In the spring of 1976, the Cultural Committee sponsored an exhibition by three members of the famous Twyla Tharp Troupe. Twyla Tharp, who in recent years has become famous for her innovative choreographics, is a fine dancer in her own right.

The dancers provided the audience with a demonstration of the basic Tharp steps and how the many variations were derived from them. In addition to a special mini-performance, the dancers provided answers to the many questions posed throughout the presentation.
