

DEDICATION

As in years past, one of the most difficult problems which we in Room 500 face is the decision as to whom we should dedicate this year's book. All of the suggestions made were extremely worthy and in attempting to narrow down the choice, we followed the criterion of picking someone who best exemplified our experiences in four years of study at Saint Francis. Although Saint Francis College is represented in different ways to different people, it was felt that those should be chosen who best represented the school to a majority of the students.

In another and more important sense, obvious and personal dedication to the students and their well-being, as well as qualities of Christian character, intelligence and Franciscan spirit, provided the final and over-riding factor in the making of the choice. It is with these thoughts in mind that we, the Senior Class, respectfully dedicate this 1967 *Franciscan* to Doctor Edgar Taschdjian and Doctor James J. Flynn.

Dr. James J. Flynn

Through the efforts of Doctor Taschdjian and Doctor Flynn, many students will leave Saint Francis, with not only an educational background, but perhaps, a clearer understanding of life itself. They have worked arduously to extend their knowledge both educationally and personally. Yet, we must realize that they strive for a complete success on behalf of the student, which we feel they have done quite well. The Seniors' only wish is that, both Doctor Taschdjian and Doctor Flynn, continue to be successful in helping those who follow us have a clearer understanding of themselves and their world.

and Dr. Edgar Taschdjian
