

Franciscan Spirit Awards

Virtue is its own reward but public recognition is sweeter. Thirty-seven activities-minded juniors and seniors were singled out by a Student Council committee for this year's plaques. In a five hour meeting, the committee studied applications for signs that prospective winners had displayed that rare and valued quality known as Franciscan Spirit. That Spirit, whose definition is in a constant state of flux, took on a new connotation of dubious worth when not a single murmur of discontent was voiced over the selections.
