

# Welcome

St. Francis College is a private, independent co-educational college that welcomes students from all walks of life. Both the Franciscan heritage and the Catholic tradition establish a cornerstone of academic excellence, social responsibility, and mutual respect throughout the entire College community. The major goal of the college is to provide an effective and high quality education through various degree programs in the arts and sciences. The school promotes the intellectual, social, emotional, spiritual and physical development of its diverse student population. This establishes an atmosphere that cultivates learning and scholarship as distinctive and rewarding activities. As a whole, we form a serving community in the Franciscan spirit.

# Letter from the SGA President

Students of St. Francis College, this year marks the end of our time as students of the classroom and the beginning of our time as students of the world. We have seen and experienced a great deal during our time here. We have learned much from our professors as well as from each other. Looking back on our tenure, we all have unique opinions of what it all meant to us.

I believe that the mission of St. Francis College was more than merely producing great students, it was to make us better people. What I have been impacted most by are the people; I have never been surrounded

by a more diverse and dynamic group. While at SFC, I have met people from the Caribbean, Europe, South America, Asia, and of course some of the greatest people Brooklyn has to offer.

On behalf of the students of St. Francis College, I want to give the deepest possible appreciation to the greatest assembly of educators, confidants, counselors, and mentors that any school can claim to have. Every professor we have had has touched us in their own way and our graduation is a testament to their efforts to push us to our limits and beyond. St. Francis College has the distinct advantage of having a group of educators that support the student body in practice rather than merely in word. What has stood out to me most is their holistic approach to our education. They are devoted to developing us not only as students, but as people.

And so, I feel it appropriate to leave you with a prayer, *Lord, grant us the wisdom to discover our purpose, the strength with which to do it and the valor to see it done. Brothers and sisters in St. Francis, let us go forth with all the knowledge we have gained and make this world a better place,*

*Yours in St. Francis,  
Alfonso Lopez*
