Intramurals

Rolling

UNDER direction of Mr. Peter Fazio, the Saint Francis College Intramural Program sought once again to provide areas of interest for all students. At this writing, the bowling and chess intramurals have been completed.

Final bowling results showed Ken Duggan with the highest three game series score of 554. Charles Torre placed second with 535; Charlie also had the high game score of 205. Later in the Spring, a second bowling intramural is scheduled.

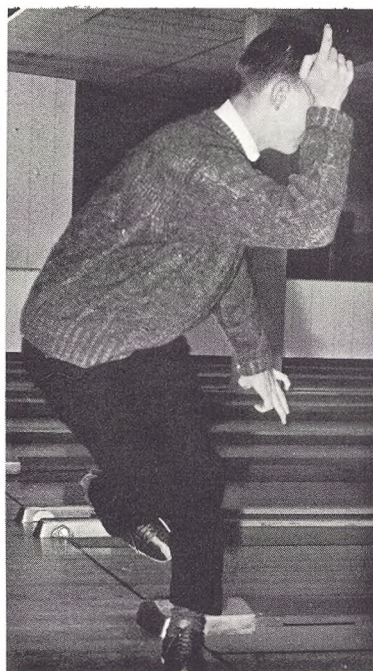

Chess intramurals held in the student lounge continued to be popular. The tournaments ended with John Rodeschin in first place and Edward McLaughlin in second.

Touch football had been scheduled but was cancelled because of consistently bad weather. Coming up in late Spring are track, field events, swimming, volleyball, and handball.

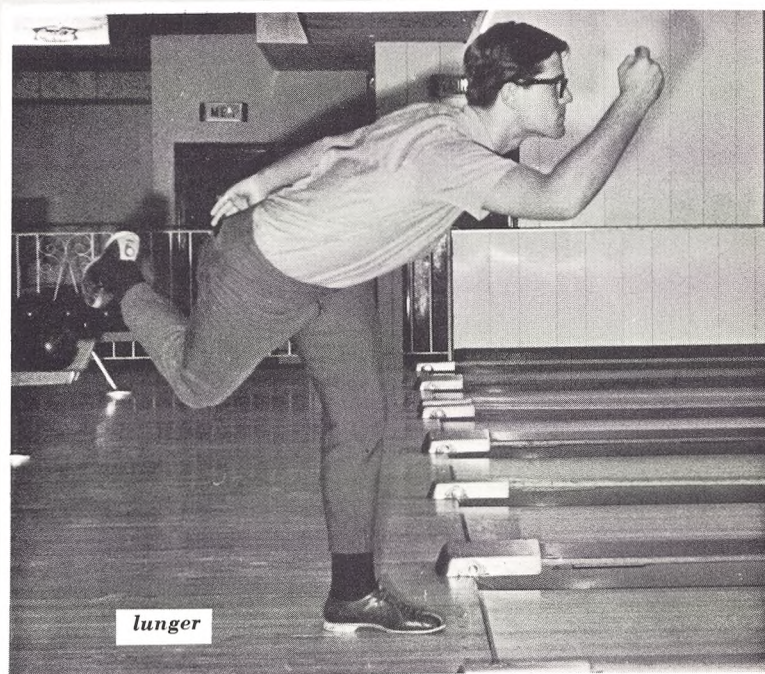

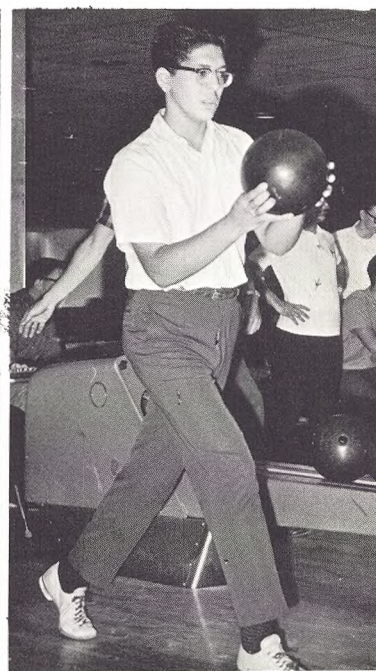

Currently, all students are getting an opportunity to test their marksmanship skill in the rifle intramurals, and registration for basketball has concluded. Twenty-two teams enlisted for basketball; the assortment of squads is like something out of Mad Comics. Prophets see a three way duel shaping up with the Beatles, Cool Breeze V, and the Bus Boys. The Beatles have the big height advantage. The Cool Breezes will be putting a two year consecutive championship on the line. And the Bus Boys have been runner ups for the same two years. With everyone under five feet, ten inches, the Zorts are out to prove that the little man still has a place in basketball. Excitement in the hoopster league seems inevitable, if only from the names of the squads registered for play: the Animals, the Playboys, the Nomads, the Screnpids, and last but not least, the Fungi.
