

Alpha Phi Delta

Alpha Phi Delta Fraternity, Beta Sigma Chapter, has done much over its short nine-year history to promote its own aims and foster the ideals of St. Francis.

Among the fraternity's programs are: Charity drives, the most recent of which were a "Biafra Drive" and a "Kidney Drive"; a tutorial program, set up for students at the college in order that they may receive help in certain subject areas; a monthly exhibit in the McGarry library, focusing on some historical figure; and support of Columbus Day activities in New York, for one of the aims of the fraternity is the preservation and promotion of Italian Culture. The brothers also hold parties at the fraternity house, and these are run through the auspices of the chapter's Social Committee.

The fraternity owes much of its success to its faculty moderator, Bro. Camillus Casey, O.S.F.
