

Since the creation of the Botanical Society in 1974, a touch of greenery has been added to our college. The Society's extensive projects include their annual plant sale, as well as the maintenance of the roof garden; planters in front of school, and plants in the student lounge. The members raise their own plants for school use and

publish a semi-annual booklet about plant care. The purpose of this Society is to offer to the students and faculty a chance to learn horticultural skills and gain respect for living things.

Sr. Virginia Cotter is the moderator while Joseph Annelli, Cathy Bontke and Gail Kolks are the respective officers. Chairman of the plant sales is Fran Celentano.

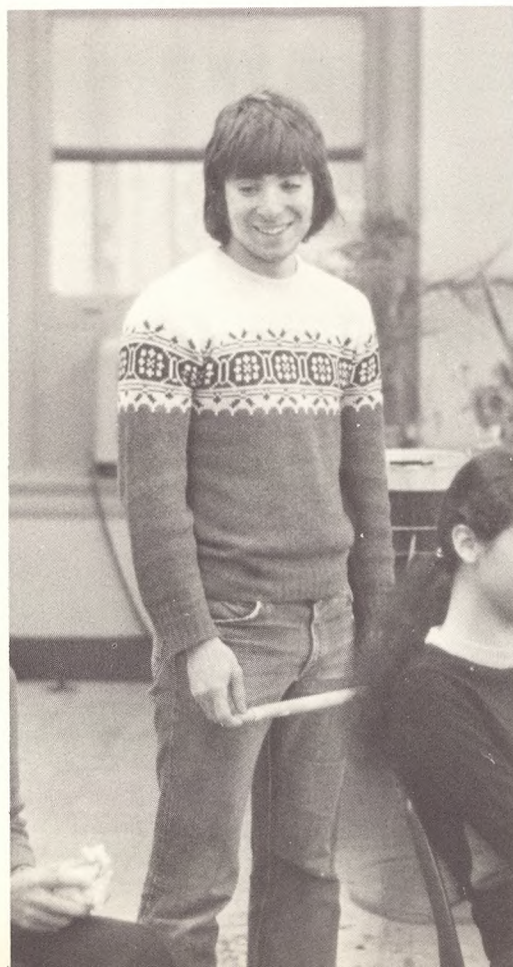

Vice President Cathy Bontke and President Joe Annelli conduct a meeting of the society.
