

# BOWLING TEAM

## strikes out . . .

As it was last year at this writing, the St. Francis College Bowling Team again finds itself in second place with a 31-14 record right behind last year's Eastern Intercollegiate Conference champions, Pace College. Our team started off fast, winning 11 of its first 12 games. Then, as it usually happens, the team had a slump for a few weeks dropping them to sixth place in the 15 team league. However, the tide has presently turned in our favor, with our team riding high on an 11 game winning streak. This was done by taking the last two games from Kings Point, followed by 3 undefeated weeks against Brooklyn Poly Tech, Iona and the most heart-warming victory of the year over St. John's. Over the past four years the team has compiled an 8-4 record with the Redman.

Other Terrier shut-out victories so far have been over Pratt and Yashica. We have also taken two of three points from Queens twice and Columbia. Important upcoming matches for the Keglers include N.Y.U. and the Jaspers of Manhattan College. Of course, the most crucial matches of all will be against Pace. St. Francis will meet them at least twice in the last eight weeks of the league.

Charlie Parente, Captain of the squad, is rightly proud of his team. Co-captains Larry Kelly and Bob Pagano coupled with George Salico and Dave McMullan make up the starting five for the team. All of the starters have averages in the mid 180's. Rookies to the team include Frank Seggio, Sal Statlone, Jim and Mike Elliott and Terry McCollum. Charlie Parente has high series on the team with a 620 and George Salico holds high game with a 254.

In March the team travels to Philadelphia for the annual Doubles Tourney. The team sends six men this year and their hopes are high. Last year the combination of Kelly-Parente finished seventh in the fifty team field.

Dave McMullan, smallest member of the team, demonstrates his ability with an eight-ball.

Bowling team gives us an I.Q. revealing grin . . . They are—Front Row: Bob Pagano (Co-Capt.), Terry McCollum, Larry Kelly. Back Row: Jim Elliot, Dave McMullan, George Salico, Chuck Parente (Capt.).

# MOTOR SPORTS CAR CLUB

## ZOOOOMS

Club members are encouraged to promote safety behind the wheel and to avoid radar.

Although the Motor Sports Club is not an officially recognized activity in St. Francis, it has functioned and expanded independently of any school financial backing for the past two years. Membership, though relatively small, is steady and on a definite increase. During the past year, many of the members have won trophies in various rallies sponsored by different Long Island car clubs.

The club has held several rallies in the past and has had a fairly good support from the student body, averaging about 20 cars per rally. However, increased support is desired so that more trophies may be awarded and so that the rallies can be made more challenging to the entrants. The club would like to hold a Gymkhana, which is a high speed obstacle course and also try to sponsor a drag-racing competition, based on a handicap for the different classes.

The purpose of the club is to provide its members (and also anyone interested in cars) with recreational and educational activities in the automotive field, to provide technical information and to promote safety and courtesy behind the wheel. Besides talking about cars, the club also competes in various contests. John Esposito just missed by a few seconds winning a trophy in an ice-khana, i.e., a gymkhana on a frozen lake, in upstate New York. Steve Schawaroch and his date (he was navigating, she was driving) entered a rally sponsored by Hofstra U. and won a trophy, placing 8th out of 50 cars entered.

For next year, Juniors Tony Amodeo, Richie Moen, George Marino and Richie Carroll promise to have many rallies which will prove to be interesting to all who wish to participate in this not-so-ordinary sport.

John Esposito, Motor Sports Car Club president, explains the intricate and highly delicate workings of a whatchamacallit.
