

# Lounge Party

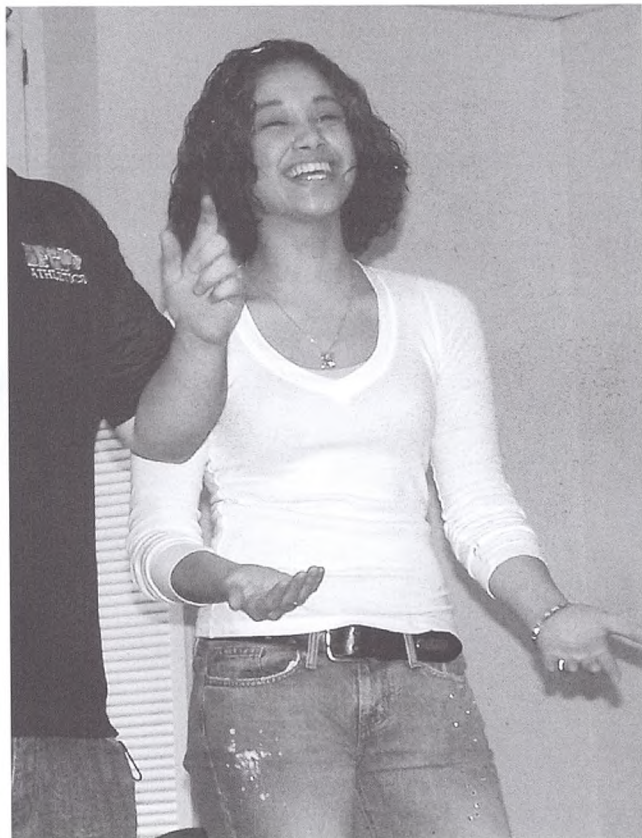

The St. Francis College community finally got back its lounge on January 23rd after it had been closed for renovation and construction related to the new academic center. The new lounge has been completely renovated with brand new couches, tables and computer kiosks. The new lounge has become a welcoming place to new students and old, as well as a place for meeting up, hanging out, getting work done and even catching up with some missed sleep. The opening of the lounge was celebrated with a carnival by vendors giving out hot dogs and pretzels.

# Valentine's Day

The annual Student Government Association's Valentine's Day auction has become a beloved and fun day here at St. Francis. The SFC community comes out to the Gormon Dining Hall to bid on a fellow student for a luncheon "date" in the Callahan

Center or even stand for auction themselves. Individuals and groups of students and faculty went up for "sale" to be bid on by their fellow classmates and faculty members. Held on February 13th, the cafeteria was filled with students from all levels to bid, be bid on and just to watch.
