

How far do you want her to get?

College? A professional career? Your youngsters can get as far as their talent will take them. But you have to make it happen. We at Manufacturers Hanover Trust can help. For instance, we have something called Systematic Savings. It's an easy way to build up an education fund. Once a month we take a little bit out of your checking account and it becomes a whole lot in your savings account. Or maybe you need an Education Loan? Or just some financial advice? Don't you want your children to get as far in this world as they can? It can happen when you have a great bank behind you.

It's good to have a great bank behind you
