

Ice Hockey Club

This is the third year of Club Hockey at St. Francis. The first two years were met with resounding success as the club notched two championships in two years.

The aim of the club is to allow students to participate intercollegiately in a sport which is up and coming in the New York area; an entire league consisting of 15 area colleges such that there might be an ordered system of competition. Like all other clubs, the Ice Hockey Club is supported by Student Activities and students, mostly participating students.

Perhaps one of the major underlying reasons for the club's success has to be attributed to its leadership: its moderator, Bro. Andrew Walsh, Joe Carnazza, Mike Day, and Julio Acosta. They have established at St. Francis an organized and established club, both on and off the ice.
