The purpose of a yearbook is to record the activities of a school year and to recall in words and pictures the events which have gone to make up two semesters of student activity.

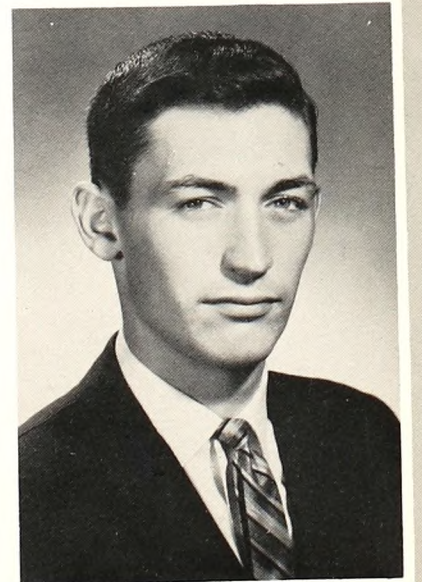

We have set a high goal in the publication of a yearbook that is truly representative of St. Francis College and worthy of her students.

To this end, the *Franciscan* staff has labored many long hours writing copy, taking pictures, editing the collected material, laying it out and molding it around a theme.

The measure of the success of the *Franciscan* cannot be judged subjectively by basing its success on coverage given to any one section or activity. Frequently unavoidable obstructions could not be hurdled. The true measure of the 1960 *Franciscan* can only be evaluated after the whole book has been read and reread in light of the whole school year.
