I'M SORRY

*I'm sorry I never got to know you,
never got to see your face,
never met you on the street,
on my way to some generic place.*

*I am sorry that you are gone.
So sorry that I cry...
Because you won't be here to wonder
at how fast the years go by.*

*I know your loved ones mourn you,
and remember your smiling face.
But I can't remember what I never saw,
and to me it's such a waste.*

*Today the world seems grayer,
and the night sky is missing stars.
As the remaining ones huddle together,
asking each other where you are.*

*I know someday I'll get to meet you,
as you clasp your hand to mine,
and you say 'thank you for the poem...
I knew we'd meet in time.'*

*And until then I will live this life,
keeping you alive in my own way
as I look onto tomorrow,
and don't forget of yesterday.*

*So I guess they may be right
when they say you did not die in vain.
For out of your demise,
a nation rose united... despite all its pain.*

*So farewell my unknown friend,
I won't forget what I never knew.
Because even if the world is sadder
It is more loving... because of you.*

We all learned that life had to go on, nature had to follow it's course, and so did we...Spring 2002, Montague Street

IN 1962, MINORU YAMASAKI WAS GIVEN THE COMMISSION to design a World Trade Center on the lower west side of Manhattan. Construction of the One and Two World Trade Center began in 1966 and cost an estimated \$1.5 billion. When completed in 1973, the Center received mixed reviews, but at 1,368 and 1,362 feet and 110 stories each, the Twin Towers were the world's tallest, and largest, buildings until the Sears Tower surpassed them both in 1974. If any of us ever thought the towers were only two immense steel, concrete, and glass modern buildings, after September 11, 2001 we realized how much we would miss the incomparable sight of the skyline, best seen on our Brooklyn Heights promenade. The SFC, like the entire country, united and helped those affected by the disaster. We learned not to take anything for granted, to enjoy and appreciate every single day of our life in what everybody agrees to be the greatest city in the world - New York City. Ever since, UNITED WE STAND!

SGA gathered donations that were given to the families of lost firefighters and policemen.
