has an art and

photo exhibit planned for the spring.

Under the leadership of Ted Timmins, President, the club has attempted to bring photographic coverage to every aspect of college life. The "creative" efforts of photographers Bill Breyfogle, Jim Mitchell, Joe Westfield and Joe Mercurio have provided ample photographs for the school's various publications.

SAILING CLUB in victory

Ron Eidshaug and Joe Mulhern lecture on inland rules to the members.

The Sailing Club under the direction of President Joe Mulhern and Vice-President Ron Eidshaug, has again completed a successful year of sailing meets and events.

Besides giving the novice sailor a good background in sailing techniques and boat handling, water safety is stressed to insure the safety of the team members on the water.

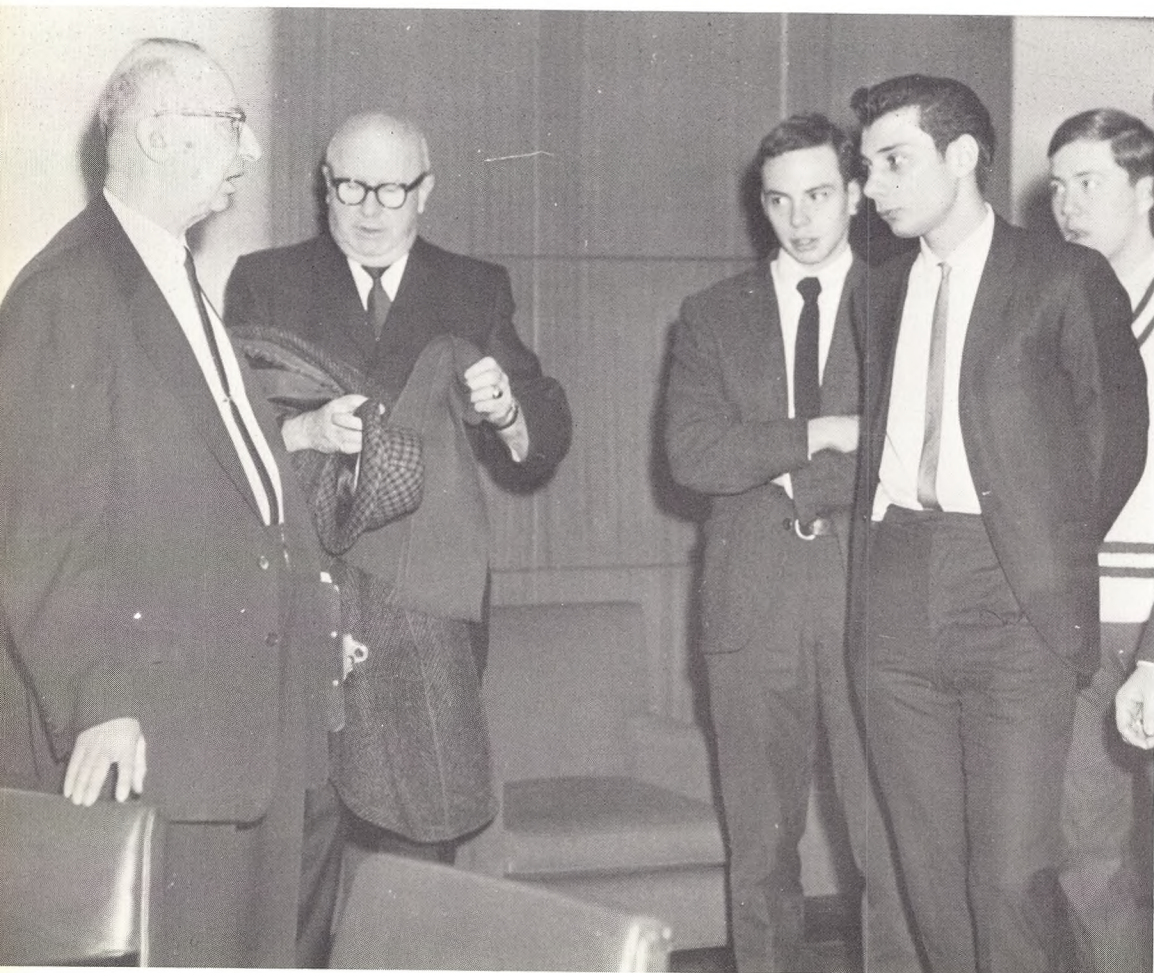

Having twelve meets to their credit, the Sailing Club has placed in all but two of the meets. Thus, it was a very good year for the Club and all members involved.

Frank O'Connor, Mike McInerney, Conrad Leifauf, Terry Ellison, John Lomacchio, Bob Dennis, Frank Cavallo, Phil Caserta, Joe Carone, Rich Gido, Gary Isgro, John Dellasala, Ronnie Eidshaug, Joe Mulhern, Mike Pregot, John Nash.

Dr. James J. Flynn, Moderator of the Society, Tom Killeen, Secretary, Richard Emmer, Howard Muchnikoff, President, Joseph Forte, Robert Bombara, John Shonshoma, Court Staff Officer.

Dr. Flynn, Killeen, Emmer, Forte, Bombara.

This year has proved to be an exciting and informative one for the members of the Law Society. A provocative symposium on the book *Challenges* by James B. Donovan, hosted by Bro. Urban Gonnoud, highlighted the Society's evening program. A tour of the New York State Supreme Court introduced the members to the practical side of law.

Under the guidance of Dr. James Flynn, its Moderator, and Howard Muchnikoff, its President, the Society founded its first Journal. Primarily, the Journal will help to acquaint the undergraduate with the legal profession through expositions of the latest developments in the field of jurisprudence. Secondly, the Journal will help to eradicate the many misconceptions concerning the admission policies and academic reputation of the various law schools in the country.

Membership in the Society does not necessitate prior knowledge of law or pursuance of the legal profession. What the Society tries to do is to inculcate in the undergraduate a love and respect for the law as well as instruct him in the importance of legal knowledge in all fields of endeavor.

PSYCHOLOGY CLUB analyzed

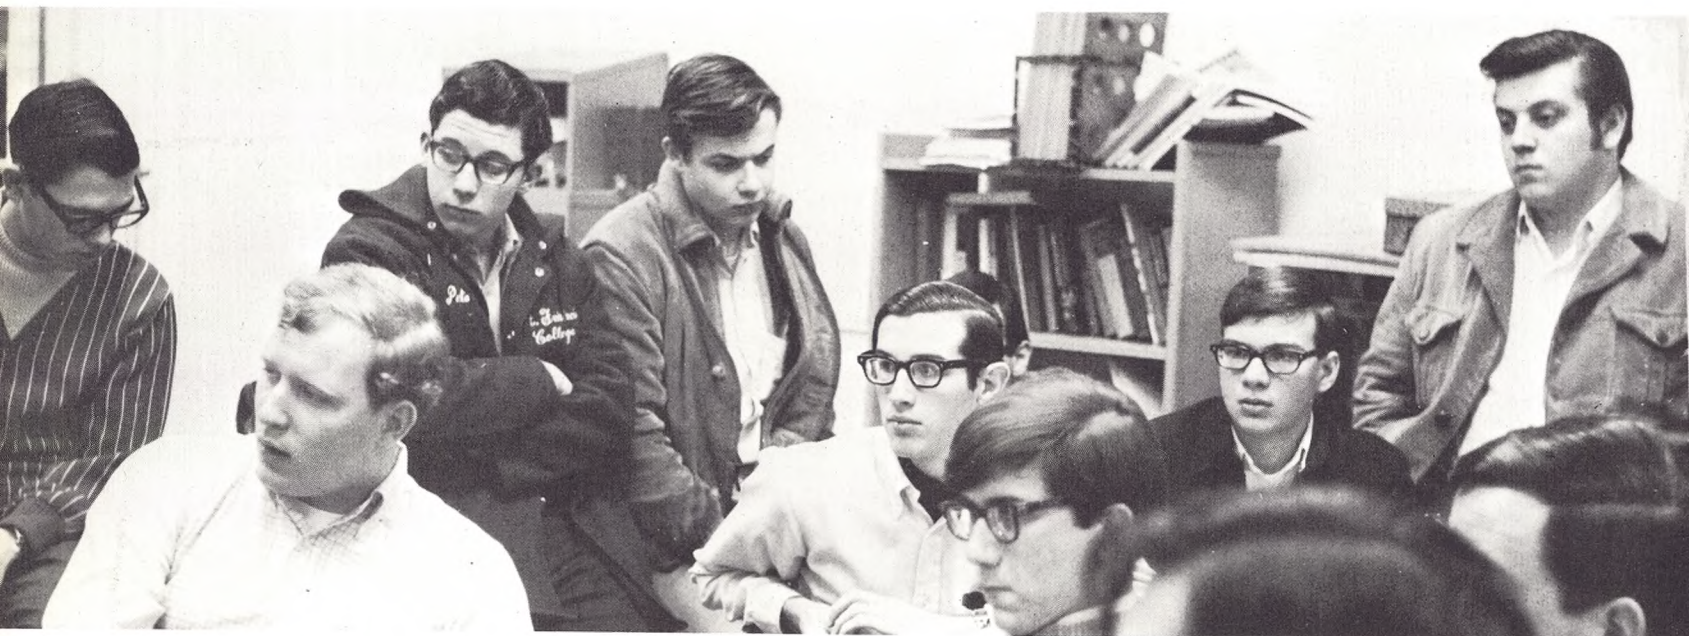

Mr. James Perrone listens intently to the analysis of one of the students.

Under the able leadership of Mr. James Perrone, the Psychology Club, although only three years old, has established itself as one of the leading clubs of St. Francis College.

In its endeavor to familiarize its members with the ever changing and forward moving world of Psychology, the club has sponsored a variety of activities including field trips, guest speakers, films and experimental demonstrations.

As part of the expanding experimental program of the new Psychology Department of St. Francis, the Psychology Club was instrumental in obtaining aquatic apparatus for experimentation. This is the first attempt at animal conditioning at St. Francis.

Most of the success of the Club must be attributed to the efforts of its officers and to its Moderator, Mr. Perrone.

the rise of the GERMAN CLUB

Under the direction of Professor Sidney Rutar the German Club had another successful year. Membership was increased through the showing of various films that depicted many various aspects of the German culture. The films were obtained through the German Consulate in New York and allowed the serious student of the German language to visualize the full cultural ramifications

that are connected with such a historically colorful language. Notwithstanding the cultural values that may be gained from membership in the club, the club's main purpose is to promote a better understanding of the German language through informal, yet thoroughly gainful seminars that are held in conjunction with the weekly meeting.

German Club demonstrates that a serious tone can be maintained at a meeting despite entertainment.

Club members take time out with Moderator Sidney Rutar to become immortal.

SOCIOLOGY CLUB

discusses issues . . .

Dr. Clement Jedzrejewski, Chairman of Sociology Department, addresses the Sociology Club.

The Club flourished under the admirable leadership of President Joseph Mercurio.

With an even larger membership and a new moderator the Sociology Club, under the dynamic leadership of President Joseph Mercurio, planned a full and exciting semester of programs that ranged from films to field trips and from speakers to seminars.

The Club worked closely with the Afro-American Society in exploring the sociological and other various sundry reasons for the full meaning of the Black Movement. Speakers Tom Cornell, former editor of *Commonweal*, and Joseph Church, Prof. of

Psychology from Brooklyn College, spoke on the timely topic of the Viet Nam War; which was followed by the film "War Games," presented in conjunction with the Film Society.

Allan Udoff, a Jewish student here at the college, presented another timely lecture on the possibility of organized religion in the 20th Century.

In the future, the Club hopes for closer cooperation with other organizations in the growing problems of the urban community.

The Sociology Club meetings vary from week to week and may present topics and speakers from the many different fields that comprise the culture of today.

STUDENT EDUCATION ASSOCIATION

The future teachers of New York listen to a lecture by one of New York's best.

Robert Ford, the president, addresses the general membership.

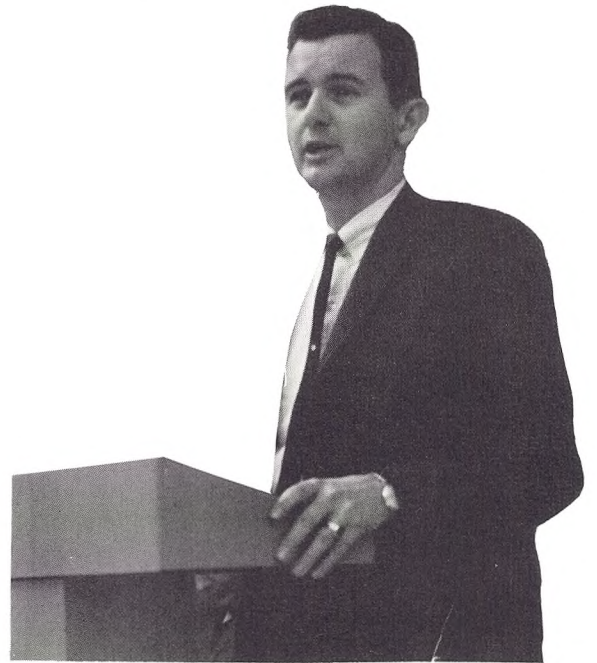

The Student Education Association of New York State is a co-curricular, professional organization formed in order to give an opportunity to future teachers to grow professionally. By their active participation in the discussions, projects and lectures, they are made aware of the educational problems and advances of today.

First hand experience is gained by the members who volunteer their time to help students in the neighboring schools with their lessons. As an affiliate of the National Education Association, the members are offered an opportunity to engage in statewide meetings, discussions, and projects. The Student Education Association provides the link between the theory of learning and the practice of teaching.

TROUPERS

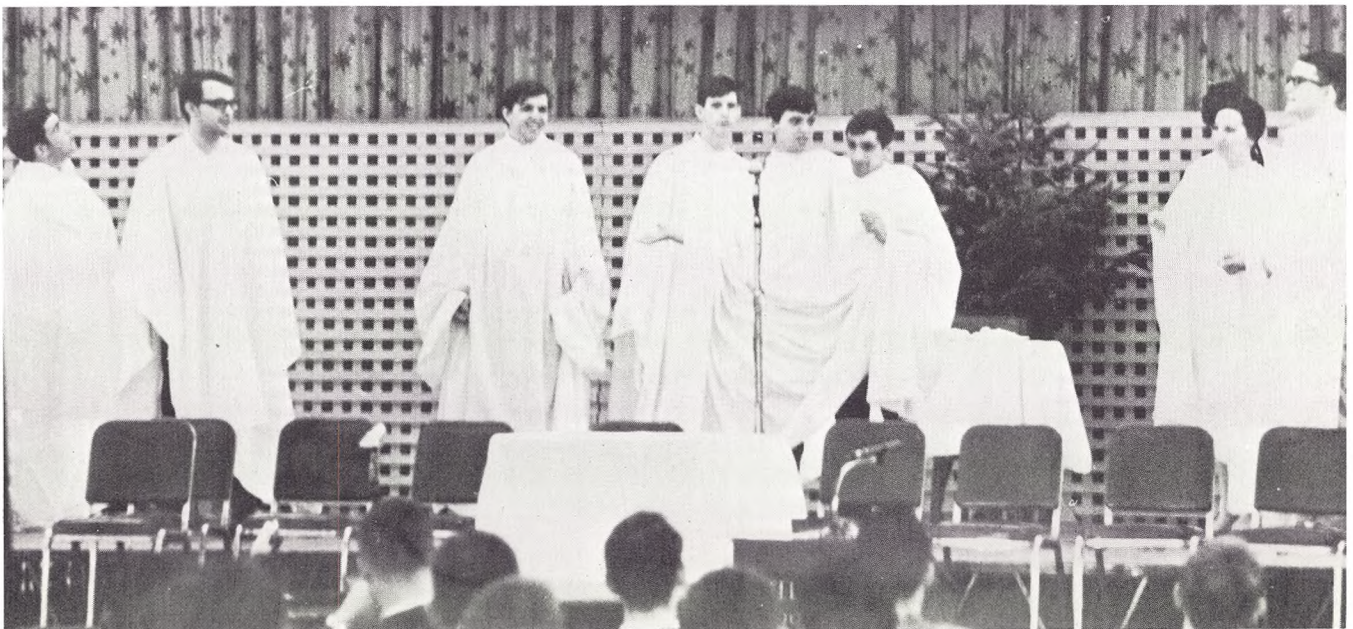

Within the last year, *The Troupers* Dramatic Society has emerged as one of the major activities of St. Francis. Under the able leadership of Brother Anthelm Drowne, the Moderator, and Professor John Clifford, the Director, the society has come up with a number of progressive achievements.

In the Spring of 1967, *The Troupers* staged *Oedipus Rex*. It was a daring project which marked the first time the society ever attempted classical drama. Many felt it was too ambitious a project, but *The Troupers* believed they had enough talent both on stage and backstage to experiment. The production received such unanimous praise that the society decided to undertake an even larger assignment for the Fall of 1967.

To portray the philosophical and psychological drama of Pirandello's Nobel Prize winning *Six Characters in Search of an Author* effectively, is no easy task. Yet the combined effort of *The Troupers* and St. Joseph's College *Chapel Players* proved that it could be done. The eight long weeks of dedicated work by all concerned payed off in another success.

At present *The Troupers* have about twenty members—a large increase from a few years ago. The officers are: Charles D. Rossi, President; William Farrell, Vice-President; Raymond Sullivan, Secretary-Treasurer; and Charles Isola, S.A.C. Representative. If facilities become available in the near future, the society will stage another first—a musical production.

SILLION gets off the ground

Bill Trentman inspects the new *Sillion* office.

The *Sillion*, or literary elite of St. Francis College, tries each year to prove that the college student of the nineteen sixties is capable of composing a clear, concise English sentence. Since this project has been a dismal failure, the Editors (chief culprits: Bill Trentman and Jim Kelly) have decided instead to print poetry of questionable value and prose aimed at confusing the average reader.

Although there has been a marked increase in the number of *Sillions* found strewn about the floor of the Lefferts Boulevard bound "A" train, the editorial staff has been doing some serious soul-searching about the relevance of their semi-annual quarterly. Finding that there was absolutely no interest in the publication, they decided to expand. The result has been the *New Sillion*, affectionately dubbed "SFC's Semi-annual Quarterly Literary Magazine for Non-literates."

Just like any college fraternity, new Knights are required to go through the process of "initiation". Members have to go through four degrees of initiation. Three of these degrees are completed in one year while the fourth requires a wait of at least six months before it may be administered. Presently, February through March are tentative dates for the first two degrees to be administered at St. Francis College. A plaque is being prepared for this council, but you also stated: "I think the council open for a month to see how the Knights of Columbus organization will fit into the general Knights of Columbus organization. As it is outlined in one of their pamphlets, the goals of the Knights of Columbus have remained relatively the same for almost a century: "1) to render pecuniary aid to its members and beneficiaries of members; 2) to render mutual aid and assistance to its sick and disabled members; 3) to promote such social and cultural intercourse among its members as shall be desirable and proper; 4) to promote and conduct educational, charitable, religious, social welfare, war relief, and welfare and public-relief work."

The first meeting of the Association of Evening Students was held on Tuesday, February 27, at 7:30 p.m. at the Hamilton Hotel. The meeting was held in a soft atmosphere, they enjoyed a rib-of-beef dinner. After lunch, the group attended an open-air briefing on an experimental ejection-seat mechanism which was given by the Division Supervisor, Mister William Law. Following the briefing, they witnessed a test shot which was scheduled especially for them. This was followed by a lecture given by Mister Noble of the Horizontal Acceleration Sled Area. He explained the function and versatility of its use. The group was informed that this is the leading branch of research and development in survival equipment for the life sciences.

The Council often researches past stories and articles written by the man under consideration to establish the proficiency of the writer; the quantity of work turned out; and the attitudes of the author. This is yet another measure of the man, but again, not enough to judge him by. We may be proficient and prolific; we may turn out reams of articles issue after issue; we may even feel the same way as the majority of those who elect us, but we may not know a "dummy" from a "paste-up"; a "master galley" from "authors changes"; a "story caption" from a "halftone."

It is our contention that the council has no conception of the afore-mentioned or a host of other complications that confront the editors and staff of this paper. The staff, on the other hand, is aware of the many problems inherent in running a school newspaper. They are constantly working to insure the students (a paper's first responsibility) of a publication that strives to present a total picture of the college. Staff members are also aware of those who, throughout the year, have learned the ins and outs of the newspaper business can best lead them in the year ahead. We are appealing to you to consider the worth of our proposal i.e.,

Phi Rho Pi, the oldest national fraternity at St. Francis, founded in 1924, has just witnessed one of its most successful academic years in its history. Strictly classified as a social fraternity, Phi Rho Pi has sponsored its annual Christmas Toy Drive for the orphanage which turned out more toys than ever before.

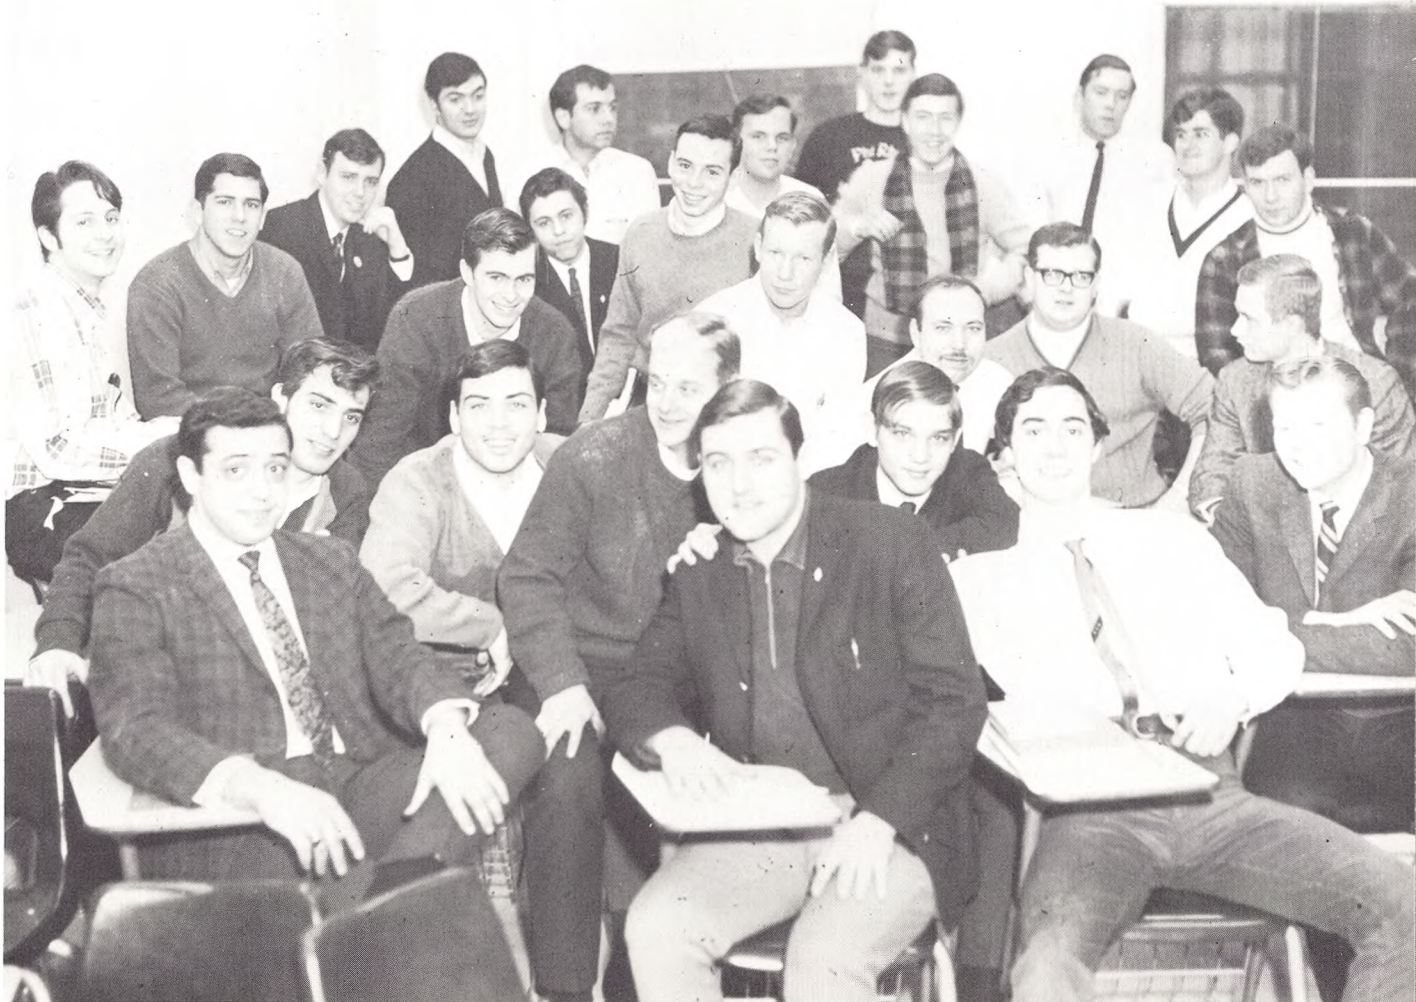

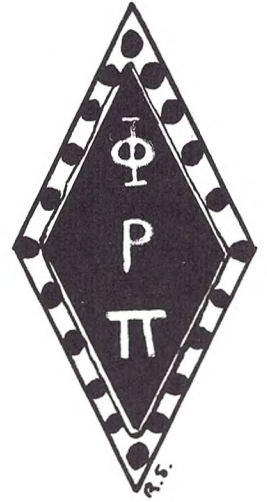

The Annual Phi Rho Pi Blood Drive contributed another large amount of blood to the St. Francis blood bank. Because of its success we have been asked to sponsor a spring blood drive which we are confident will arouse as much enthusiasm as in previous years.

The academic year was opened with one of the social events of the year. The traditional Pre-School Blast set the mood for a quick moving and lively year. In November, Phi Rho Pi held another Cotillion dance which proved to be equal to its forerunner. At this time of the year, in preparation for the "Annual Faculty Night," brothers of Phi Rho Pi initiated badly needed reforms on the interior of their fraternity house.

John Sullivan fell into the category of "past praetors" as Frank Marzullo took over the reins, commencing with the 1968 elections.

Phi Rho was fortunate this year in having four brothers receive the Who's Who Award including John Sullivan, Kenneth O'Brien, Don Hayward and Raymond Sullivan.

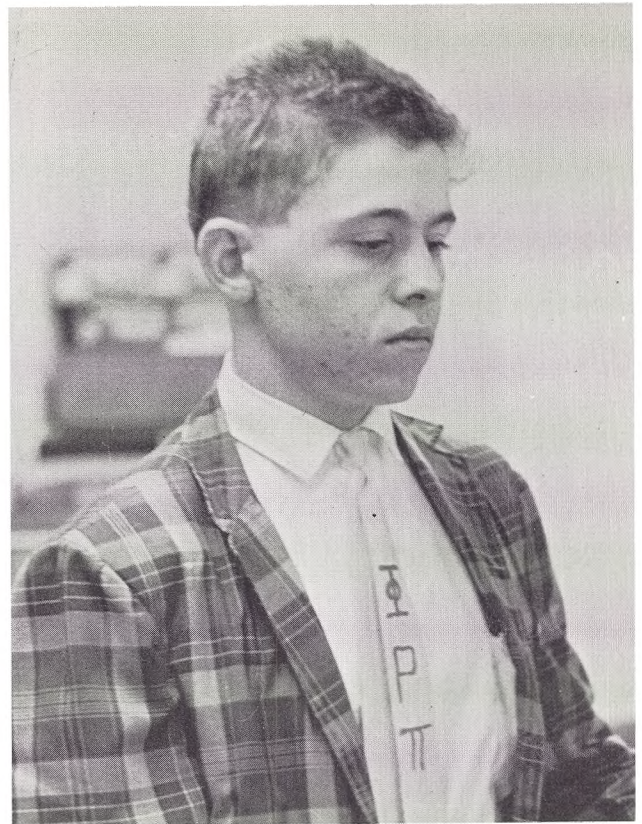

Six brothers were also fortunate to receive the Franciscan Spirit Award. They are: Thomas Killeen, Donald Hayward, John Sullivan, Raymond Sullivan, Kenneth O'Brien and William Rooney.

Founded in 1906, Pi Alpha Fraternity has become a traditional mainstay at St. Francis College. The academic year of 1967-68 marked a rejuvenated Pi Alpha, a fraternity which fulfilled to an eminent degree its noble aims. That is, the advancement of its members in both scholastic and social endeavors. This task was ably undertaken by its Archon, Tom Dunne.

Pi Alpha is not an ephemeral organization. It is one which grows with the years, and is composed of athletic, studious, and socially minded men. These men will not cease to do their utmost for the honor of Pi Alpha, no matter what fields of endeavor they may enter upon graduation.

The underlying factor of Pi Alpha is its spirit. This spirit is, has been, and will continue to be, an integral part of the traditional spirit of St. Francis College. Through the sixty years of its existence, Pi Alpha has become the essence of the repeated phrase, "For God, country, and St. Francis."

Brothers Jack Welnicki, Al Salsarulo, Tom Caiafa, and Phil De Felice make a big 10¢ sale.

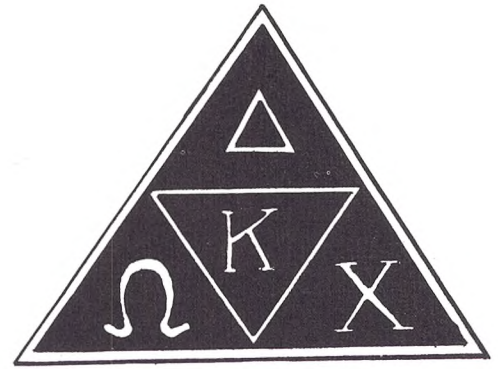

The year 1961 brought to the St. Francis College campus (then on Butler Street) a new fraternity—OMEGA DELTA CHI. The founding brothers with the spirit of brotherhood and the zest for a social life cast the mold for this new fraternity. Once presented to the student body, Omega attracted many men who helped shape and build a rich tradition in accord with Franciscan ideals.

Today, Omega is still increasing its brotherhood with St. Francis men who show that characteristic "joie de vivre" attitude which has always been a binding force among our brothers. Early in October, Omega moved into its new Frat House and "operation shape-up" went into action. The house was soon made usable for both meetings and parties—but mostly parties. In late February, Omega joined forces with the girls from St. Joe's and held a very successful Beer Racket at St. John's Hall. This March and April we find the Brothers of Omega and Alpha Phi Delta doing charity work together for the Red Cross in a co-sponsored Easter Drive.

And also this spring, Omega will institute its first Reunion; a night when past and present will merge—in stories, both old and new, and jokes—some good and some bad but most of all in laughter and song. A night that will always live in Omega's History.

Brothers Jack, Al, Tom, Joe and Phil display smiles of joy and high spirits.

Since its founding in May, 1964, the Zeta Iota chapter of Alpha Kappa Psi has distinguished itself at St. Francis College. Zeta Iota combines its business activities with an active social calendar.

During the past year, the fraternity has held luncheons in the Hamilton Restaurant. Our last speaker was Mr. Humm of the brokerage house Merrill Lynch, Pierce, Fenner & Smith. As a whole, all of the professional meetings of the fraternity were informative and provided the brothers with deeper insight into the business world.

Throughout the year, Zeta Iota has performed many activities in the College. Some of which were: sponsoring of the first bus ride in support of the club football team, two successful dances in the school lounge and helped play an active part in establishing the Red and Blue Q.

The Alumni association has also assisted us in helping to make the Fifth Annual Christmas Dance at the JFK International Hotel a tremendous success.

The brothers of Zeta Iota were proud to have as their newest faculty member Prof. Michael Casey, Chairman of the Economics Dept. Prof. Casey has shown a tremendous amount of interest in the fraternity by attending meetings, social affairs and our Christmas Formal.

The brothers of Zeta Iota joined with the brothers of Fordham U. for our regional convention which proved to be profitable both educationally and socially.

Recognizing its dual role as a part of a national fraternity and as an integral part of the St. Francis community, Beta Sigma chapter of Alpha Phi Delta fraternity is a constant working force in both spheres. Under the leadership of Mike Gagliardotto, succeeded as president in January by Pat Socci, the chapter continues fostering its ideals of scholastic achievement and the promotion of Italian culture.

The chapter received unique recognition at the annual convention in August by being selected "Outstanding Chapter" of the national fraternity. Beta Sigma was also honored in having its former Vice-President, Santo Barbarino, chosen "Outstanding Undergraduate."

The intellectual and social atmosphere of the college has been enriched by the activity of the brotherhood. While maintaining the highest index among fraternities, they have continued the cultural exhibits in the library. The chapter has also donated vestments for use in the school's chapel as well as purchasing the cornerstone boxes for the two new buildings. The efforts of the brothers have extended from intramurals to Duns Scotus. In short, Beta Sigma has disproved the thesis that all fraternities are self-centered associations of students.

Sigma Gamma Pi, the newest fraternal addition to Saint Francis College, is rapidly establishing itself as one of the most active fraternities on campus. The brothers have shown their interest in school activities through participation in the intramural program, the Blood Drive and their annual Easter Clothing Drive.

The intramural program seems to have captured the greatest interest. The Brothers have won the championships in both football and volleyball. They hope that this is only the beginning of athletic supremacy in the College.

The Blood Drive provided another opportunity for the Brothers to show their school spirit. In their first year, they donated the second largest amount of blood of all organizations in the school that participate actively.

The Annual Easter Clothing Drive, sponsored by Sigma Gamma Pi, was a great success in its initial year. This year should prove to be an even greater success with the support of many outside organizations.

Through all these activities, it is evident that Sigma Gamma Pi maintains one of the highest positions in regard to social activities and services it may provide to the College.

The National Honor Fraternity in Economics was established as the Eta Chapter at St. Francis College in 1961. Its purposes are to foster an understanding and appreciation of the science of political economy through scholarly investigation of problems that have confronted our society both past and present. In addition, it seeks to apply the analytical tools of economic research learned in the classroom to actual circumstances. To help achieve its goal, the society presents guest speakers at its meetings during the school year.

This past year Mr. James O'Connell, a teaching fellow and NDEA scholarship winner attending Fordham, spoke to the membership concerning graduate school and opportunities for admittance. On another occasion, Mr. Frank Koelble, the Assistant Director of the Industrial Research Institute at Fordham, addressed the Fraternity about the steel industry and the recent developments in that area.

Inasmuch as it is an honor fraternity, membership is contingent on scholastic achievement. A student must be an economics major and must possess a cumulative index of 3.00 not only in his economics courses but in his overall index. Because of these strict requirements, the Fraternity's moderator Dr. Joseph Ford is able to insure that only deserving students of exceptional ability receive this honor.

Dr. Flynn with a handful of future historians at one of their meetings.

The Theta-Nu Chapter of Phi Alpha Theta, National History Honor Society, has been in existence at St. Francis College since 1962. Under the leadership of its moderator, Dr. James J. Flynn, Chairman of the Department of History, the society has steadily increased its numbers since its original initiation in 1962. This year saw the largest single initiation group in the Chapter's history and all looks well for the future.

Among its activities this year the society held a convention in late March at the school in which many major topics in past and contemporary history were discussed. With its large membership of promising historians Phi Alpha Theta anxiously looks forward to next year.

ASSOCIATION OF EVENING STUDENTS

The Association of Evening Students is the only organization in the college designed solely for the benefit of the Evening Session student. The organization has been in existence for some years and has been more active in the 1967-1968 school year than at any other time in its history.

Jim Bozart, President of the Association, reports that during the fall semester the Association had 108 members, a figure which exceeds the largest previous membership. Over 40% of all evening session students are members of the Association and Jim reports the Association's membership is still growing.

The Association functions as a social and administrative organization and represents the specialized interests of the evening session students in these two areas. The Association works closely with the administration of the college to make known the needs and desires of the school's evening students.

During the past year Jim has been ably assisted by: Walter "Scoop" Leen, who serves as Vice-President; Jack Danaher, who is the Corresponding Secretary; Ken Brown, who is the Recording Secretary; and Joe O'Neill, who is the Association's Treasurer. Although not one of the Association's officers, Jim Murphy served admirably as Chairman of the Annual Dinner-Dance Committee.

The Association holds an annual summer picnic which was held at Davies Lake, New York, in July of 1967 and a Christmas Smoker which this past year was held at the Roof Garden of the Hotel Saint George, and was highlighted by a live jujitsu program. The Association also conducts an annual dinner-dance which was held at the Tavern On The Green at Central Park. Monthly meetings, at which refreshments are served, are conducted on varying nights of the week so that all students have an opportunity to attend.

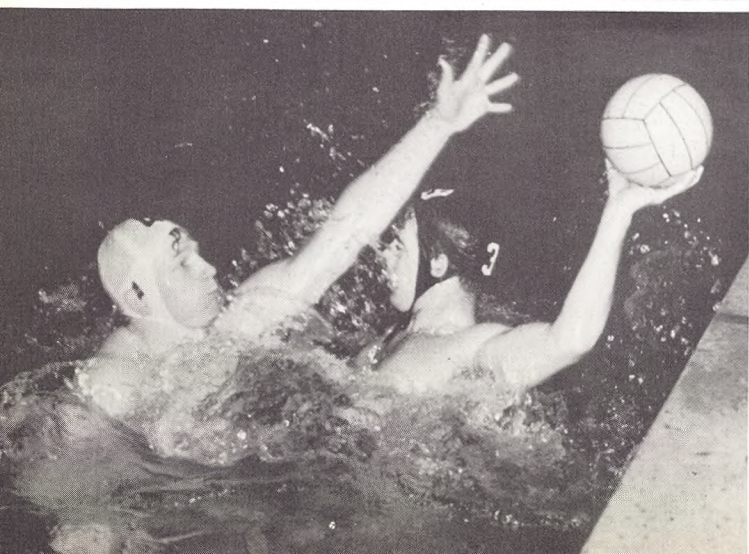

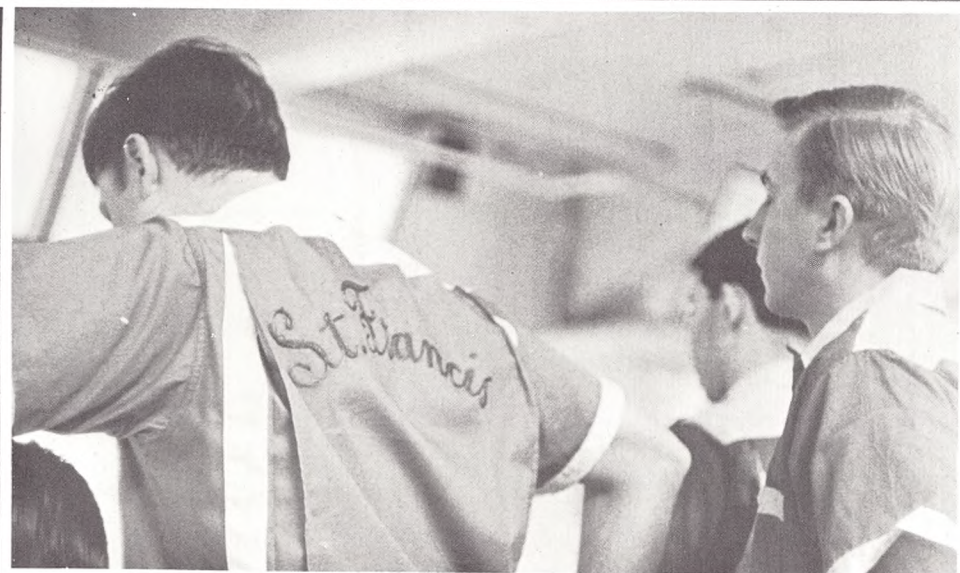

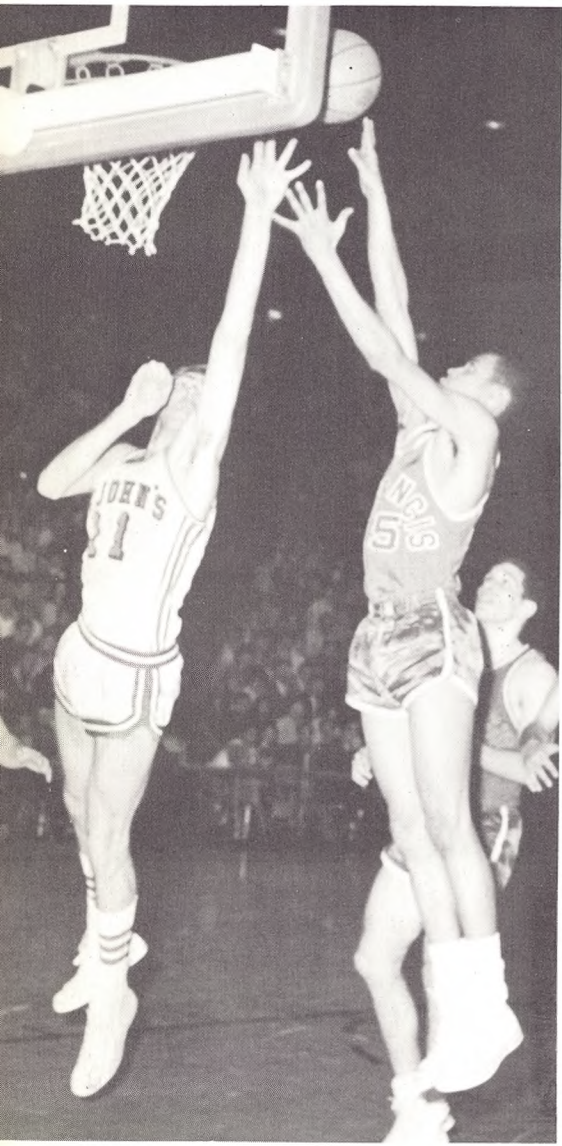

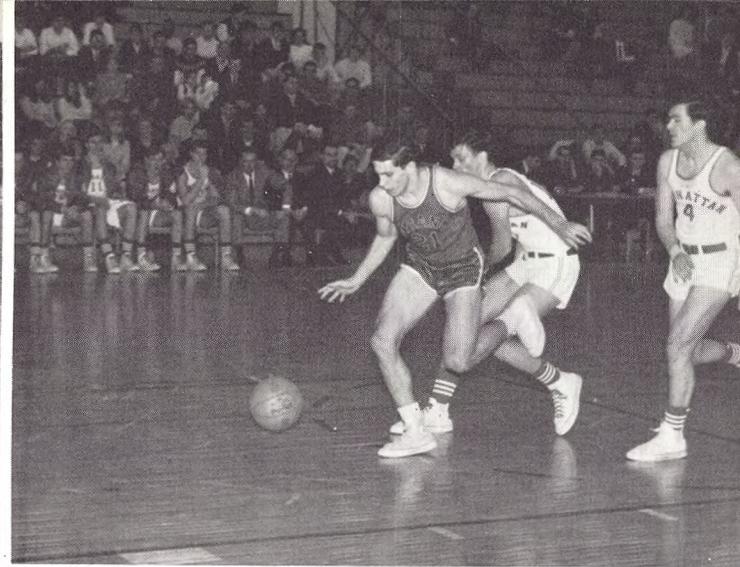

Next year, why don't you join the Association of Evening Students and take part in the only extracurricular activity that is easily available to you!

WATER POLO SQUAD

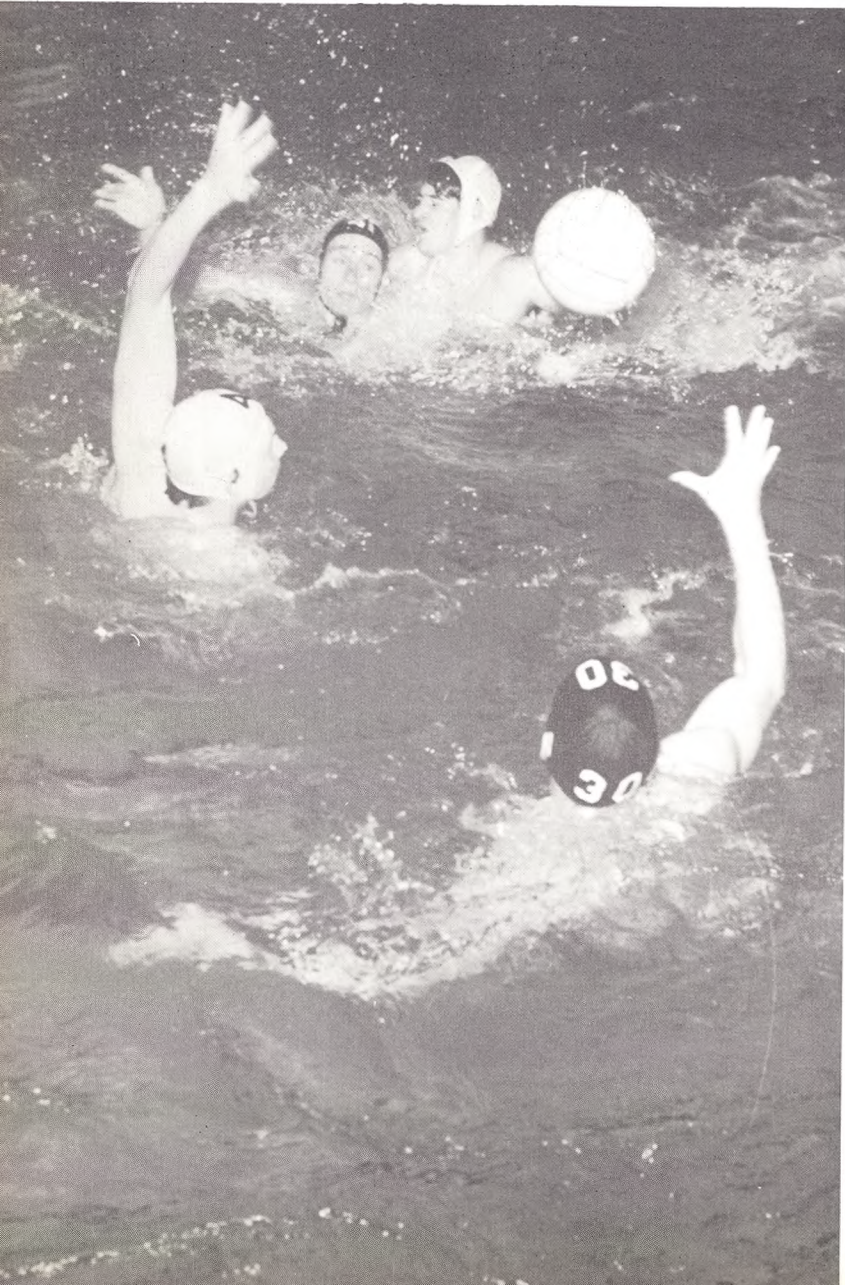

CHARLES L. SCHAEEM
Coach

The St. Francis College water polo team is presently seeking an unprecedented fourth consecutive Eastern College Water Polo Conference championship. The Terriers are once again led by top scorers Captain Dennis Christy and Bill Harris. These two All-Americans combined 125 goals last year in leading the squad to a 15-1 record. Eight of those victories came in conference play, resulting in a 24 game winning streak in league competition over three years.

Juniors Joe Vohs and Jim Thamm have been an integral part of the team's success, Joe being a superb all around player and Jimmy a stalwart on defense. Successful coach Charles Schaem will call upon John Jacques, Doug Schenk, Bob Bombara and Frank Schneller to provide experience and know how in many games. Freshmen John Murphy, an expected starter, Pete Leonard, Lou Goia and Joe Viviani are expected to be valuable additions to the team.

Stiffest competition is expected to come from the well conditioned cadets of West Point, Yale University and Queens College. The L'il Terriers are hoping to encounter powerful Indiana University again in the West Point Tournament. Indiana was the only team to defeat St. Francis last year.

The water polo tradition at St. Francis can be summarized in one word—success. Tremendous swimming powers such as Yale and The Point have continually been victims of the aquamen's superior fundamental skills and sense for the game. This year promises to be no different from past years.

Exedrin headache #13 for Coach McElroy: Richie Aquilina.

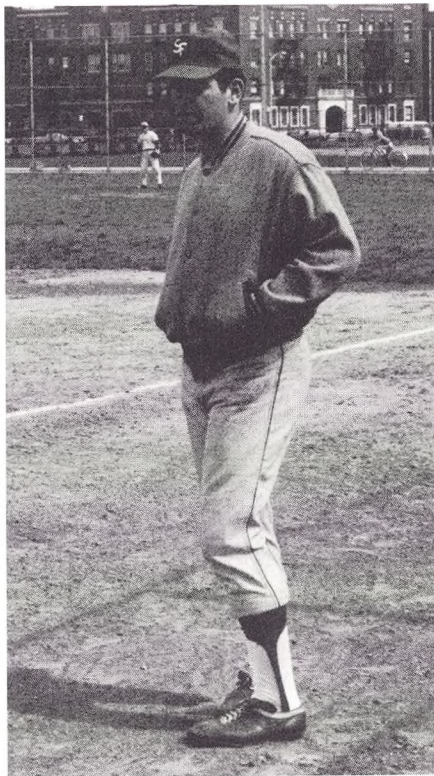

The 1968 season will present a formidable challenge for Coach Jim McElroy and his Terrier Baseball Squad. Not only will the team remain in the Knickerbocker Conference, but it will also compete in the very tough Metropolitan Conference. However there is a nucleus for a fine performance from the team, and every member feels that a dual championship is a distinct possibility.

Pitching is the team's strong point. Seniors Pete Scarpati and Doug Smith both are hard-throwing, wily right handers, ERA's of around 1.00 from last season. Sophomore Ed Savold is expected to be the team's third hurler for the extra long season ahead.

Returning starters John Auditore, Bob Alvarez, Chuck Pergola, Rich Aquilina, Bill Lee, Mike Davino and John Nuozzo provide Coach McElroy with a sound basis for optimism. The outlook is brightened further by the addition of standout sophomores Jack Sheedy, George Pinero, Dan Lynch, John Vozab and Tony Criscuola.

BASKETBALL

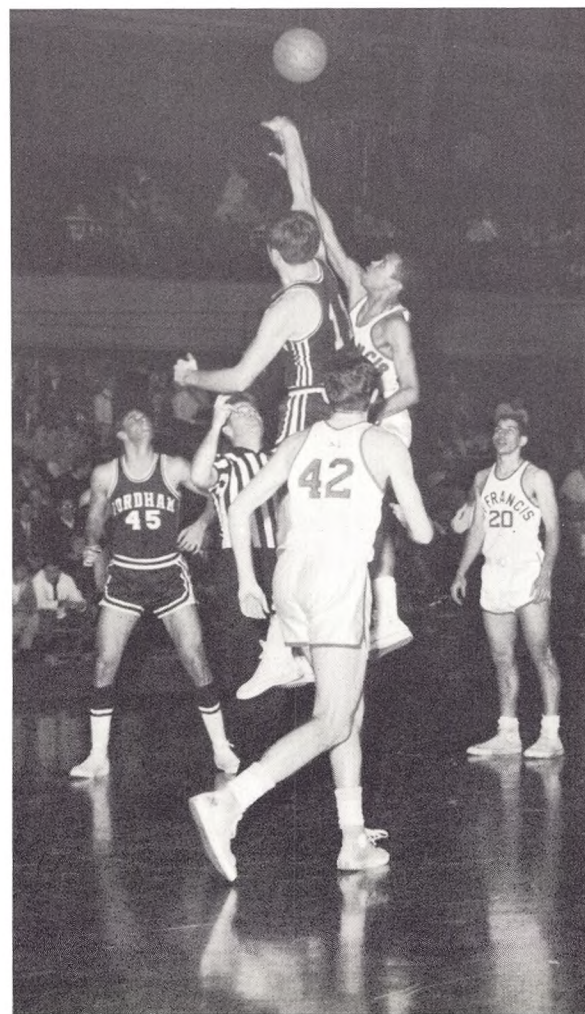

"Remember fellas, be careful with the ball because it's rented," advises coach Dan Lynch.

St. Francis was looking forward to a winning season in 1967-68, coming from the previous year with a fine 14-8 record, including a share of the Metropolitan Conference Championship. But fate struck two blows that were to dim the Terrier hopes. Starting center John McMahon was hurt in an auto accident before the season began, sidelining him for the season. Then, to make matters worse, McMahon's back-up man, promising sophomore Dan Gallagher was only able to play in the first four games. He had to undergo surgery for an injury sustained the previous year.

Things did manage to get off brightly though as the Terriers ripped through their first two opponents, Pace 90-68 and Kings 68-64. As is traditional every year, our true strength would probably show in our third game—against Providence. The Friars could have been taken, but the Terriers fell short, 80-66. A tremendous all-around game against Connecticut brought our record to 3-1, as we won 82-62. Successive losses to Fordham (85-64), L.I.U. (72-46), and Bucknell (84-81) in the Christmas tourney at Syracuse, revealed our basic weakness all too vividly—no rebounding. Vermont was defeated in the consolation game of the tourney, but then Hofstra walloped the visiting Terriers 89-67 to put a quick end to any ideas of a winning streak.

After an unimpressive victory (72-64) over much smaller Le Moyne, the toughest part of the schedule proved to be just that. With St. Francis playing gamely, Wagner pulled out a 92-90 win. This was followed by losses to St. John's (83-50) and Manhattan (83-64). A double-overtime loss to Adelphi (94-89) coupled with the news that playmaker Mickey Mahoney would be out of action for three weeks made the picture just a little more dismal.

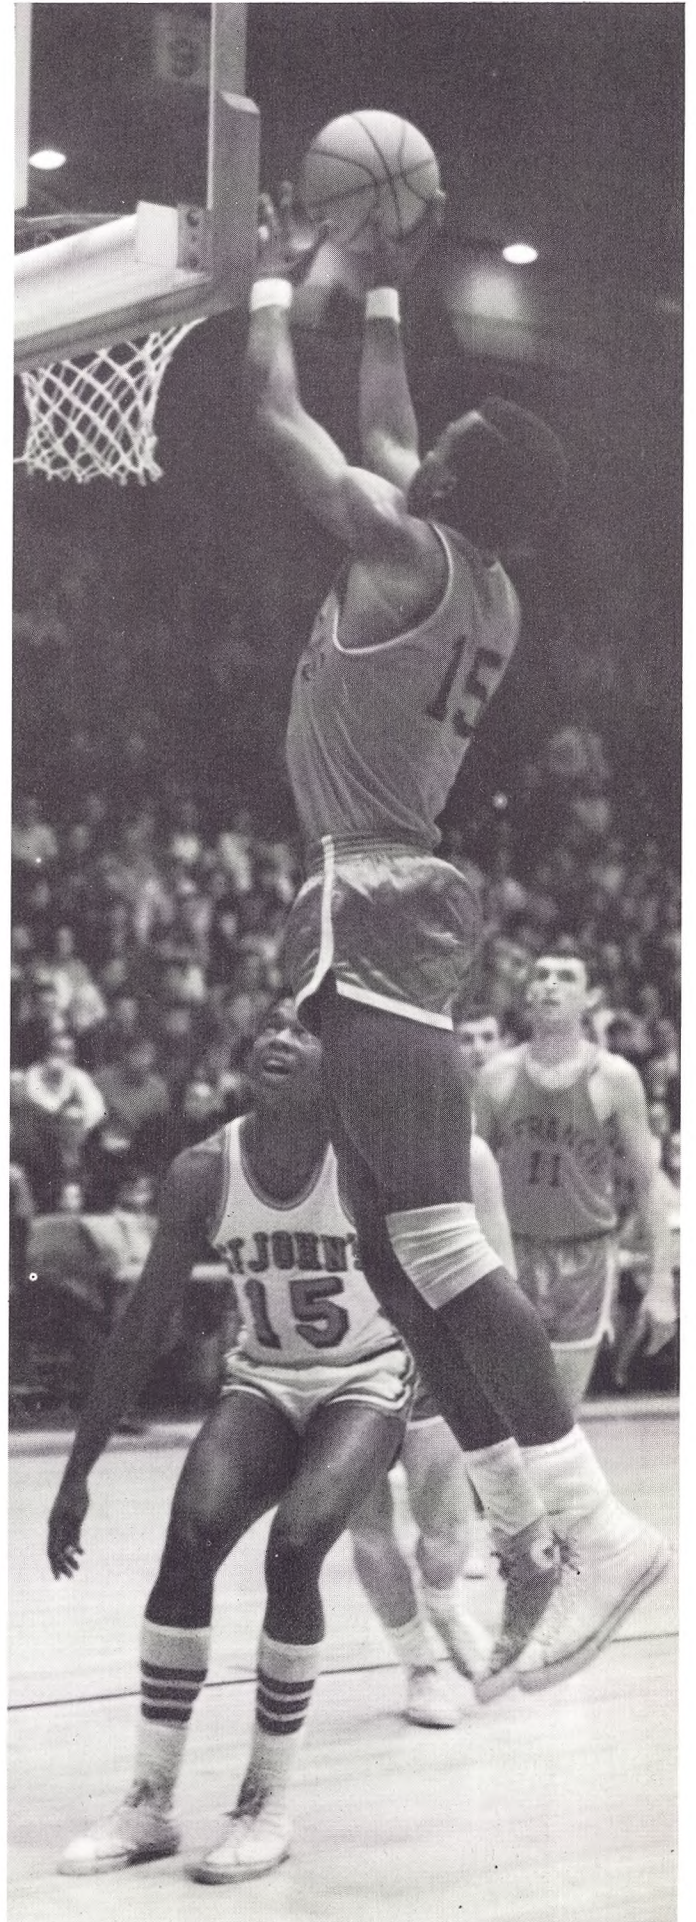

The only bright spots thus far for Coach Dan Lynch have been senior forward Doug Smith and sophomore guard John Conforte. Doug carried the team through the first half of the season, consistently hitting near or above 20 points per game. Conforte came into his own during the Connecticut game, when he scored 19 points during the first fifteen minutes he played. Since then he has been averaging over twenty points per game, with a high of 32 against Manhattan. His great desire and hustle accompany a great amount of ability and should make him one of the greatest players in St. Francis history.

CLUB FOOTBALL

Twaddle to McCabe against Iona.

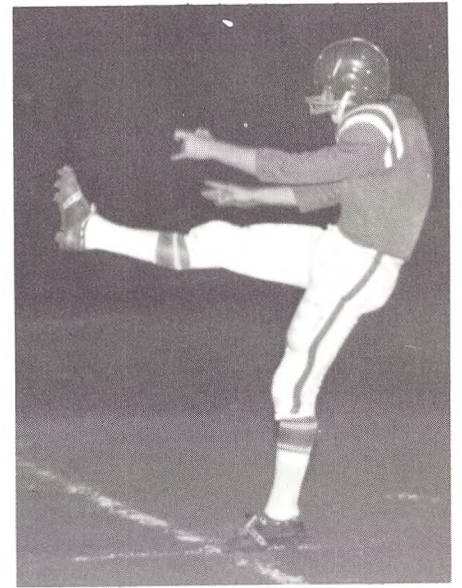

Football has returned to St. Francis after a thirty year absence. Although the first season was somewhat of a disappointment, next year promises to bring the Club more satisfying results. The 1968 season will see most of the veteran players returning to the squad. The experience gained this past season should be of great value when the Club tangles with such opponents as Pace, St. Peter's, and Siena. All in all, the Club looks forward to a better season and a bright future for football at St. Francis.

TERRIERS sprint forward

Kneeling: Brian Clancy, Mike Shannon, Charlie Randall.
Standing: Mgr. Van Cerutti, John Serrao (Capt.), Phil Spinatto, Kevin Kempf, Charles Leykum and Don Miserandino.

John Serrao illustrates the starting position as Van Cerutti illustrates the clocking position.

After a winless 1966 season, the St. Francis Cross Country team avenged itself this year and compiled an improved record of eight (8) wins and ten (10) losses. Such teams as New York Tech, Sacred Heart, Hunter and Pace were literally left in the dust. Our biggest victory however, was a shutout over our neighbor Brooklyn Polytech.

Coach Larry Bonelli's grueling workouts at Prospect Park, coupled with the strong desire and perseverance of the team members allowed the team to amass even these few victories; the change was a definite and noticeable improvement. Returning from last year's squad were Van Cerutti, team manager, Brian Clancy, Kevin Kempf and John Serrao, team captain. In addition, newcomers Charlie Randall, Phil Spinatto, Mike Shannon and Charlie Leykum ran well and showed great potential for the future.

If the team continues to show the zesty spirit that stayed with them this past year, next year might well prove to be a boom for the Track Team and a sad sorry time for the opposition.

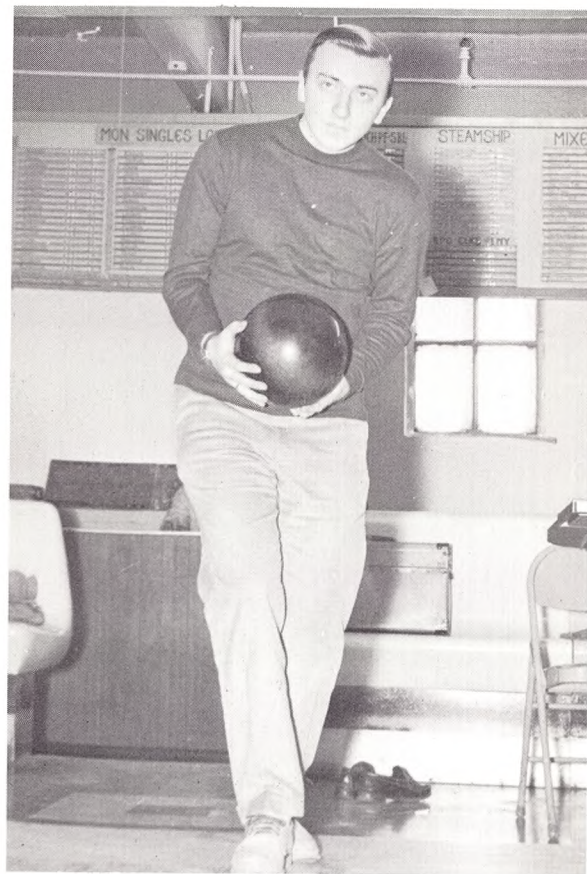

BOWLING TEAM strikes out . . .

As it was last year at this writing, the St. Francis College Bowling Team again finds itself in second place with a 31-14 record right behind last year's Eastern Intercollegiate Conference champions, Pace College. Our team started off fast, winning 11 of its first 12 games. Then, as it usually happens, the team had a slump for a few weeks dropping them to sixth place in the 15 team league. However, the tide has presently turned in our favor, with our team riding high on an 11 game winning streak. This was done by taking the last two games from Kings Point, followed by 3 undefeated weeks against Brooklyn Poly Tech, Iona and the most heart-warming victory of the year over St. John's. Over the past four years the team has compiled an 8-4 record with the Redman.

Other Terrier shut-out victories so far have been over Pratt and Yashica. We have also taken two of three points from Queens twice and Columbia. Important upcoming matches for the Keglers include N.Y.U. and the Jaspers of Manhattan College. Of course, the most crucial matches of all will be against Pace. St. Francis will meet them at least twice in the last eight weeks of the league.

Charlie Parente, Captain of the squad, is rightly proud of his team. Co-captains Larry Kelly and Bob Pagano coupled with George Salico and Dave McMullan make up the starting five for the team. All of the starters have averages in the mid 180's. Rookies to the team include Frank Seggio, Sal Statlone, Jim and Mike Elliott and Terry McCollum. Charlie Parente has high series on the team with a 620 and George Salico holds high game with a 254.

In March the team travels to Philadelphia for the annual Doubles Tourney. The team sends six men this year and their hopes are high. Last year the combination of Kelly-Parente finished seventh in the fifty team field.

Dave McMullan, smallest member of the team, demonstrates his ability with an eight-ball.

MOTOR SPORTS CAR CLUB

ZOOOOMS

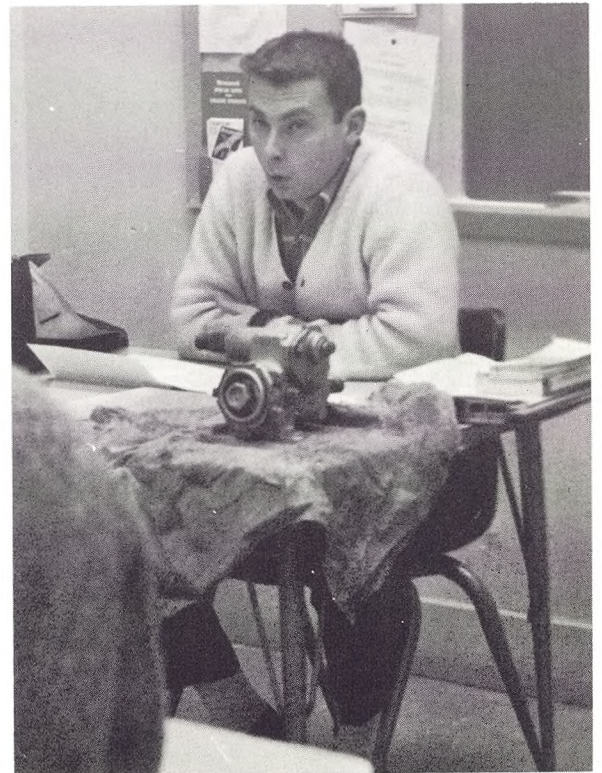

Club members are encouraged to promote safety behind the wheel and to avoid radar.

Although the Motor Sports Club is not an officially recognized activity in St. Francis, it has functioned and expanded independently of any school financial backing for the past two years. Membership, though relatively small, is steady and on a definite increase. During the past year, many of the members have won trophies in various rallies sponsored by different Long Island car clubs.

The club has held several rallies in the past and has had a fairly good support from the student body, averaging about 20 cars per rally. However, increased support is desired so that more trophies may be awarded and so that the rallies can be made more challenging to the entrants. The club would like to hold a Gymkhana, which is a high speed obstacle course and also try to sponsor a drag-racing competition, based on a handicap for the different classes.

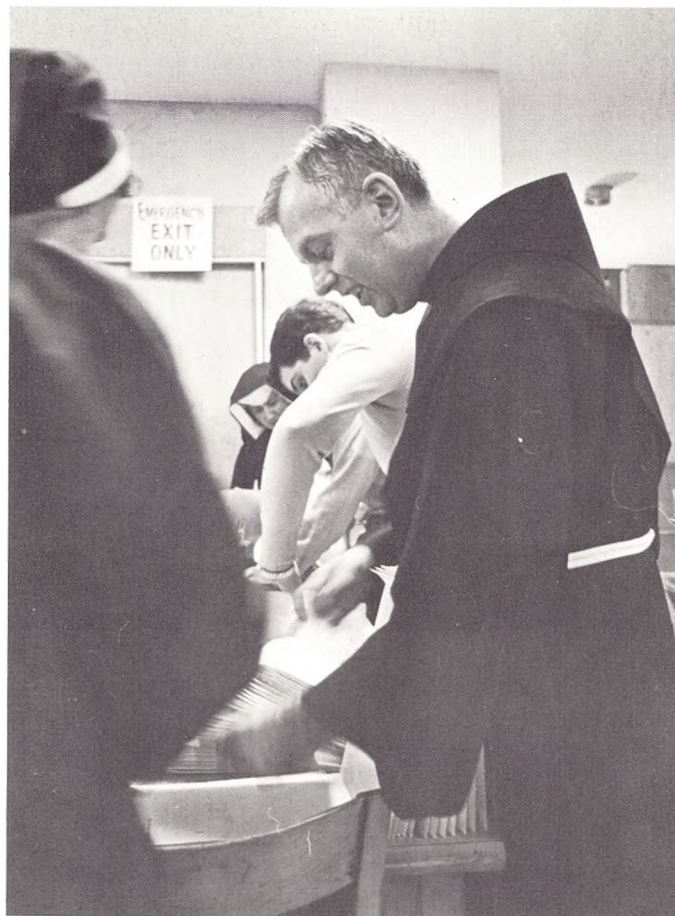

The purpose of the club is to provide its members (and also anyone interested in cars) with recreational and educational activities in the automotive field, to provide technical information and to promote safety and courtesy behind the wheel. Besides talking about cars, the club also competes in various contests. John Esposito just missed by a few seconds winning a trophy in an ice-khana, i.e., a gymkhana on a frozen lake, in upstate New York. Steve Schawaroch and his date (he was navigating, she was driving) entered a rally sponsored by Hofstra U. and won a trophy, placing 8th out of 50 cars entered.

For next year, Juniors Tony Amodeo, Richie Moen, George Marino and Richie Carroll promise to have many rallies which will prove to be interesting to all who wish to participate in this not-so-ordinary sport.

John Esposito, Motor Sports Car Club president, explains the intricate and highly delicate workings of a whatchamacallit.

PRESIDENT

BROADWAY AND BOERUM STREET
BROOKLYN, NEW YORK 11206

Dear Student:

We are delighted to once again support the publication of your yearbook, the Franciscan, and to wish you and St. Francis College the very best in the years ahead.

You are all aware, I am certain, of the tremendous costs involved in obtaining a college education ... particularly when the education extends into graduate work. It certainly is well worth the price, but the drain from current income and savings is sometimes insurmountable.

We would like to help --- and here's how.

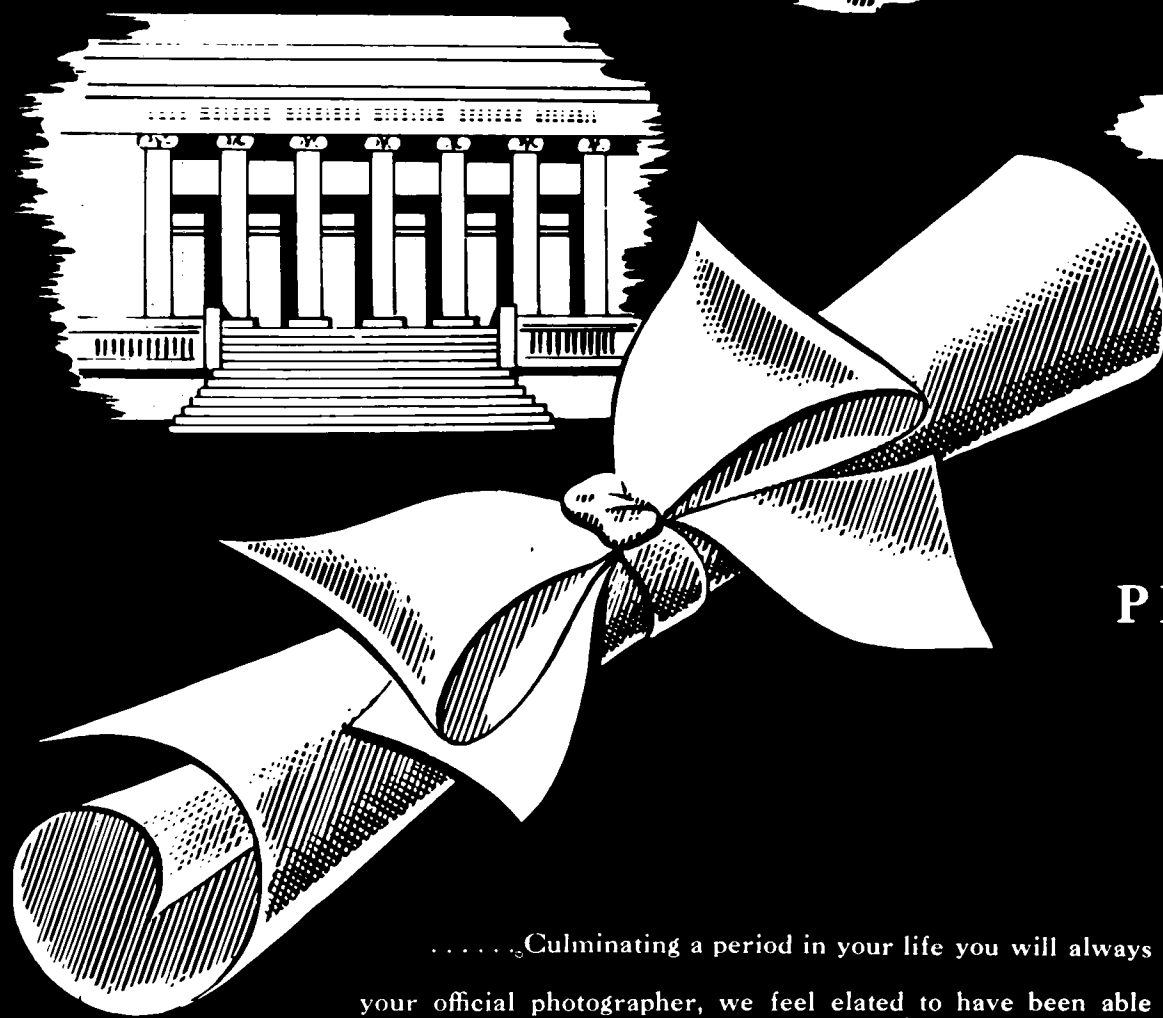

Under a cooperative arrangement with the New York Higher Education Assistance Corporation you can borrow from \$1,000 to \$1,500 a year to help you attend a college or university. This includes graduate work. You can borrow to a maximum of \$7,500. While in school you make no payments and there are no interest charges. At the completion of your studies you can take up to 10 years to repay. Loans are made directly to students ... no co-signers are needed. For additional information dial the telephone numbers below.

Congratulations on your graduation and we wish you a successful and rewarding future.

Cordially,

Michael J. Burke
President

Dear Franciscan,

The yearbook which you have just read, and I hoped enjoyed, is the work of a year which began last March and finished while you were preparing for your Easter vacation. I wish to thank some of those who have come to our aid and ask the indulgences of those whom I do not mention here.

Of course, a special thanks to Mr. John Clifford for his assistance during the trying moments we had in Room 500. I would also like to thank Bro. Theodore Campbell who always came through with the money we so often needed and to Mrs. Rita Burke for providing us with the essential stationery without which a book cannot be printed. Also to Misters Eddie Adams, George Rubens, and Charles Rossi for their graciousness and for "keeping their cool" when I constantly presented them with problems.

The success of this book would not have been possible without the assistance of Robert Jones, Raymond Sullivan, Theodore Timmins, and Joseph Westfield. I thank these men and I will never forget them.

On behalf of the staff, I hope that you enjoyed the book and that you would not just put it in a corner but rather keep it as a memento of 1968 at St. Francis College.

Very truly yours,

Fabian de Jesus
