

Business Club

The Business Club is open to membership for all students who have an interest in broadening their professional background in business. The club provides a forum for distinguished speakers in various specialized fields of business, and an opportunity for students to acquire information in these areas.

Under the leadership of President John Rogicki, and Vice President Vincent Simone, meetings of the club have held which presented student symposia on various topics of interest to business students.

German Club

This club is intended as a supplement to the German courses offered at St. Francis College. Students taking German as their foreign language are encouraged to participate in the meetings, which include films, discussions, occasional lectures on German culture and related topics. In the past the club represented the College in the September Steuben Parade.
