

Fraternities

Since its founding in May 1964, Zeta Iota Chapter of Alpha Kappa Psi, National Professional Business Fraternity, has distinguished itself as a most dynamic group of individuals.

They have served St. Francis College as Lab Instructors, Group Leaders, Accounting Proctors, Accounting tutors, and Special Function Ushers. They have served as the finance committee for three successive and successful J.F.K. Carnivals. They have annually represented St. Francis College at the Congress of American Industry and the Catholic Accountants Guild, and have also undertaken research projects for both the school and the department of business.

Alpha Kappa Psi aims to develop leadership, organization, and public speaking ability on the part of its members through the best medium possible: that of actual experience. It also develops the ability to work with and cooperate with others in achieving constructive objectives, an asset of great value to the business world. Many alumni members, now business executives, received their first training and experience in leadership in the activities of Alpha Kappa Psi. By encountering self-development through experience and the observance of high business ideals, Alpha Kappa Psi has given many college students their first inspirational bounce on the springboard of success.
