Senior Class

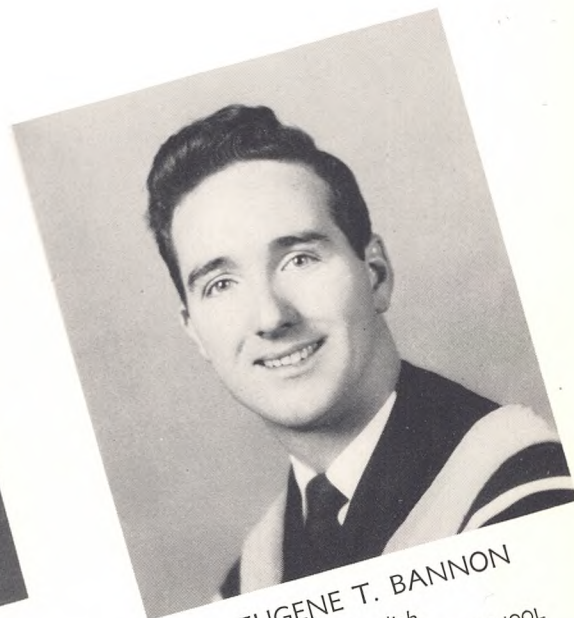

It's all over now! You've graduated. Perhaps in the past, there was much doubt in your mind as to whether or not you would make it. But you did. And at long last, you have what you longed for—a Catholic education. But there is something more that goes with you as you leave S. F. C.—something that will mean so much more to you in the days to come than it means to you now in your moment of supreme exultation—something that will enable you to relive four years of work and enjoyment.
