

Faculty Appreciation

On February 24th students in the St. Francis community came out to thank their professors, advisors and mentors for sharing their knowledge, wisdom and for helping them achieve success. A small ceremony was held in the Callahan Center to honor faculty and administration and to let them know the students appreciate all that they do.

Battle of the Bands

Local bands came out to St. Francis College's Founders Hall to perform and compete for a cash prize. Each band performed twenty minute sets being judged on their style, talent, stage presence and audience participation. After all the bands performed, the judges reached a tie between Meridian Drive and Whole In One. The judges left the final decision up to the audience who after some deliberation chose Meridian Drive, although it was a close call. The winning band took home half of the proceeds made that night with the other half being donated to the Rely for Life cancer donation program run through SGA.
