Me and SFC

Why me was asked
to take the task
of writing poetry for here
me just don't know
'Cause me don't know
if A-L-I-E-N-A-T-I-O-N
spells it right
but me sure knows
it tells it right
as me is always talking to himself
—that's why me is quiet!
—that's why me wears tinted glasses
'Cause me lost eye
When me got tired of seeing
and asking
and of the silence that follows.
but he asked me to write poetry
so me must be all right guy right?
right? . . . right?
gee, me sure feels alienated!

—George Russell

i love in life.

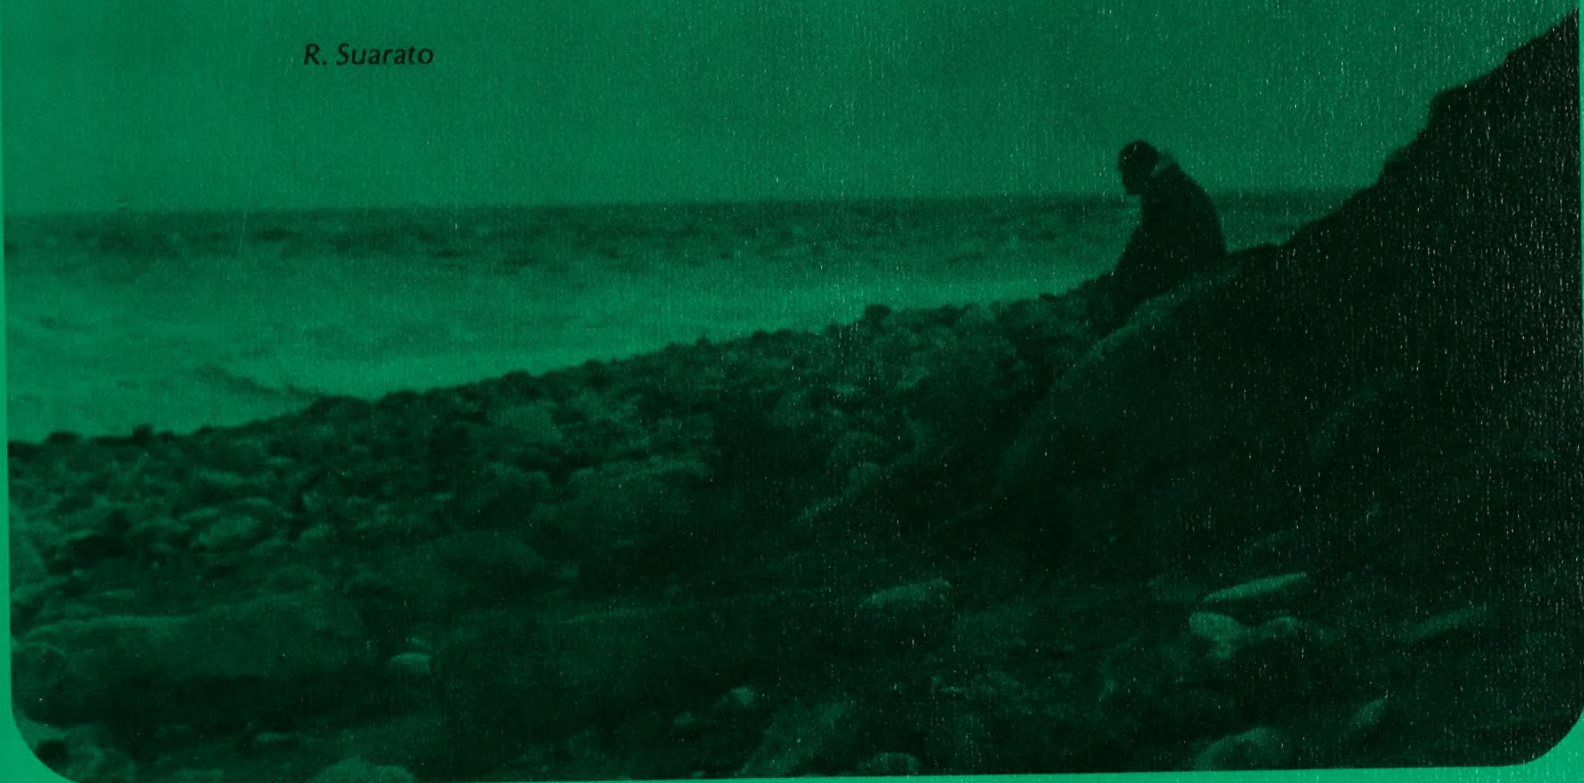

the simple things:

flowers, balloons, children,

and warm hearts. carolee

people will come
to only have fun...
what else should life
offer?

R. Suarato

glad to see:
happy Innocent hearts at play
together with sincere trust. carolee

CLOWN

WHEN THERE'S A CLOWN

WALKING AROUND

PEOPLE WILL LAUGH AND

FALL ON THE GROUND

HE'LL MAKE HIS TRICKS.

WITH ALL SORTS OF STICKS

SO PEOPLE WILL KNOW

AND WATCH HIS SHOW. *R. Suarto*

Today is a child's play.
Sunshine cool breeze
flowering buds.
people, puppy dogs,
bicycles and lollipops,
swings and slides and monkey bars,
all for a child today.
merry go-rounds
and nursery rhymes
scraped knees and dirty faces
as laughter bursts
while rolling down a hill
loving bugs and funny faces,
all to be had today
let the little children come to me
for i am a child
Are you a child too?
yes
your soul shines through
your longing eyes.
as they sparkle with mischief and love
Then come and play the game of life
for only children really live
we'll run free and live free
with the world as our playground. *Sandy*

i remember
we walked through
the crowded city streets.
it was so hot
and your hand was moist.
i tried to match my steps
to yours.
(even a simple walk
seems like a lover's journey
with you.)
your hair shined
with the sun's warmth.

i giggled.
you asked why.
"no reason", i said.
Beautiful, isn't it?
There wasn't even a reason.
—Janet Pope

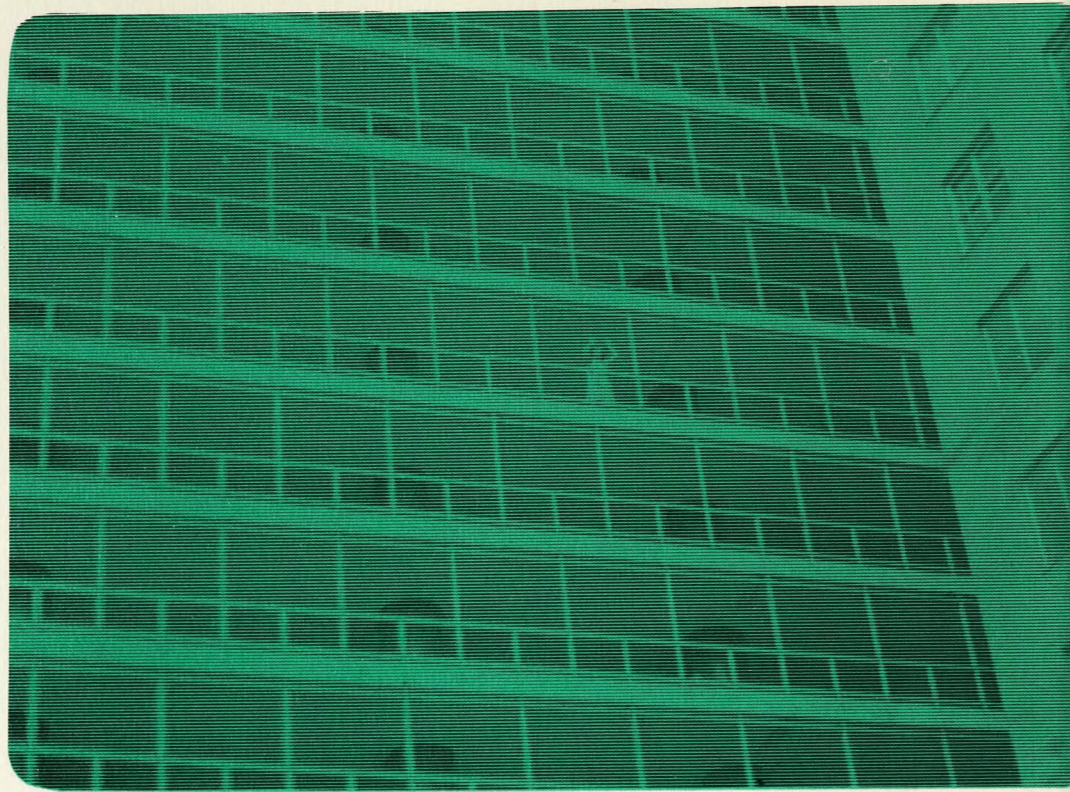

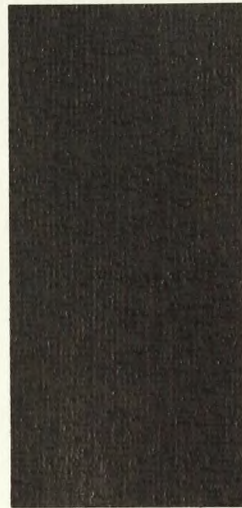

Here once lived a
human being.
"Do ya believe it?"
Once (oh a long time ago)
there lived a boy
who left
notice that he was alive
and he was here . . .
now he's gone.

Look at the walls cold, bare
Open the windows let the heat in.
Sometimes he comes back-in-the-night
stop thief! sleeps, plays music
then goes.
See oh!
Now he's gone
You missed him.

—D.A.M.

A MEDITATION ON THE THREE MEN I AM: TO MYSELF, ANOTHER, TO GOD...

no man can enclose me
except that I close in myself!

no man can free me
except that I free myself!

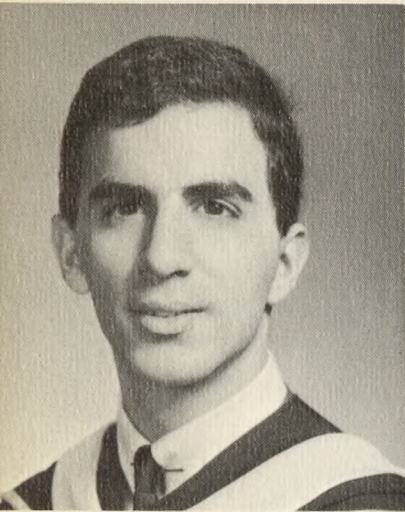

no man can know me
except that I know myself!

FOR TO SEE GOD ... TO SEE THEE:
I needs must be ME and FREE

For I build my prison or my prism!

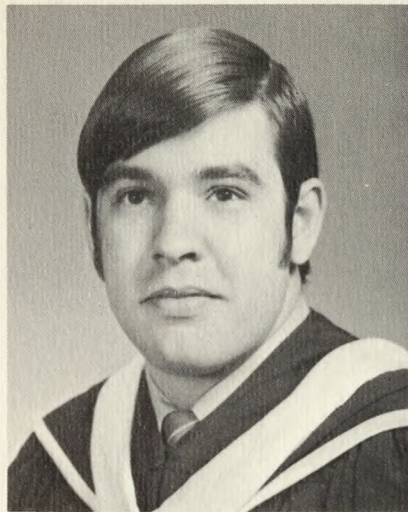

... *Joachim Anile*

Anger may be a sign of strength as well as weakness. A child's anger may be genuine, healthy, and noble. It is healthy for a child to become angry or at least to feel anger when someone abuses him, takes advantage of him, or violates his integrity.

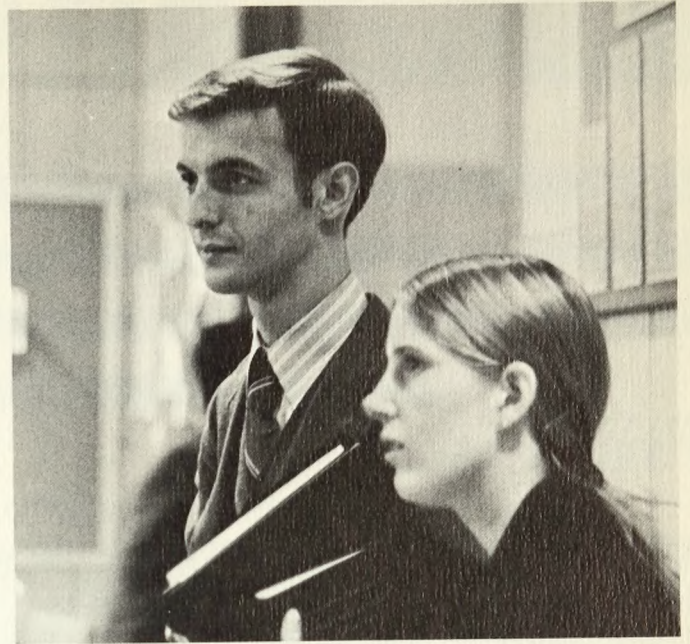

—Arthur T. Jersild

Secretary—Fran Martella

Association of Evening Students

This organization was formed in an effort to bring about a means of communication between the Evening Student and the college administration.

The Association sponsors monthly meetings where the evening student may socialize and confabulate with the faculty and fellow students.

The Association has been serving the evening students for 10 years, as a voice in bringing about solutions to the special interests and problems encountered along his evening college career.

THE STUDENT

One area where the students see their student activities at work is in the school's publications. Unlike other organizations on campus, the newspaper, yearbook and the student handbook reaches every segment of St. Francis College.

The *Franciscan*, directed by Mr. Donald Miserandino saw variations in layout, photography and picture cropping. Through their ingenious methods of piecing the book together, the yearbook staff not only gave added zest to the events that occurred this year, but also exemplified Marshall McLuhan's "the media is the message" theory.

Nearly every event that took place at SFC this year found itself under the scrutiny of *Franciscan* cameras. The events caught on *Franciscan* film in '70-'71 are now a part of St. Francis College history — events that mark change, advancement and the overall growth of St. Francis College.

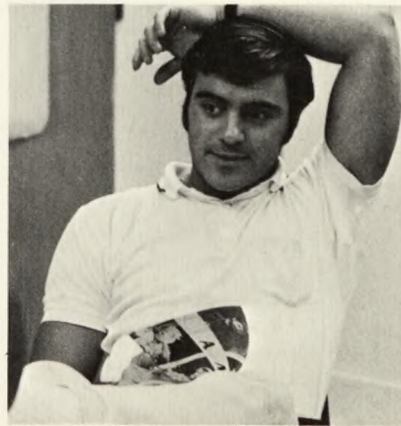

The *Cord* under the editorship of Mr. McLaughlin, saw a complete revamping in its compilation of information. Up to the minute changes in the rules and regulations of the administration, faculty committees and student government were incorporated in the '70-'71 *Cord*. The cover, its most outward manifestation, characterized these changes with a complete change of texture, lettering and coloring.

PUBLICATIONS

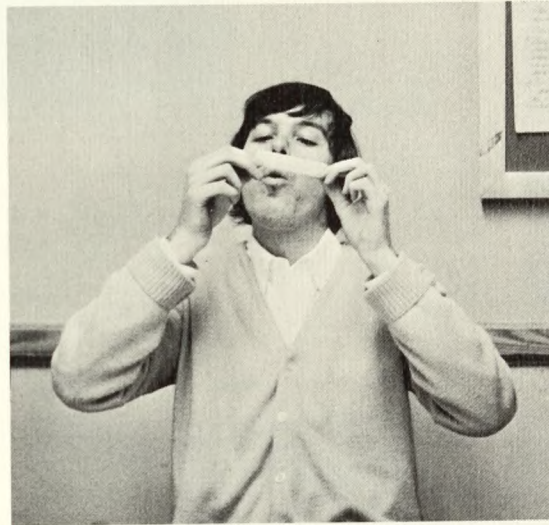

Under the direction of Mr. Rory McLaughlin, change, innovation and quality control was the name of the game with this year's *Voice*. Stylistic changes were seen in the layout which was characteristic of a modern magazine format, i.e., free flowing and easy on the eye; the addition of a magazine-type page that featured everything from orientation to the Hare Krishna sect; and increased participation of students and faculty through "Viewpoint" and the Letters to the Editor sections of *The Voice*.

Innovation and improved methods of news, feature and sports coverage were seen in the '70-'71 *Voice*. As an information medium *The Voice* was in the forefront of events — covering everything from the changes in draft board regulations to the progress of the gymnasium to Governor Rockefeller's plans for higher education to the events sponsored by SFC clubs and organizations and fraternities and finally, to the changes introduced by student government and the faculty for increased participation on student-faculty committees.

Cooperation with the community and the metropolitan area was emphasized by *The Voice's* participation and leadership with the *Brooklyn Consortium Collegiate Newspaper* that originated shortly after President Nixon's incursion into Cambodia. Further involvement was seen by *The Voice's* membership on Governor Rockefeller's Clearinghouse Committee.

Voice

"Jimbo" Notaro

Richie Faga and George Russell

The forest thinned away. The trees grew smaller, became stunted, disappeared altogether. Bushes shrank and vanished. Grasses died away. Blighted land replaced the forest. All around us dead hills, red, raw, ribbed by erosion, stood stark in the sunshine. Hardly two miles from dense woodland we were in the midst of a moonscape on earth. Ahead of us the road led through a land of desolation, through a man-made desert, through a hundred square miles of poisoned earth.

Edwin Way Teale, *The Poisoned Hills*

Peace Fellowship

St. Thomas More Pre-Law

The St. Thomas More Pre-Law Society attempts to familiarize all the students at St. Francis with the relationship between law and their major field of study. Active within the college and the greater metropolitan area, the Law Society has sponsored guest lecturers, field trips to law school campuses, and observances of the judicial system in action.

With the publishing of the St. Thomas More Law Review and the presentation of an award to some outstanding public servant on Law Day, the society hopes to acquaint its members to the realities of today's complex legal system.

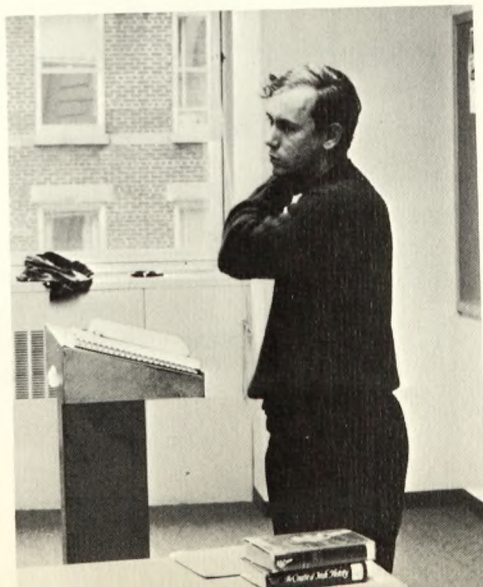

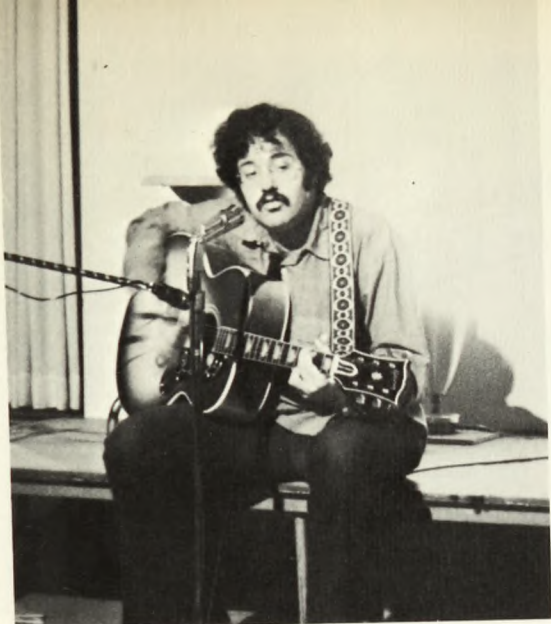

Gaelic Club

The Gaelic Society of St. Francis College is one of the newer clubs on campus. The Society was reformed in 1969, after a 5 year absence from the St. Francis scene.

Since its re-organization, the Society has attempted, (to quote the constitution) "to bring about a better realization of Gaelic culture, history and traditions, and to promote that culture in a positive way."

Their past programs have consisted of dances, several concerts and lectures on Irish history. As for the future, they plan to be involved in the social life of St. Francis.

Math Club

This year, the Mathematics Club works in cooperation with the newly introduced Mathematics Honor Society, Kappa Mu Epsilon.

Moderated by Mr. Donald Coscia, the Math Club provides students with an opportunity to be exposed to topics in Mathematics not ordinarily covered in a classroom, and to the various opportunities available in the field of Mathematics.

Club members meet weekly in two divisions: a Freshman-Sophomore division, which meets with Bro. Leo Quinn, and a Junior-Senior division. Films are shown regularly at these meetings, and students and faculty members give lectures on topics of interest to them. For the Juniors and Seniors, once a month a Graduate School seminar is conducted with Prof. Terrence O'Hara. Here, students are provided with the requirements for graduate schools, and topics of particular importance for Graduate School entrance exams are discussed.

One of the first activities sponsored by the Math Club this year was a field trip to Brookhaven National Laboratories. As in the past, the club sponsors Math Bowls with St. Joseph's College for Women, and Molloy College.

Career Nights are held and students may obtain information about possible careers open to Mathematics majors in fields such as teaching, business, and data processing.

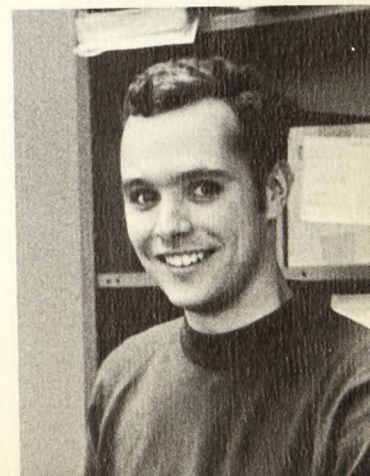

Computer Club

Computers are not a figment of the imagination. It's what's happening now. Whether one's main interest is in sociology, math, chemistry, business or in teaching kindergarten, one should have some knowledge about the computer.

This is what the computer club does for the students at St. Francis. The club will introduce the computer to them with a chance to learn how to operate and program it.

Ever since its inception on the St. Francis College campus, the Knights of Columbus, St. Francis of Assisi Council #6041, has dedicated itself to the promotion of its aims: charity, unity, fraternity, and patriotism.

The council engenders its activities through a Six Point Program: 1) *Family Activities*, which plans family functions for the council; 2) *Membership*, which holds recruitment drives for the council once a semester; 3) *Public Relations*, which publishes the council newsletter, the KNIGHTS' NEWS, monthly; 4) *Catholic Activities*, sponsors various religious functions; 5) *Fraternal Activities*, which holds yearly food and clothing drives; and 6) *Council Activities*, which plans various social functions for the Brother Knights of the council.

Presently, there are some 130 members in the St. Francis of Assisi Council, and remains one of the largest membership organizations at St. Francis College.

International Relations Club

Happy
34th

Anniversary

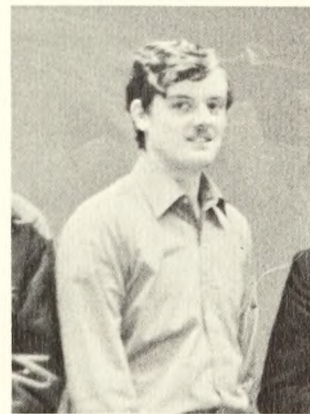

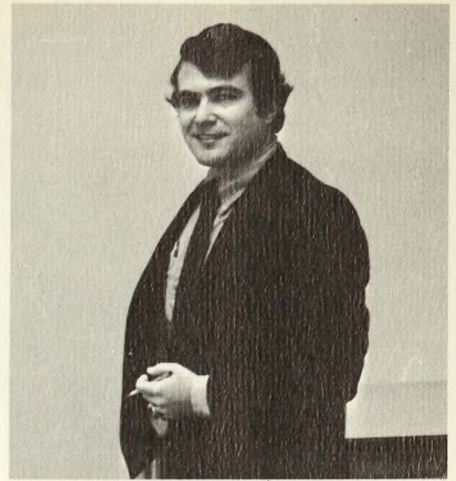

Peace Unit Formed Here

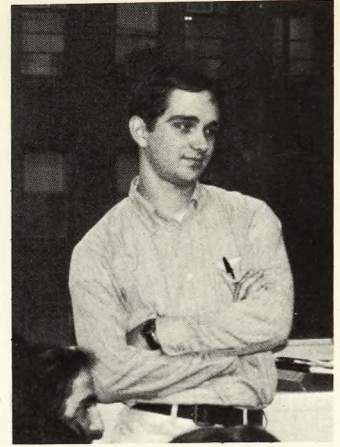

Along with Catholic colleges of the Eastern states, St. Francis has organized a unit of the Catholic Association for International Peace. Since the Conference at St. Joseph's College, February 13, the St. Francis delegates, Daniel Buckley and Austin Murphy, have been engaged in forming the new club.

Dr. Frank Naggi was enthusiastic over the plan of a St. Francis peace group; and he and Professor Gregory agreed to lend their full support to the plan. Dr. Naggi consented to be Faculty moderator of the club. At the Wednesday hour of International Law the peace group was the subject of interest. After Mr. Murphy had explained the aims and benefits of the C.A.I.P., the class voted on a name for the St. Francis unit. International Relations Club was the title chosen.

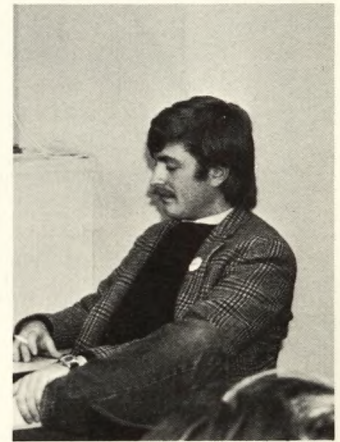

Brother Jerome in a conference with Austin Murphy signified his willingness that St. Francis should take an active part in intercollegiate organizations such as the Peace Association; and offered the cooperation of the college.

—Voice, 1937

Rifle Club

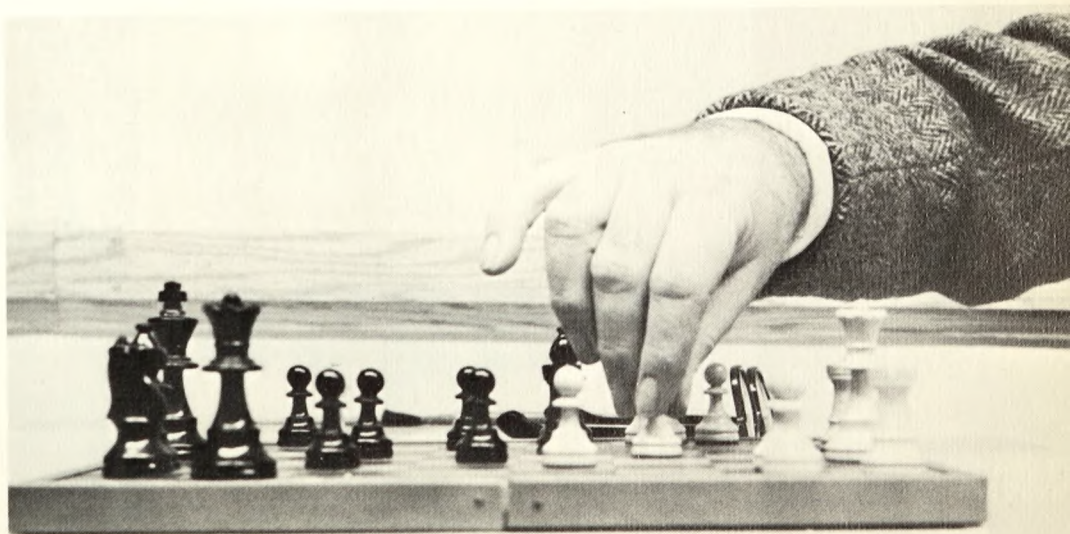

The Rifle club is made up of two divisions, the club and team. Among its various activities, the club offers a hunter safety course, NRA Range Certification to those who qualify, and instruction to new members in marksmanship.

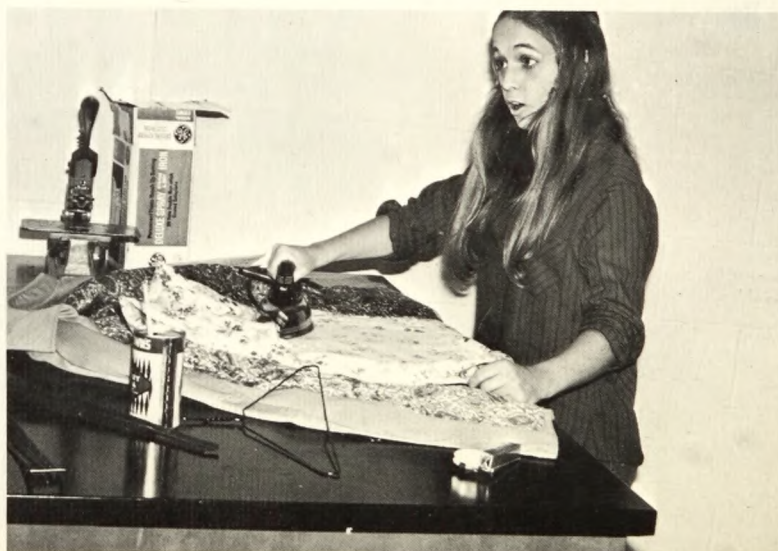

The team draws its best shooters from the Club. After a five year absence, the team has rejoined the Metropolitan Rifle League. Under the careful direction of Coach George Seubert, the team has shot surprisingly well in the early matches, although it lacks a range on which to practice. Returning shooters John Hughes, Robert Hopping and Roger DeSanti, along with new members John Hart, Fred Ginsburg, Jules Baskowitz, Dennis Gartner and Mack Elghaundar give the team experience and depth.

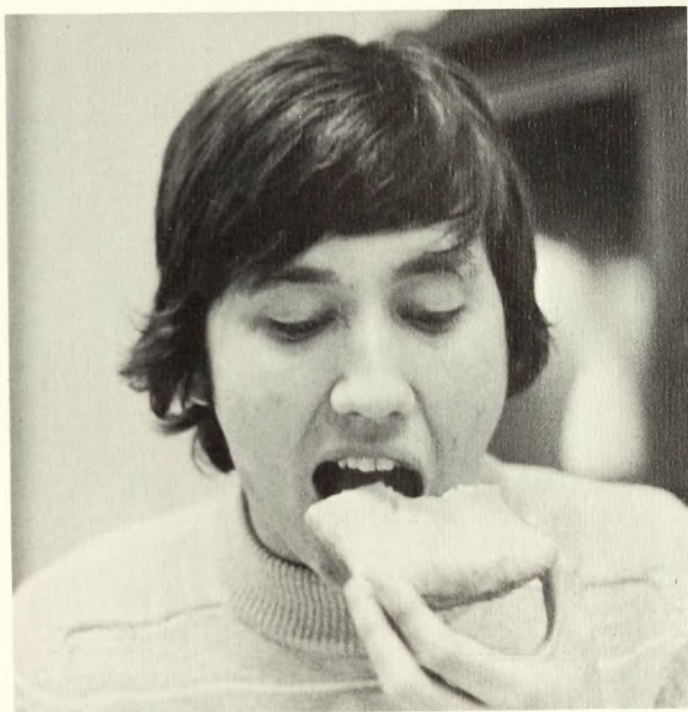

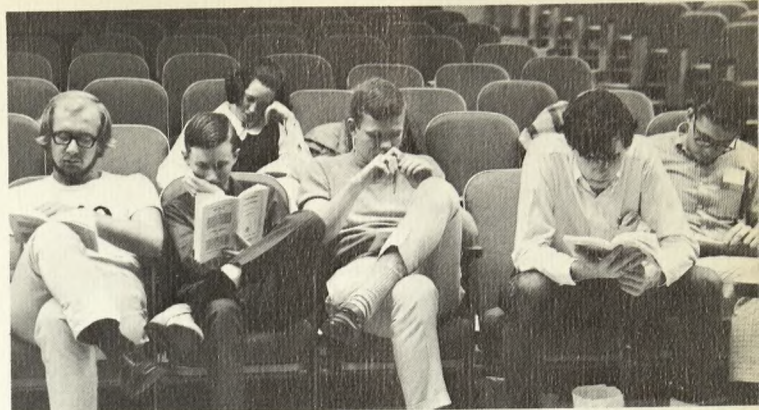

Chess Club

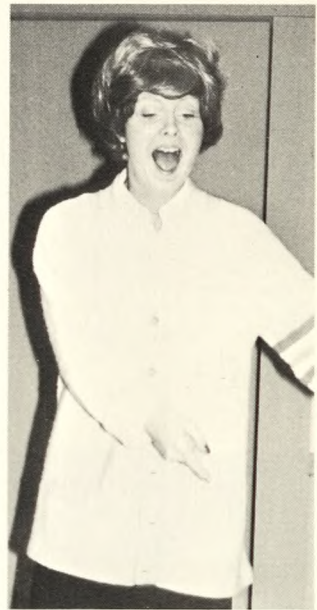

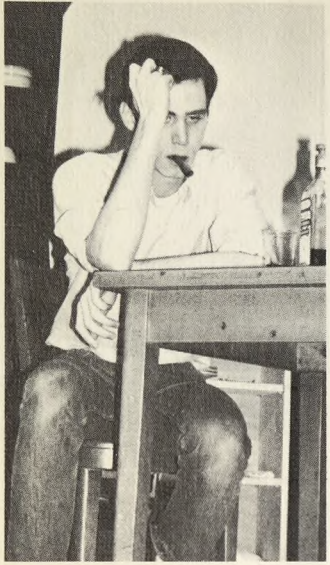

The St. Francis Chess Club is an activity designed to sharpen the already keen intellect and express the fiery but discreet emotions of the St. Francis students. Under the leadership of Chris Reddin, and with the help of George Blanchard and others, the Chess Club twice acquitted itself well in its two matches this fall with the faculty. At the first match, the chess men beat the faculty 3 to 1, while in the second they tied 2 to 2.

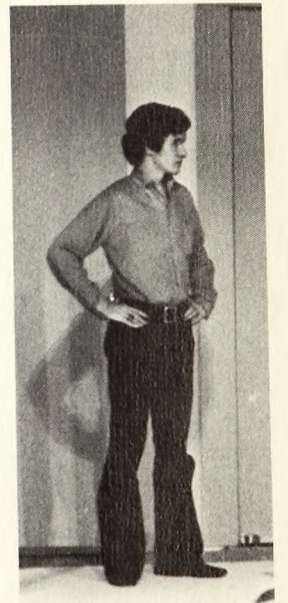

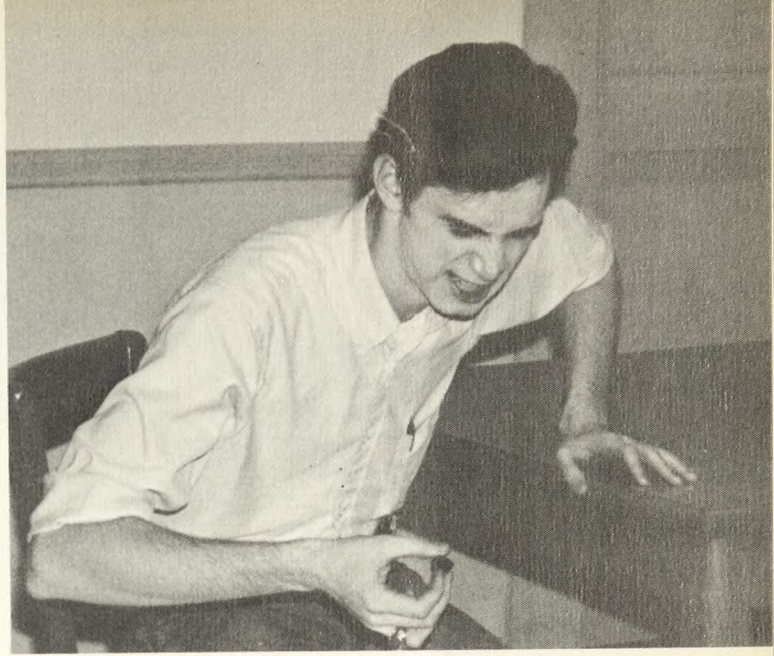

Troupers

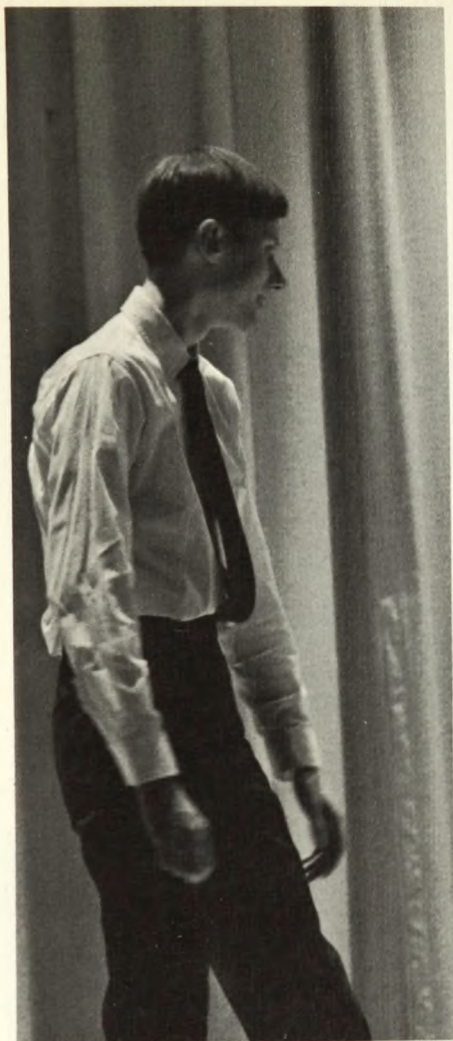

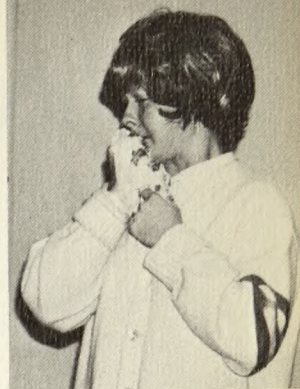

"That's a fine big horse you've got there, friend," said the voice. "Whyn't you put a rope on the critter and haul him in?"

—Charles W. Morton

glee club

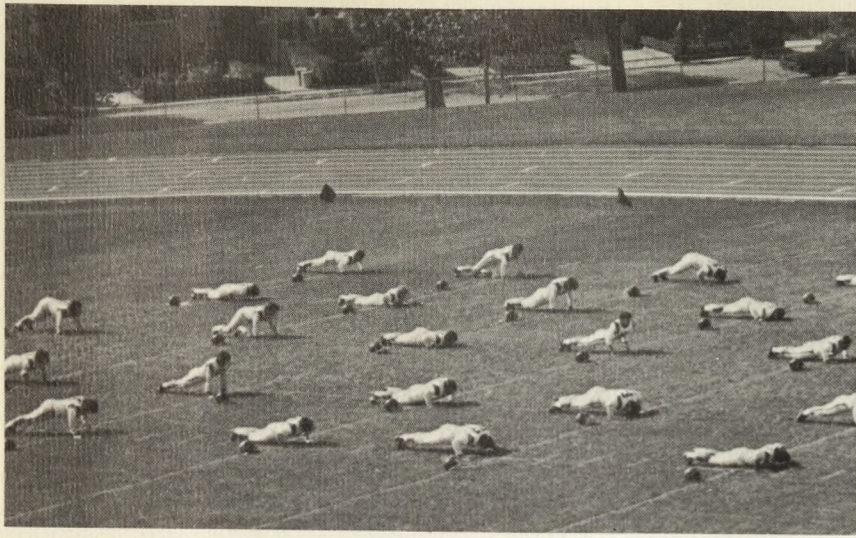

This is the year for lung power, and the College Glee Club has it. Performance has shown that the only difference between the Mormon Tabernacle Choir and the S.F.C. Glee Club lies in the difference between the words "Choir" and "Club". The variety of songs picked for singing is what makes the club a club, and not a choir.

Although a tradition at the college, this organization has made a name for itself, and has been growing.

Football

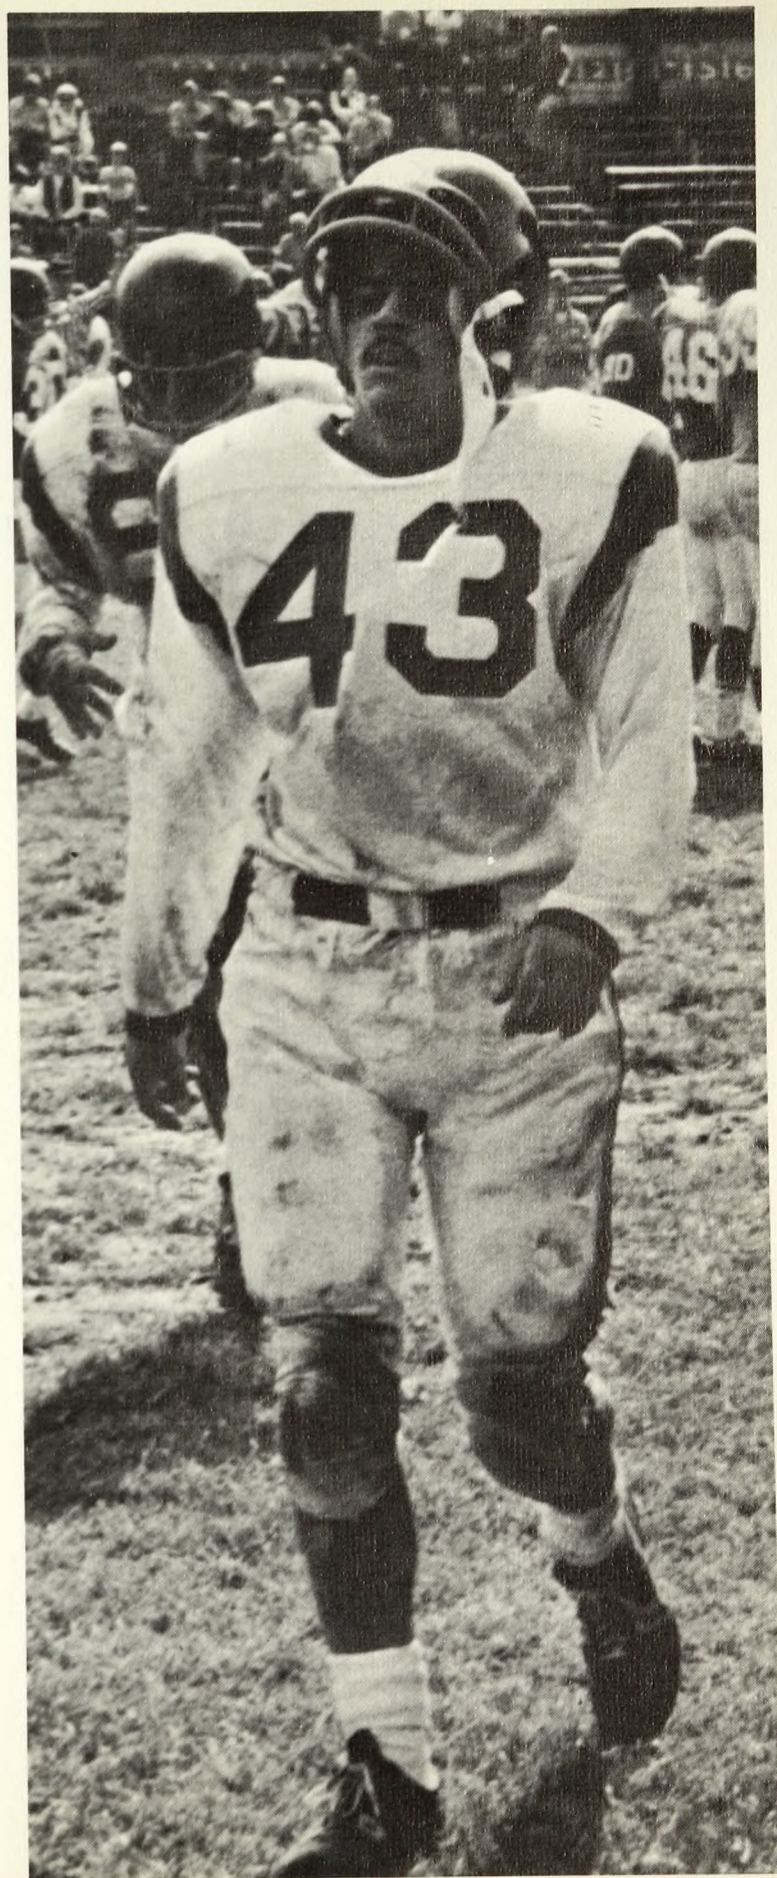

Club

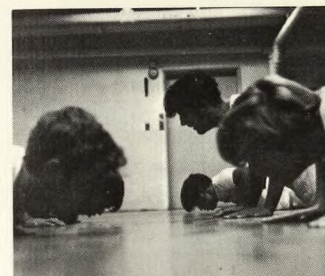

This past fall, the football club at St. Francis completed its fourth season, with a rather poor showing on the gridiron. The Terriers went into a tough nine game schedule, and after some devastating injuries at key positions, managed only one win, over Brooklyn College, 30—6.

Although the past season was dim in field performance, the club began to shape up as one of the few active and involved clubs on campus, with more than 40 full-time ballplayers, trainers, and administrative personnel. This is where the unique and special aspect of club football comes into view. The students are not just ballplayers in a school sport, they also run the activity administratively. These administrative positions are opened to any student on campus who wishes to undertake the responsibility that football bears.

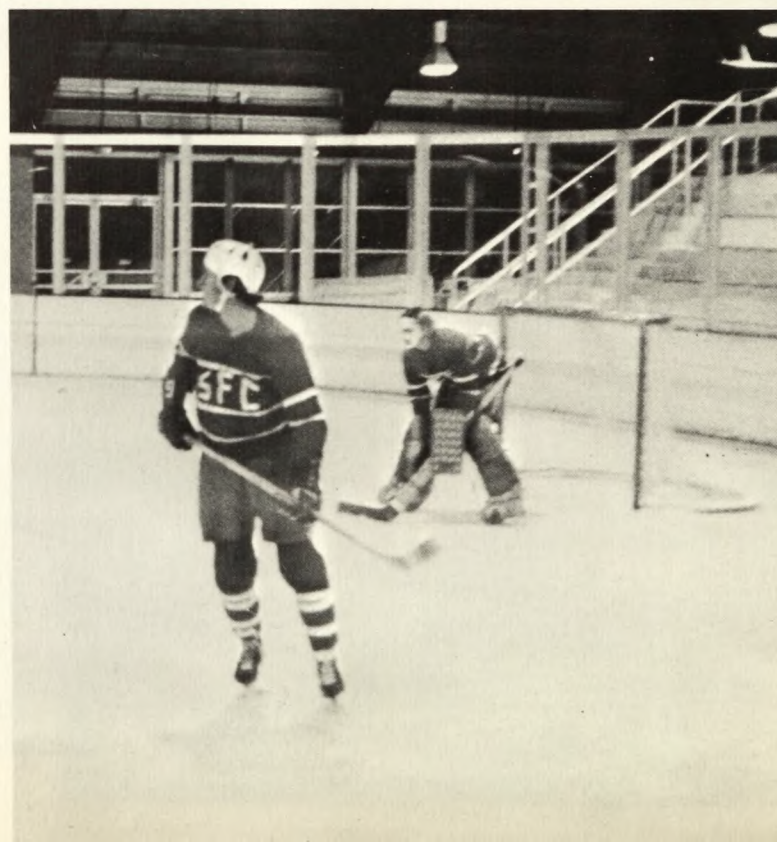

Ice Hockey Club

This is the third year of Club Hockey at St. Francis. The first two years were met with resounding success as the club notched two championships in two years.

The aim of the club is to allow students to participate intercollegiately in a sport which is up and coming in the New York area; an entire league consisting of 15 area colleges such that there might be an ordered system of competition. Like all other clubs, the Ice Hockey Club is supported by Student Activities and students, mostly participating students.

Perhaps one of the major underlying reasons for the club's success has to be attributed to its leadership: its moderator, Bro. Andrew Walsh, Joe Carnazza, Mike Day, and Julio Acosta. They have established at St. Francis an organized and established club, both on and off the ice.

Business Club

The Business Club is open to membership for all students who have an interest in broadening their professional background in business. The club provides a forum for distinguished speakers in various specialized fields of business, and an opportunity for students to acquire information in these areas.

Under the leadership of President John Rogicki, and Vice President Vincent Simone, meetings of the club have held which presented student symposia on various topics of interest to business students.

German Club

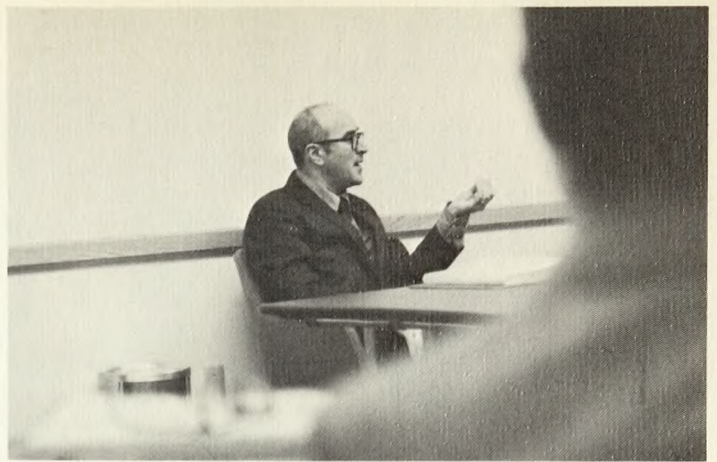

This club is intended as a supplement to the German courses offered at St. Francis College. Students taking German as their foreign language are encouraged to participate in the meetings, which include films, discussions, occasional lectures on German culture and related topics. In the past the club represented the College in the September Steuben Parade.

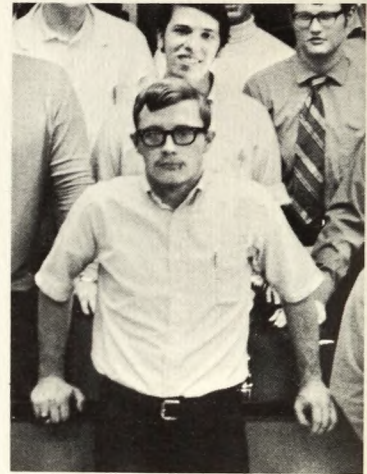

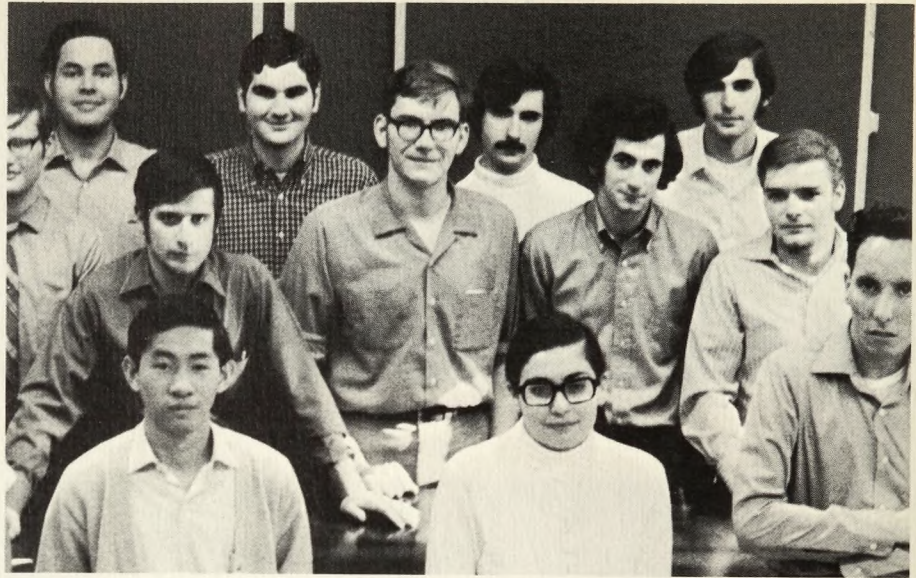

PHILOSOPHY CLUB

The Philosophy Club, under the moderation of Professor Galgan, seeks to act as a forum for philosophic discussion at St. Francis College. The format of a philosophy club meeting is such that it opens with a student, professor, or a guest lecturer addressing the club. This is followed by rigorous dialogue on the presented topic.

Science Society

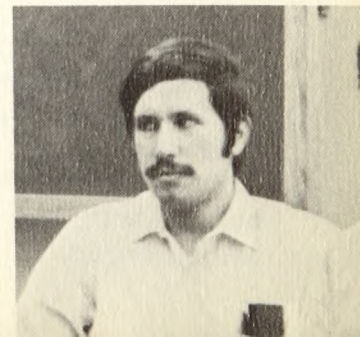

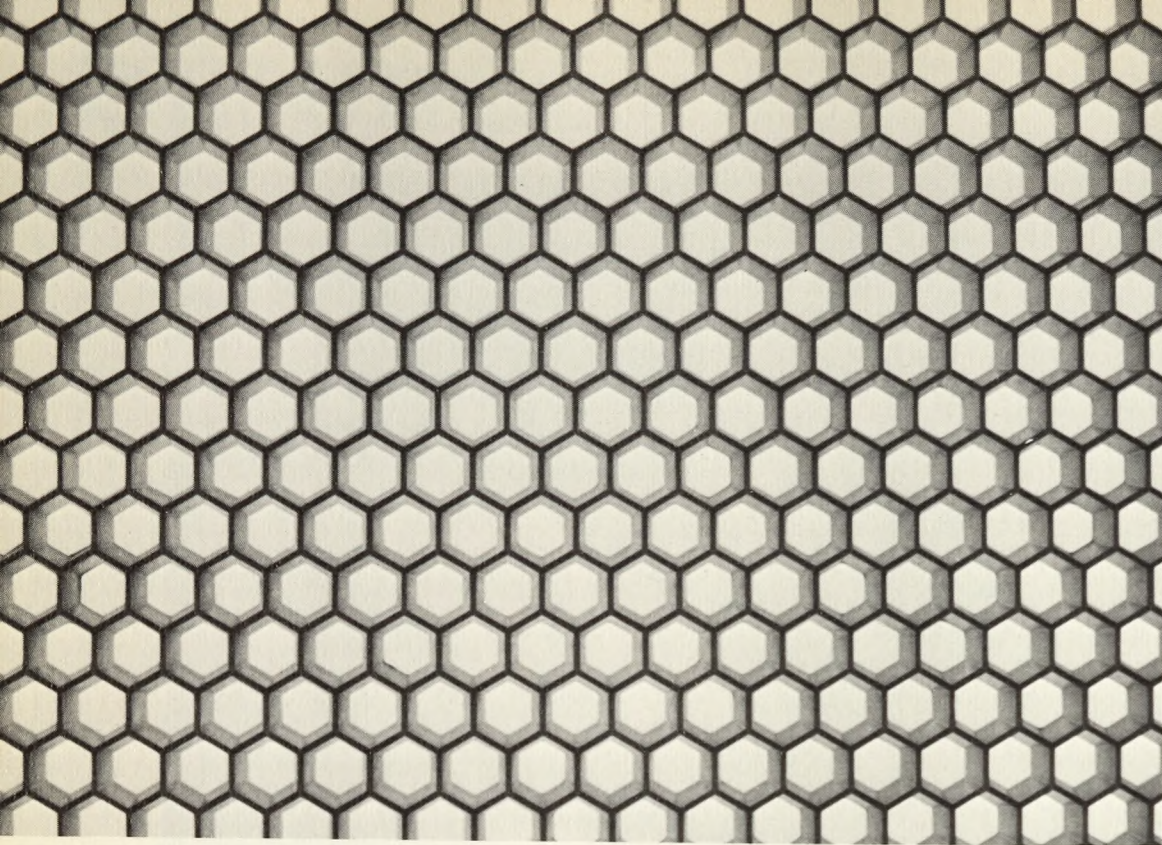

Under the leadership of Bob Lingua, Steve Orr, Tony Fiorilli, Richie Weyhausen and Joe Rizzo, the Science Society has become one of the most dynamic co-curricular activities in the college. It was a year of growth and innovation, and was marked by the renovation of the Society.

There was hardly a time when the Science Society was not doing something. In the beginning of the school year it helped the incoming science majors by providing a tour of the Science Center, and advising them both of what to expect from the science division, and what is expected of them. The Science Society also provided a tutoring service to help the deficient student in Biology, Chemistry, and Physics and also set up a guidance service for those interested in Medical, Dental or Veterinarian School.

A tour of the Brookhaven Labs was initiated by Bob Lingua, who also made plans for conducting a Science Fair at the college for High School Students in the area. Lectures were also held by prominent people in various science related fields.

It is through these activities that the officers of the Society hoped to fulfill the primary goal of the organization—an awareness in the student body of the many important changes in the rapidly growing world of science.

Psychology

The Psychology Club, since its founding in 1966, has proven to be one of the most active organizations on campus. The purpose of the club is to stimulate all those who are interested in subjects and areas not formally presented in class. The Psychology Club through lectures, field trips, discussions, films, and demonstrations attempts to bridge the gap between theory and practice, and student and faculty. Membership and participation are open to the student body at large. Functions are geared to the general understanding of human behavior, appealing to the entire academic community. It is hoped that through the efforts of the Psychology Club an atmosphere of awareness and sensitivity to the human condition will be affected.

Economics

The Economics Society began the year continuing its traditional function of assisting the graduating seniors in their aspirations toward graduate school and employment. Since its introduction to the St. Francis Community the Economics Society's ultimate goal has been to foster a better understanding of economics and its current developments. To further this end the society has tried a new approach. The Economics Society began to gather information for the promotion of a new, more prominent lecture series. It had its work cut out, trying to allocate its limited funds properly for the program.

SEANYYS

The Student Education Association of New York State is the pre-professional association for college and university students preparing to teach. It is an integral part of the National Educational Association which is a voluntary, independent, and non-governmental professional association.

Spanish

Club

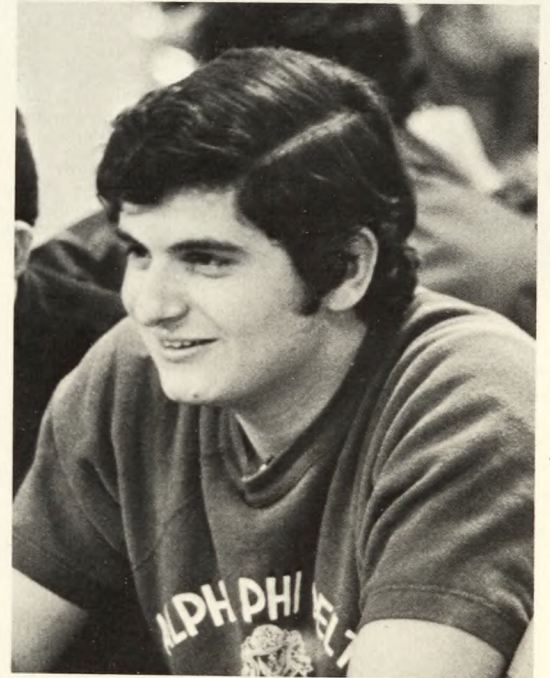

One of the most active clubs over the past few years has proven to be the Spanish Club of St. Francis College. With a small, but hard-working, core of members, the club has sponsored many an interesting function for the St. Francis student body.

Some of the past extravaganzas put on by the Spanish Club are the following: 1) annual Columbus Day celebrations in Founders' Hall, with the "Coros y Danzas de Espana" and "La Tuna de la Universidad de Madrid" providing the entertainment; 2) Christmas celebrations in Founders' Hall, with the Xaverian High School singers giving a medley of Spanish Christmas carols; 3) a "songfest" by the "Chorus of the University of Chile"; and 4) lectures, one which was given by Dr. Joseph Palisi of the Latin American Studies Department of St. Francis College on the "Indian Cultures of Mexico."

The club is also a member of the Hispanic Forum of the Metropolitan Area, which is dedicated to the promotion of the Spanish-American heritage.

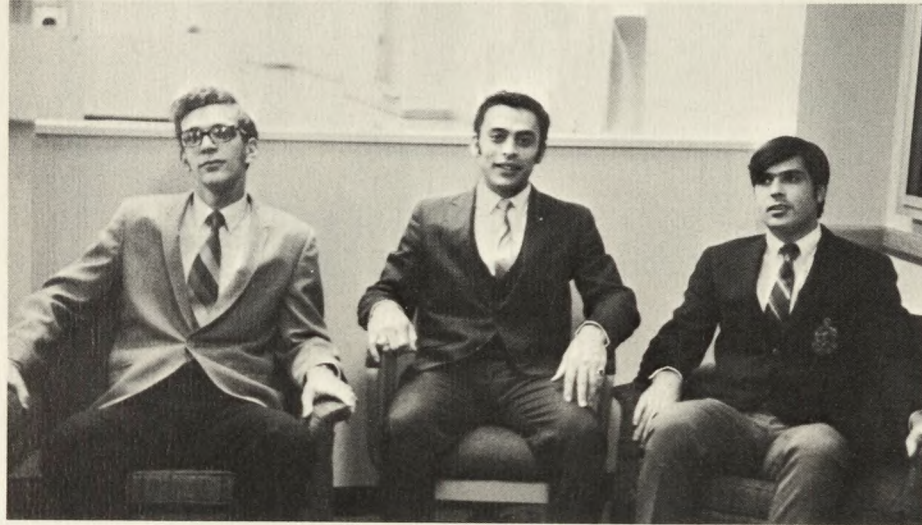

All of the Spanish Club functions are held with one main purpose in mind: the entertainment and enlightenment of the students of St. Francis College. These functions are free of charge. However, in order to insure a firm financial standing, the club holds a raffle once a year, and this raffle proves to be the club's main source of income.

Ralph M. Valvano—President

Fraternities

Since its founding in May 1964, Zeta Iota Chapter of Alpha Kappa Psi, National Professional Business Fraternity, has distinguished itself as a most dynamic group of individuals.

They have served St. Francis College as Lab Instructors, Group Leaders, Accounting Proctors, Accounting tutors, and Special Function Ushers. They have served as the finance committee for three successive and successful J.F.K. Carnivals. They have annually represented St. Francis College at the Congress of American Industry and the Catholic Accountants Guild, and have also undertaken research projects for both the school and the department of business.

Alpha Kappa Psi aims to develop leadership, organization, and public speaking ability on the part of its members through the best medium possible: that of actual experience. It also develops the ability to work with and cooperate with others in achieving constructive objectives, an asset of great value to the business world. Many alumni members, now business executives, received their first training and experience in leadership in the activities of Alpha Kappa Psi. By encountering self-development through experience and the observance of high business ideals, Alpha Kappa Psi has given many college students their first inspirational bounce on the springboard of success.

Alpha

Kappa

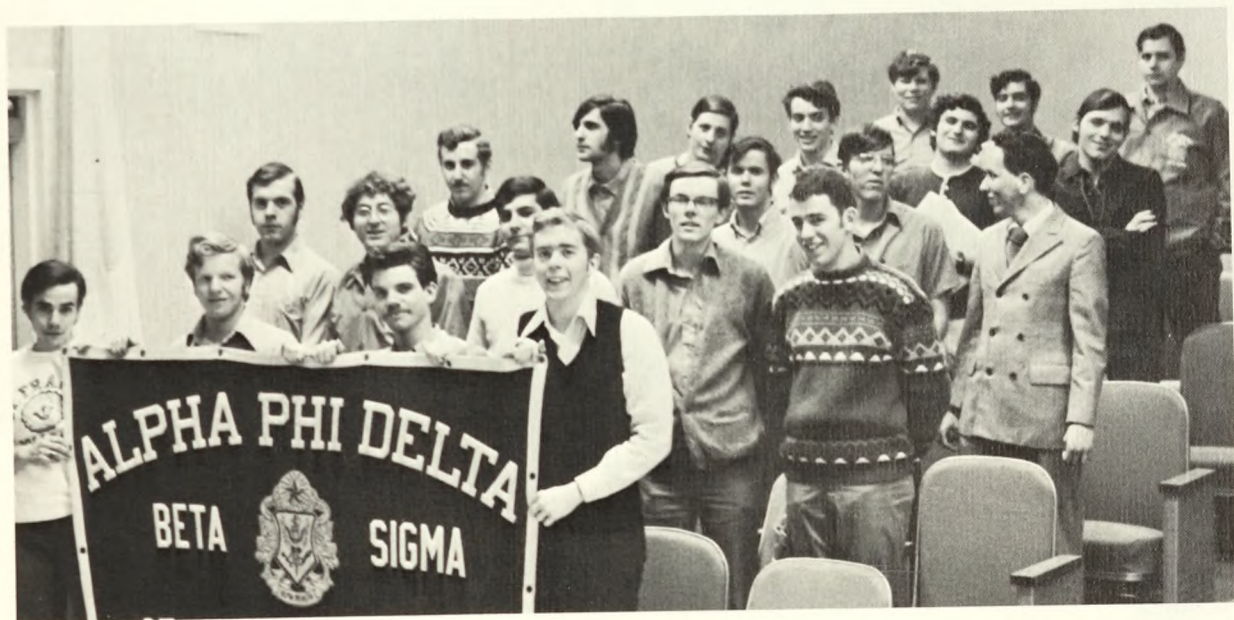

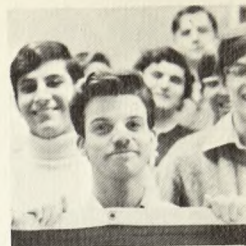

Psi

Alpha Phi Delta

Alpha Phi Delta Fraternity, Beta Sigma Chapter, has done much over its short nine-year history to promote its own aims and foster the ideals of St. Francis.

Among the fraternity's programs are: Charity drives, the most recent of which were a "Biafra Drive" and a "Kidney Drive"; a tutorial program, set up for students at the college in order that they may receive help in certain subject areas; a monthly exhibit in the McGarry library, focusing on some historical figure; and support of Columbus Day activities in New York, for one of the aims of the fraternity is the preservation and promotion of Italian Culture. The brothers also hold parties at the fraternity house, and these are run through the auspices of the chapter's Social Committee.

The fraternity owes much of its success to its faculty moderator, Bro. Camillus Casey, O.S.F.

Omega Delta

Chi

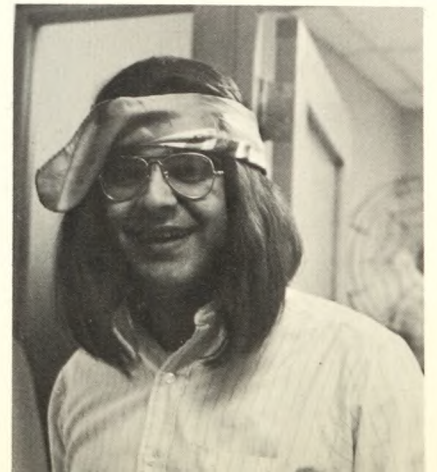

Founded in 1960 by ten St. Francis men, Omega is basically a social fraternity. It has, in the past, and will continue in the future, to offer to each of its brothers both fraternal friendship and social life throughout their academic years.

Under the chancellorship of Bill Tully, Omega has prospered. Scheduled for the year was a Beer Blast to end all Beer Blasts and a special event for the Brothers of Omega, both old and new, was the Tenth Annual Reunion which consisted of a dinner-dance and much reminiscing.

Since Omega is an adjunct organization of St. Francis, it has always strived to meet its obligations to the college and especially the student body. Omega offers its members more than a place to sit and drink beer; it offers friendship, cooperation, loyalty, and above all brotherhood.

Phi Rho Pi

In an age where brotherhood and love is a synonym for our generation, one needs only to experience Phi Rho Pi Fraternity. Undoubtedly, the mention of a fraternity immediately brings to mind the idea of wild parties, unlimited beer, pranks, and "the exclusive elite". Perhaps this myth is true in many fraternities, but this is not the first thought which springs to mind when thinking of Phi Rho Pi. One's first thoughts are of a close brotherhood, sans cliques, whose brothers live life to its fullest. Phi Rho Pi has its share of pranks, parties, and beer, but that is not the primary reason for its existence. Any social club can accomplish as much in that regard. Phi Rho Pi exists for the purpose of true brotherhood: learning to relate to others whose views and opinions may differ, and relate to them as brothers. Far from promoting exclusiveness, this view can only foster the diametric opposite. In addition to the typical support any fraternity gives its school, Phi Rho Pi engages in other activities; activities which include annual blood drives, and toy drives for local orphanages.

One must conclude that Phi Rho Pi is truly unique, retaining a heritage dating back almost 50 years.

With this year's officers: Bob Shanley (Praetor), Sal Schifilliti (Vice-Praetor), Ray Wendt (Treasurer), Phi Rho Pi has, and will continue on its ever growing "surge for greatness".

Pi Alpha

Pi Alpha Fraternity, founded in 1906, is the oldest and best remembered of the fraternities. During the 1970-71 academic year Pi Alpha once again fulfilled its aim to the highest and most honorable degree; showing that friendship and brotherly love win out above all.

Pi Alpha is basically a social fraternity but only the brothers themselves realize the true benefit and wealth that comes from its membership. Led by its new archon, Joe Clark, a new moderator, Mr. Enildo Garcia, and a host of officers, Pi Alpha has remained the mainstay at St. Francis College.

Pi Alpha has had a long tradition of being selective in their recruitment of new brothers. This year was no exception. They admitted only four new brothers in the fall semester. The welcomed new brothers are Joe Frysen, Al DeCarlo, Ed Heatherington and Don Drobnicki.

It is unfortunate that every year old members are lost through graduation. However, bonds of friendship and loyalty formed through college years do not cease at graduation, but continue to enrich the lives of the brothers as long as they respect the sacred pledge of membership. Pi Alpha alumni do not leave St. Francis College with only a degree but take along with them long and lasting memories.

Phi Kappi Chi

1971 marks the first anniversary of Phi Kappa Chi. During this past year many exciting things have happened to the Sorority, the most important being a national contract offer with Pi Sigma Sorority. Phi Kappa Chi will be admitted to the Delta Chapter.

The sisters also open up their first pledge season in the spring of '71. They offer to all incoming sisters a relationship of sisterhood, friendship, sharing and fun. The sorority boy-friend-girl-friend pajama party, and the annual St. Valentine's Day formal are the highlights of the social year.

Sigma Gamma Pi is now approaching its fourth year serving the community of St. Francis College. Sigma has been an active participant in every aspect of the community life, ranging from student government to intra-mural sports. An Easter Clothing Drive, initiated by Sigma, has also been run annually for the last four years. Sigma is also a large contributor to the inter-collegiate sports program, lending players and its support to all teams, especially the championship S. F. C. hockey team.

Being one of the new frats on campus, Sigma can look forward to many more years of active participation and service to the community of St. Francis College.

Sigma Gamma Pi

Alpha Psi Omega

Alpha Psi Omega is a national honor fraternity dedicated to the production of drama on college campuses. Last year, the Pi Zeta chapter was officially recognized at St. Francis College. Under the leadership of its moderator, Brother Lawrence Drowne, and with an active membership which has grown within past years, Alpha Psi Omega has provided a compact interest group that provides and maintains enthusiasm in the theater program, raised the prestige of college-theater activity, and recognized individual achievement and devotion to the theater.

Alpha Psi Omega hopes to increase its standards of excellence in the future years through the aesthetic, intellectual, and humanistic influence of dramatic literature.

Chi

Beta

Phi

Chi Beta Phi, a national honor society was established in 1969. Membership in the Alpha XI Chapter is open to Junior and Senior Biology, Chemistry, Physics and Psychology majors who have a minimum cumulative index of 2.25 and a cumulative index of 3.00 in their major.

Sigma Delta Pi

Zeta Theta, the St. Francis College chapter of Sigma Delta Pi, Spanish National Honor Society was formally inaugurated on the 19th of May, 1967. The chapter was sponsored by Brooklyn College (Beta Gamma chapter, established 1945). Dr. Francisco Lacosta, the present advisor at Brooklyn College represented his chapter at the initial ceremony.

Dr. Hose Martel, Professor Emeritus of City University and Vice-President of the northeast region honored the chapter by assisting in the ceremonial rituals and delivery of a talk on the linguistic unity of the Spanish speaking world.

Necessary steps and negotiations for the authorization of the chapter were begun by Professor John Allegra in the month of January, 1967 and came to fruition in late April. On the average of eight students are received each year. The chapter also numbers the following faculty as honorary members: Dr. Joseph Palisi, Dr. Nicholas Spadaccini, Dr. Enildo Garcia, Associate Member.

K A P P A

M U

E P S I L O N

Kappa Mu Epsilon, New York Theta Chapter is a mathematical honor society which is in its second year of existence at St. Francis College. The purpose of the society is to foster an appreciation of the natural beauties of mathematics and its applications.

In conjunction with the Math Club, Kappa Mu Epsilon sponsored an Intercollegiate Math Bowl against Molloy College. Other activities consist of career nights and field trips. The weekly meetings included such things as student and faculty lectures, films, problem solving and graduate school seminars.

The Theta Nu Chapter of Phi Alpha Theta, under the direction of its moderator, Dr. James J. Flynn, has existed at St. Francis College since 1962. The Chapter, part of the second largest honor society in the United States, participates every spring in regional meetings and bi-annually at the international meeting of the society. Phi Alpha Theta's purpose is to give scholarly recognition to historians both on the student and professional level. The organization since its founding, has always admitted lady historians to its ranks.

Basketball

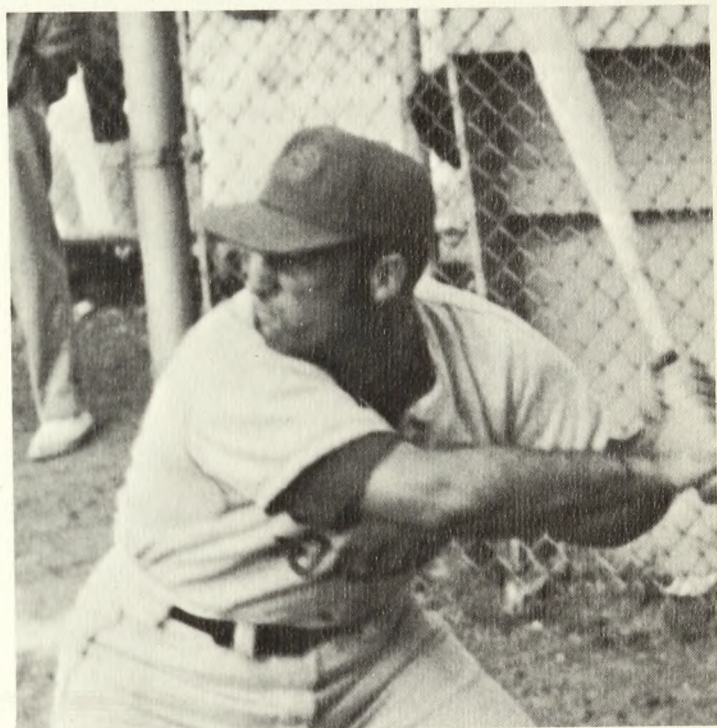

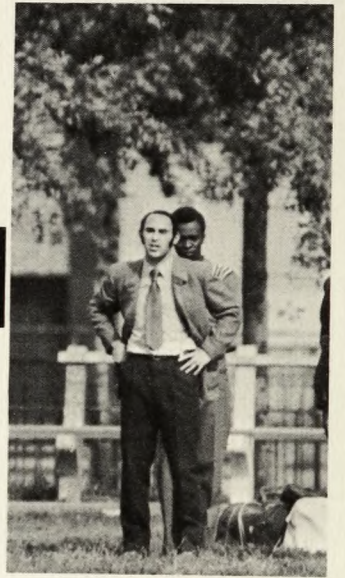

Baseball

The St. Francis College varsity baseball team, this year scheduled a 26-game slate, the largest in its history. In addition to 13 games in the Metropolitan Baseball Conference, the Terriers played a four game, two day road trip to the south. They have four experienced pitchers led by Al Figliolia, 1970's outstanding Pitcher of the Met Conference; Mike Salogub, a top hurler in the Atlantic Collegiate Baseball Conference last Summer; senior, Steve Haran and junior, Dan O'Leary.

The outstanding player this year was Lou Anemone who made among other awards, the District II All-American team, hitting .374 and the Met Conference All-Star squad.

Soccer

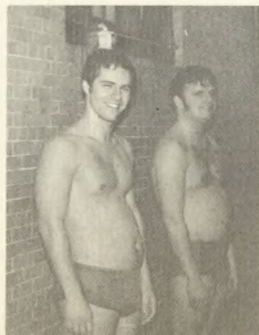

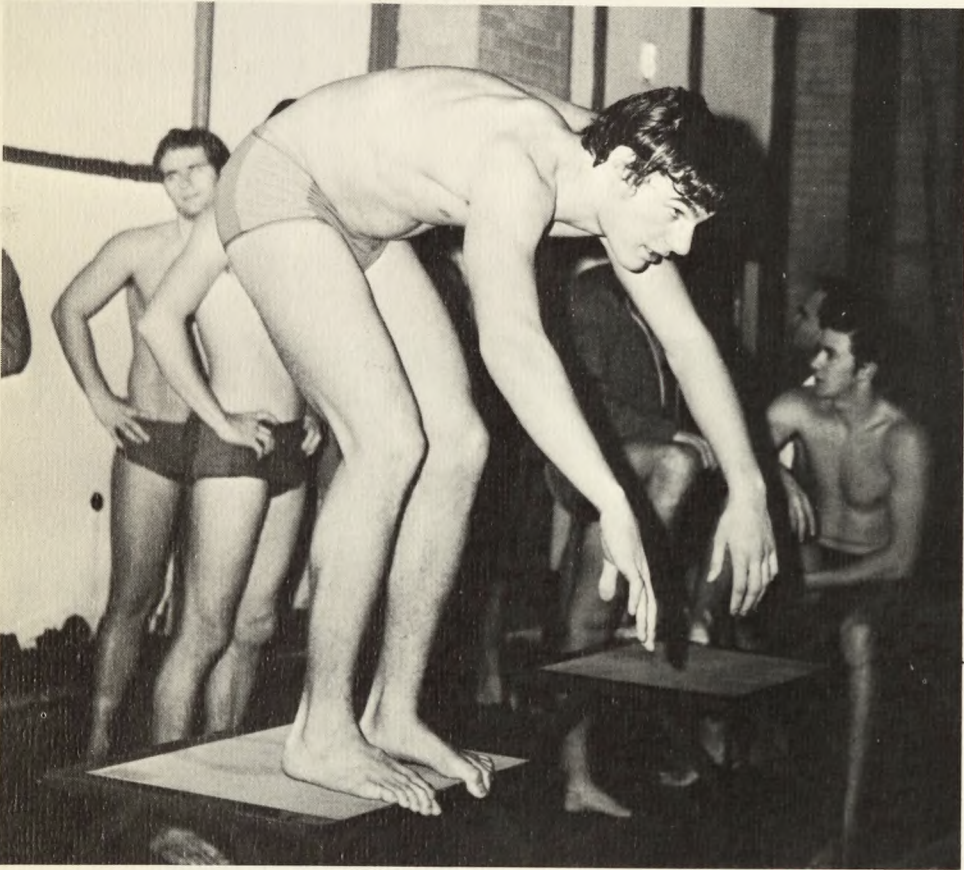

Soccer

Swimming Team

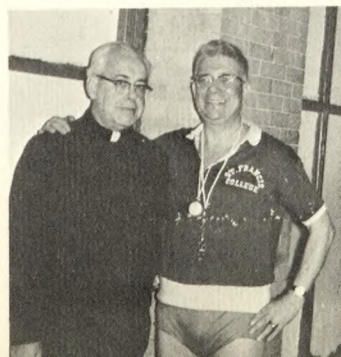

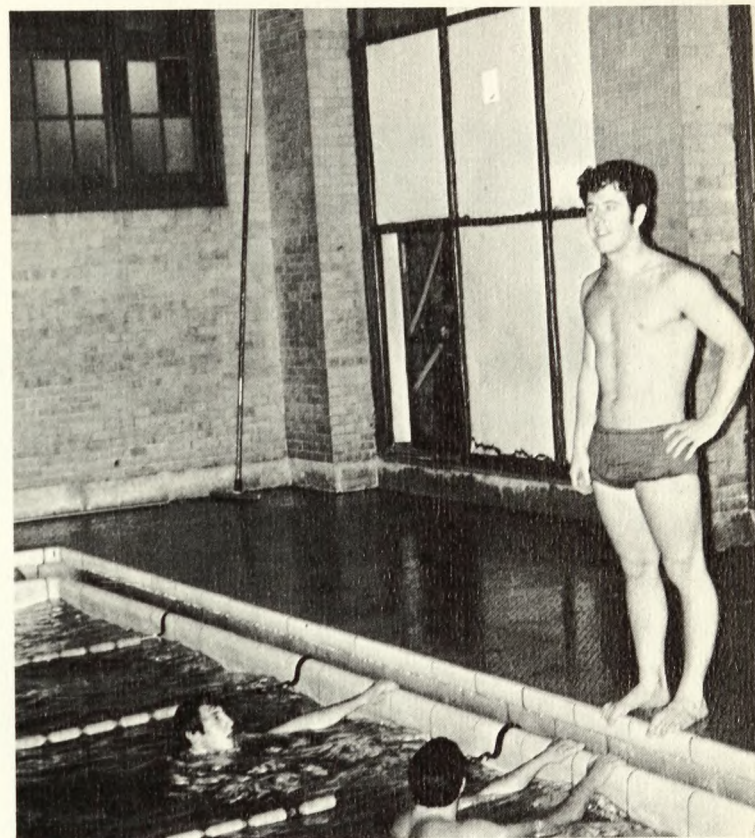

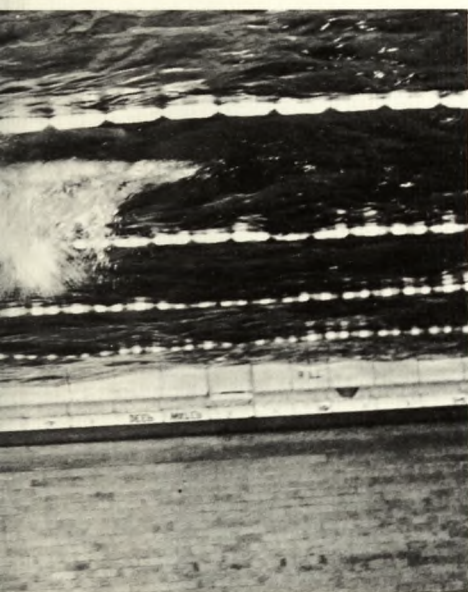

The S.F.C. varsity swimming team clinched its first intercollegiate swimming title in thirty one years with a decisive 62—42 victory over Hunter College.

The Terriers in winning the championship of division 11 of the Metropolitan swimming conference finished with a 7—0 record. In addition the terriers have two victories over non-conference opponents.

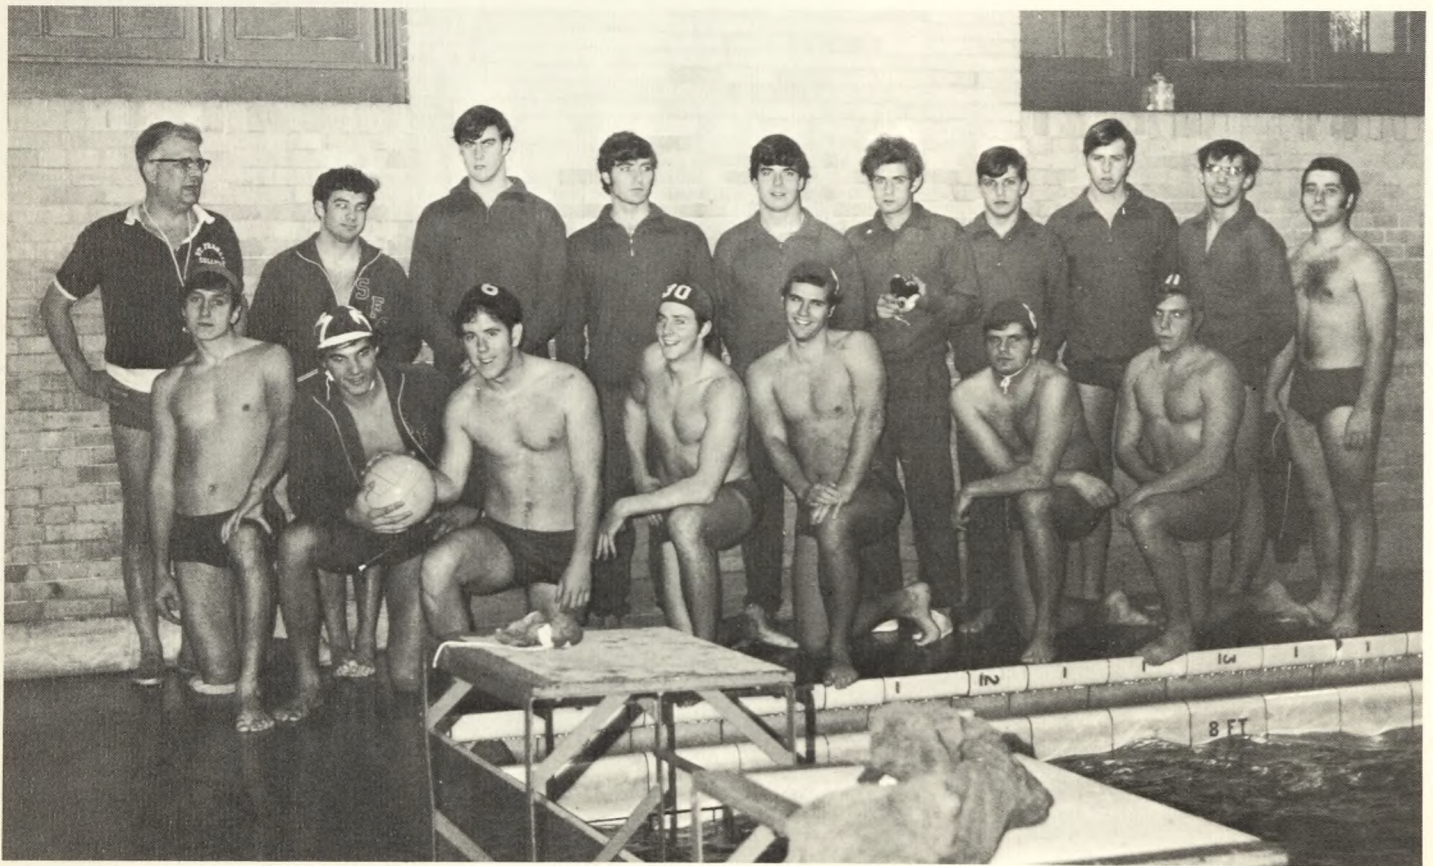

In beating Hunter College, seven new records were set. Coach Charles Schaem, himself a member of the 1939 championship team believes that this is the best we've ever had.

How far do you want her to get?

College? A professional career? Your youngsters can get as far as their talent will take them. But you have to make it happen. We at Manufacturers Hanover Trust can help. For instance, we have something called Systematic Savings. It's an easy way to build up an education fund. Once a month we take a little bit out of your checking account and it becomes a whole lot in your savings account. Or maybe you need an Education Loan? Or just some financial advice? Don't you want your children to get as far in this world as they can? It can happen when you have a great bank behind you.

It's good to have a great bank behind you

"Fight on Lou!"

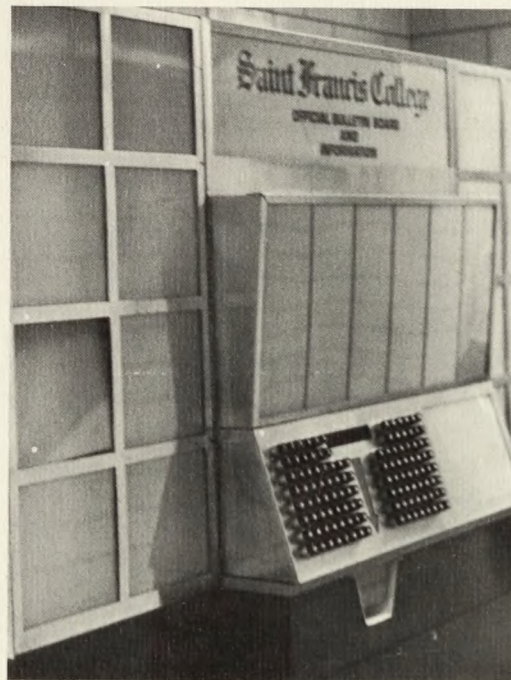

“There’s an animal on my Paul?”

Multiple Choice:

A. Which one doesn't work?—

A

B

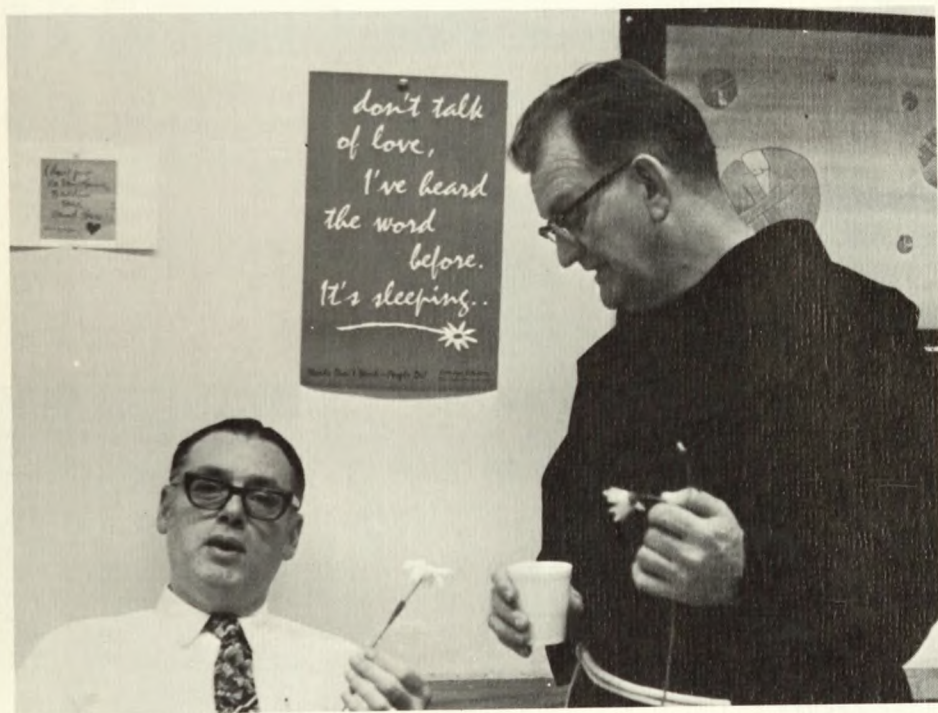

C

Note, Answer is letter A.

B. Who are the real Rabble Rousers?—

A

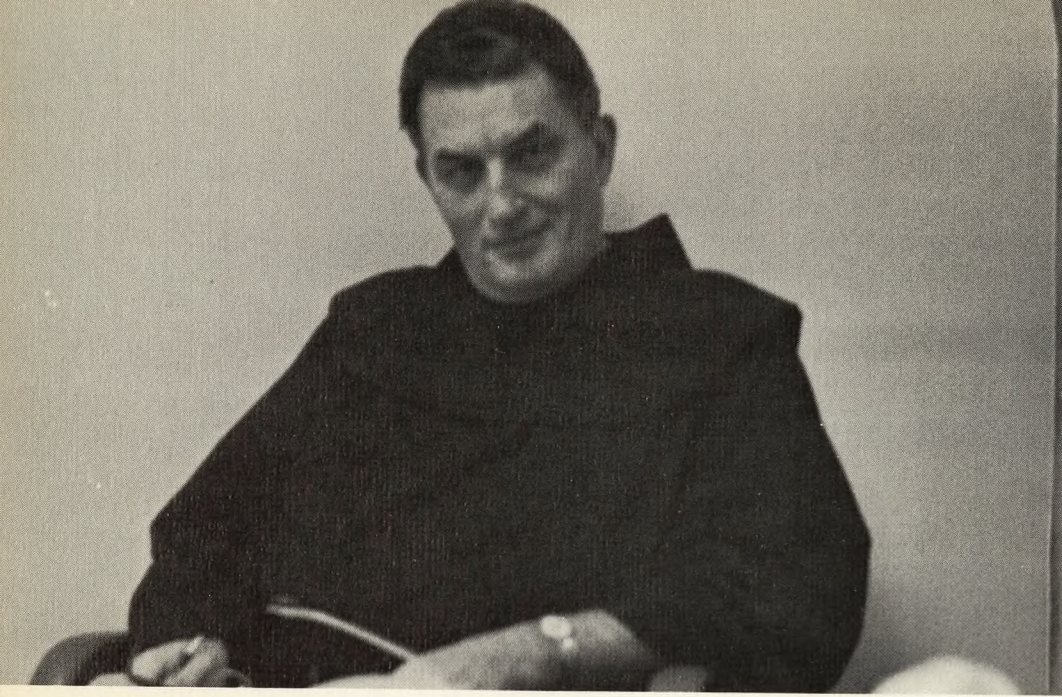

C

B

Note: None of these.

So you want to come to St. Francis, well . . .

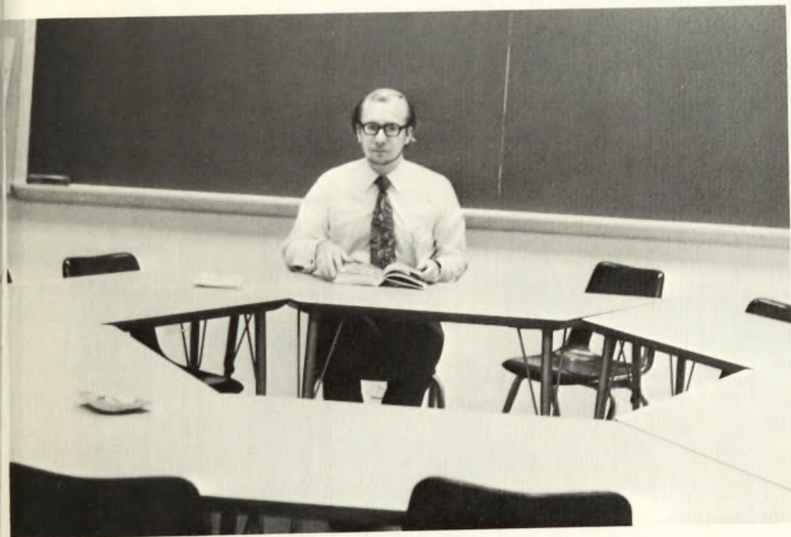

If you ask those two students . . .

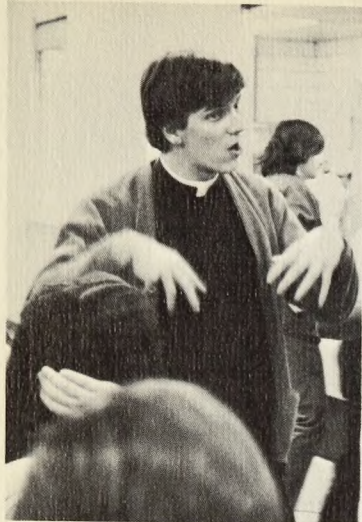

they will tell you about our . . .

... spacious campus ...

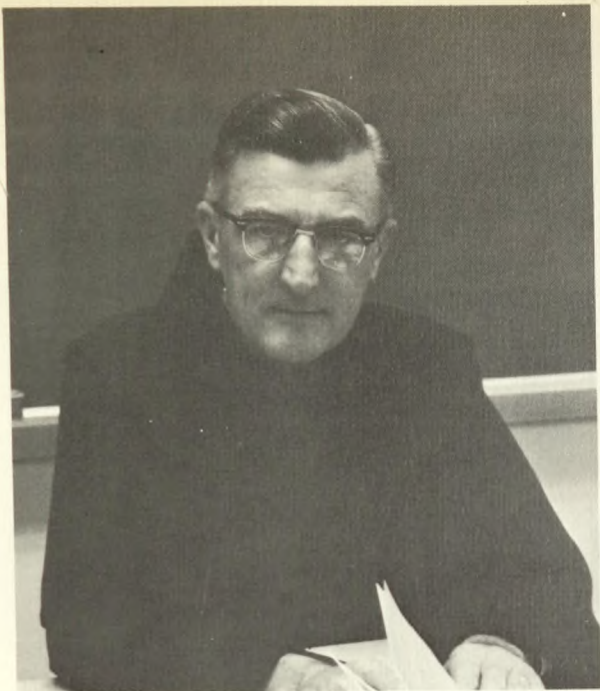

... intimate, small classes ...

... religious atmosphere ...

... cut-throat prices ...

... smiling professors ...

... students dripping with college traditions ...

SO. . .

If you get past our admissions committee

you will be issued a uniform

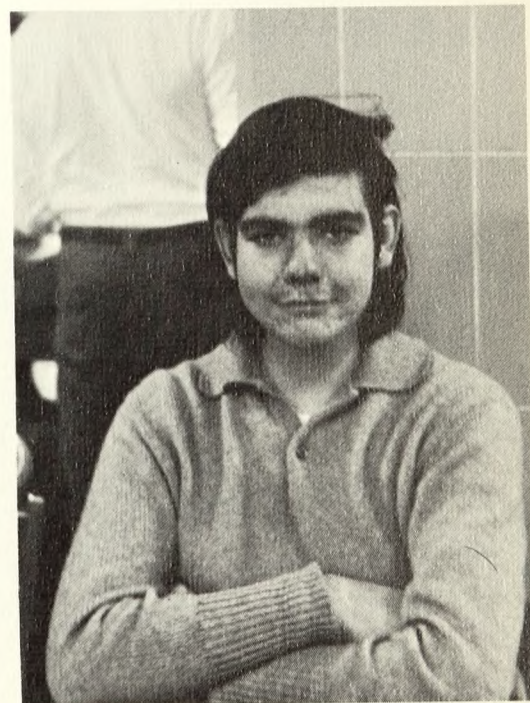

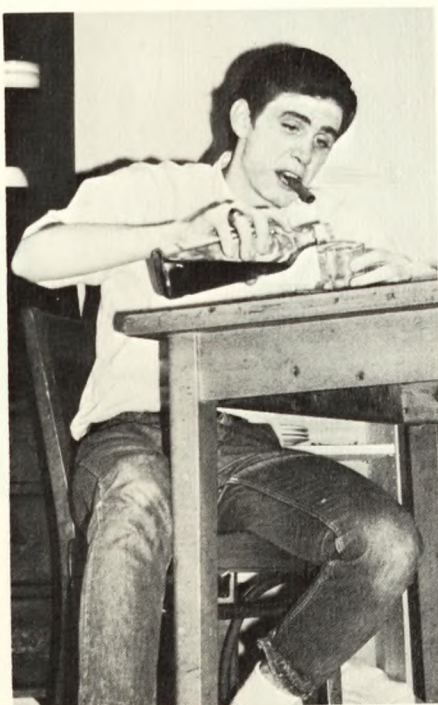

and will be permitted to participate in all college functions.

If you want any more reasons to come . . .

Ask Any Student!

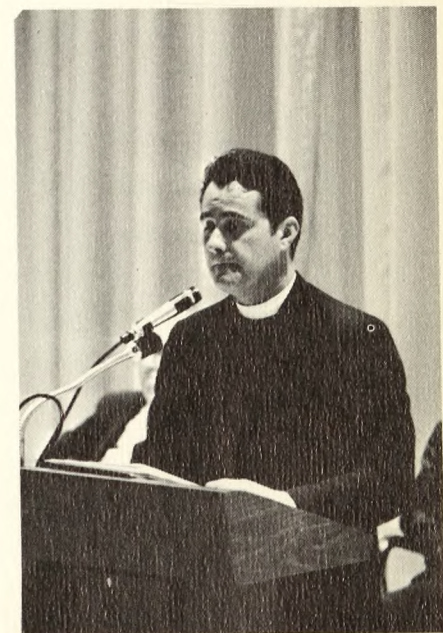

If smoking is hazardous to your health . . .

“Why are these people laughing?”

People get through school their own way!

B-B-B-B-But that's all folks!

June 1971

Dear Students:

The book is done. Thank God! Some of you were so apathetic we almost never made it. Deadlines were missed because many clubs didn't make appointments for their pictures. The other problems were eliminated rather than coped with.

This year is also done. The Seniors can look back upon four years and swell with pride at what they have done . . . if they have done something that has been truly beneficial to the other students. And as for the others:

To the Juniors, I wish luck. It's your school now. You will have to fight useless battles; make endless concessions; and in the end, "get fat" on crumbs.

To the future Sophomores and Freshmen, don't give up. It's your school also. Change it as you see the necessity, before you get tainted with the attitude of "I just want to get out." You have a voice, shout it. You have an interest, cultivate it. You have hands, work it out. A better St. Francis must be your goal. Don't quit now, when fate is in the comfort of your reach.

As for me, I ask for no critical memories to complain. I put together a book about the school as I saw, felt, and helped it. If you see frustration in the book, good, because it's there. If you see hope, good, because it's there too. And if you see pride, then shout "Hurrah!" because then you see as I do, the potential of our college.

Sincerely,

Donald Miserandino
Editor-in-Chief
