

EDWARD J. RITTER

Navy

*Regis H.S., Holy Cross, St. Lawrence U
Math Club.*

Ed endeavors to have a well-rounded education by attending various colleges. He is also a slipstick boy and intends to be a mathematician of some sort upon obtaining the sheepskin. Being very quiet and reserved, one would never suspect him of being the rabid football Dodgers fan that he is, but every Sunday finds him braving the cold to watch Hoernschmeyer and Co. play at Ebbets Field. With his quick wit and pleasing personality Ed will go far in the world beyond college days.

LEONARD HENRY ROSE

*Franklin K. Lane H.S., Brooklyn College
Math Club; Indicator Club; Glee Club; Third Order; Bowling Team.*

Here's the boy who at this instant could easily steal all the "bobby soxers" from Frankie, if only he discontinued his incognito life. Yes, Lenny has a fine voice which is guaranteed to keep his dental patients happily entertained while he in his future capacity busily drills and fills his fellow students teeth. Since Lenny is a mathematician he should be able to figure all the angles peculiar to dentistry. He should go sliding past life's bases with ease since he is an old hand at his favorite sport, baseball.

HARRY JOSEPH ROSE, JR.

Navy

*Franklin K. Lane H.S., Fordham University
Student Council, Vice-President Indicator Club,
Art Editor Franciscan, Pi Alpha, Intra-Mural
Basketball.*

To Harry, we tip our hats as one of the most versatile and hard-working men in the school. He did all the fine illustrations for this yearbook, is a good student, mechanic, an outstanding third-baseman, plays football during the season, enjoys handball, basketball and most other sports. Incidentally, he can cook up a pan of Lazagne and other dishes to satisfy the palate even of a St. Francis man. Harry is a cheerful guy, well-liked by his classmates, and thinks the world is a pretty good place to live in, except when he's looking for one card to fill in a hundred aces. He will continue studies at U. of Maryland.

RAYMOND CURT RUDDEN

Marines

Erasmus Hall High School

*Varsity Basketball; French Club; Pi Alpha; Math
Club.*

"Ray" began his college career way back in 1939 but four years in the marines slowed him down somewhat. A philosophy major by necessity rather than choice he spends his time between Aristotle and the Flatbush Boys Club where he is an assistant athletic director. He likes all sports and does pretty well on the dance floor. His wit, personality, and self-confidence surely point towards a success as a Sales Engineer.
