Charlie, as we call him, joined us after two years at Cathedral College. He aspires to be a chemist and shows good technique in the lab.

An all around "good Joe", he often helps the Frosh with the tough chem problems. He is a real Franciscan and supports all the College activities in every possible way.

This year he was selected as one of the group to represent the College in "Who's Who Among Students in American Universities and Colleges".

His pet saying is: "Gosh, fellows, leave me alone; I haven't finished my Math assignment yet".

His ability will carry him far in any field that he might select.

Dom, as he is known to his friends, is gifted with a very pleasing personality and periodically sports a very dignified moustache.

He spent many hours of his College days trying to find the shortest route from Bay Ridge to Butler Street, and it is the general opinion of the Class that he is now qualified to do graduate work in trail blazing with Adm. Byrd.

As a Junior, Dom was editor of the Voice. This year has brought him to the climax of his studies in Math, and when ask how he felt about it he replied: "Next to my girl, Math is my favorite subject".
