

Dr. Clement presents his new thesis to the Sociologists.

SOCIOLOGY CLUB

Under the leadership of its new President, Greg Dalton, the Sociology Club experienced one of its most satisfying years. During this period, the club sponsored various lectures and trips, which enabled its members to discuss and understand many of the social problems we are experiencing today. Much of the success of the club this year, can be attributed to the increased membership and also to the growing number of students who have expressed an interest in majoring in Sociology.

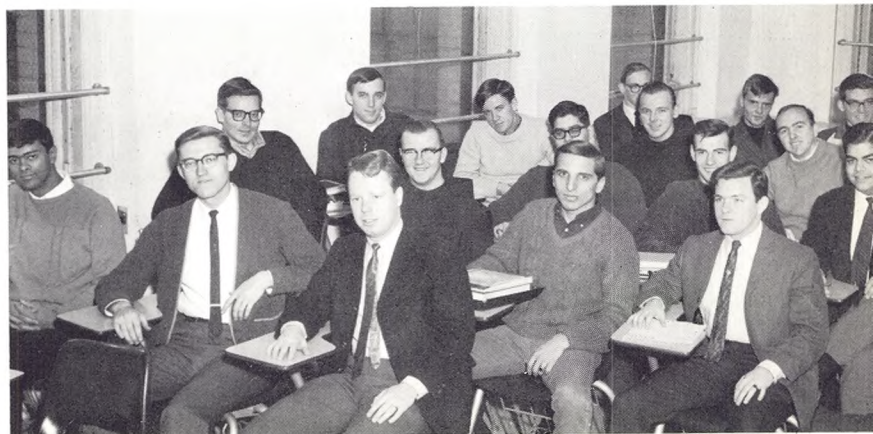

Early in the year, the club was privileged to have as its guest speaker, Mr. Flanagan whose job it is to work with unwed mothers. This is an evergrowing problem especially in New York City and his learned views and comments were appreciated by all. An unexpected highlight of the year was a presentation, by Dr. Clement, of his new thesis which is but one of his many contributions to the field of Sociology. The Sociology Department is indeed fortunate to have him

at its head. The members were also informed of the problems of the migrant workers in a lecture and film presented by Fr. Rosal of the Theology Department. Fr. Rosal's past experience with these unfortunates greatly increased our background in this problem. Later in the year, the Sociology Club, in conjunction with the Psychology Club, sponsored a trip to one of Dr. Leary's bizarre performances in Greenwich Village. It was, without a doubt, a fascinating trip for all those who attended. Many members were later able to take advantage of a weekend of lectures and discussions, sponsored by Long Island University and many were able to obtain possible material for their Senior thesis.

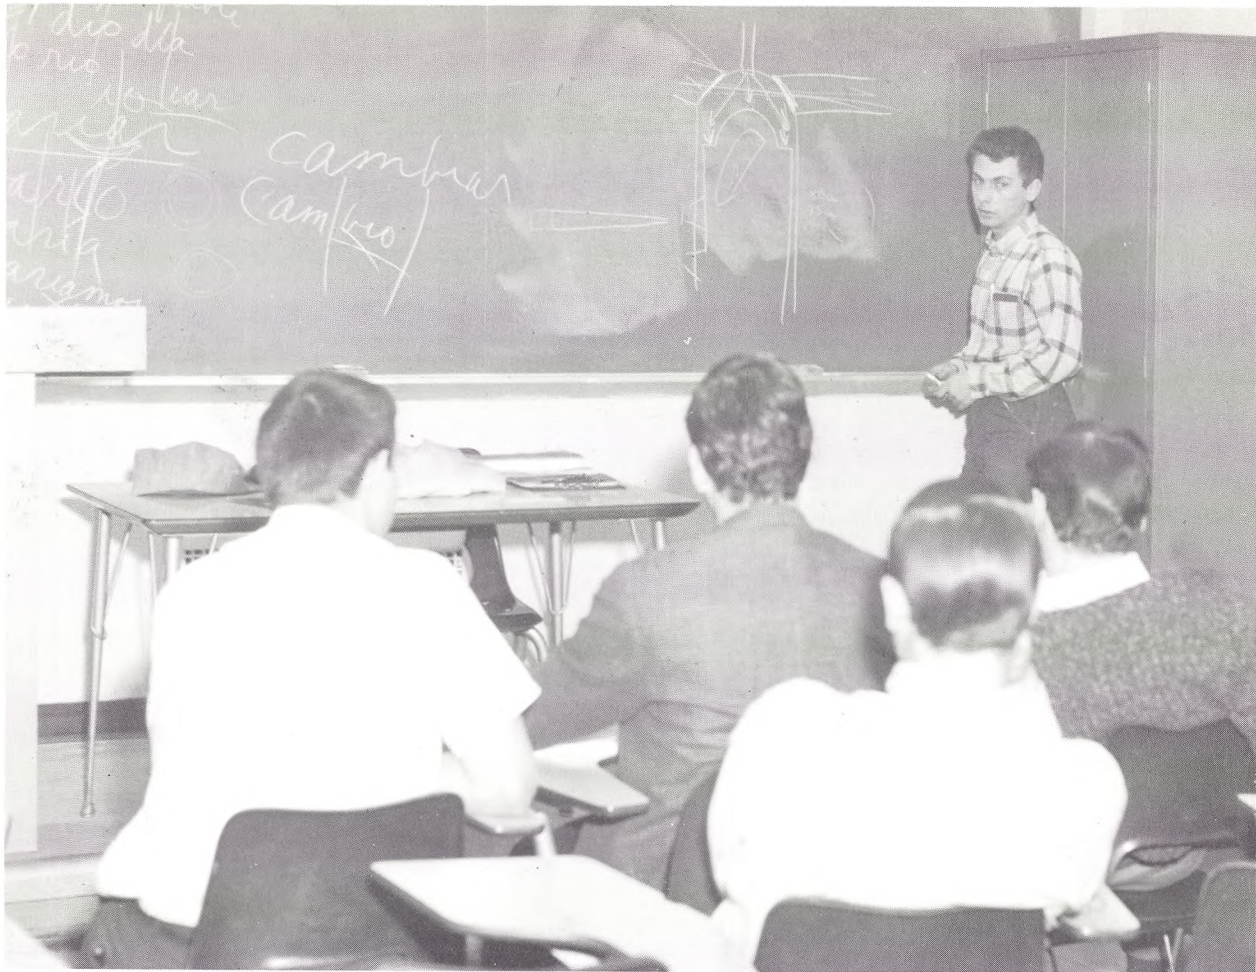

In the future, the membership feels confident that the Sociology Club can grow not only in numbers but in importance and that it can reach a better understanding of the many social problems with which we are faced today.

Sociologists seated on their sterns smiling simply.

John Esposito maps out a plan for a motor invasion of Manhattan.

MOTOR SPORTS CLUB

The new Motor Sports Club was unofficially organized last Spring by the sports car enthusiasts of the college. At present the club has only thirteen members to its credit, but it is up and coming. There are already three experienced Rally drivers in the group: John Esposito, Bob Petritch, and Steve Schwaroch, and this list will soon be lengthened.

For the interest of its members, the club will sponsor closed classes on Rally driving and navigation, racing, and driving Gymkhanas (high speed obstacle courses). Planned events include entering as a club and team in many rallies and gymkhanas and in the future sponsoring some of these events. It is expected that the club will hold a map rally for the student body in an effort to raise the funds neces-

sary for the success of the club.

The purpose of the club is to provide members with recreational and educational activities in automotive sports, to provide technical information and aid to the mechanically minded and to promote safety and courtesy behind the wheel. The club has proven its success already, when Steve Schwaroch, driver and Tony Amodeo, navigator, won First Place trophies in the Pilgrim's Rally, representing St. Francis College.

Whether you drive a sports car or a hot-rod, a motorcycle or a power-mower, or even if you just hoof it around town, if you're interested in automobiles and motor sports, here's your chance to sign on with the winners.
