

GUIDANCE

MR. PATRICK TUFANO
Mental Health Consultant

The Guidance Center provides specialized services for all the students of the college. Its assistance was sought by many seniors who were preparing for graduate school and seeking national and foreign fellowships. The center also arranged interviews with many of the large corporations in the metropolitan area, for those who plan to enter the business world.

In addition to counseling the center provides programs for testing all phases of personality, reading skills improvement and job and graduate school placement.

The new director James Dixon provided excellent and expanded programs while working jointly with the Administration, Faculty Advisors and Moderators to assist the students in accepting his challenges, and responsibilities, and in solving his difficulties.

Approved by the American Board of Counseling Services, the Guidance Center has aided students in making decisions concerning their future education and occupation as well as matters concerning their day to day problems.

Brother Mathias, our Financial Advisor, coordinates the Work-Study Program.

Mr. Pena helps students with an encouraging word and expert advise.

Mr. Dixon, Director of Guidance Center, counsels Nunzi DeSetto. "I'm afraid there isn't much demand for harpsichord repairmen right now, but I'll let you know if anything comes up."

Graduate School Counselor, Walter Meyer, expresses surprise over the sudden increase in Medical School applications.
