

### FRANCIS GEORGE PARE

*Coast Guard  
Pi Alpha, St. Anne I. R. C.*

Distinguished by a crop of red hair, and an intense but pleasant face, Frank has been a student at St. Francis since his return from service in 1946. With the cool, clear, logical mind that is his, Frank could do naught else but choose a major in History. Those of us who have seen him labor in his chosen field have no doubts as to his final success in attaining his ultimate goal, which is law. However, Frank is not all concentration and seriousness. Perhaps the one person who can take Pare away from his books for a spell is his wife Joan, whom he married early last winter.

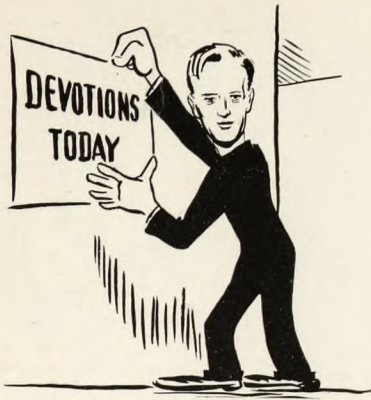

### HOWARD HARVEY PRUE

*Army  
New Utrecht High School, Brooklyn College  
Duns Scotus; Editor-in-Chief Franciscan; Who's  
Who; Indicator Club; German Club; Voice.*

Howie has many talents which befit his friendly person. An exceptionally good scholar, he is gifted with an active mind and a pleasant personality. With such admirable talents, and yet possessing a willingness to go all-out for his fellow students, Howie has a wealth of friends. A rabid pipe smoker, he is never seen without some odd-shaped pipe dangling from his mouth. Howie likes just about every sport and can play quite a few musical instruments. At social functions he sits down and makes the piano speak one tune after another as the fellows sing themselves dry. He plans to continue his studies in chemistry.

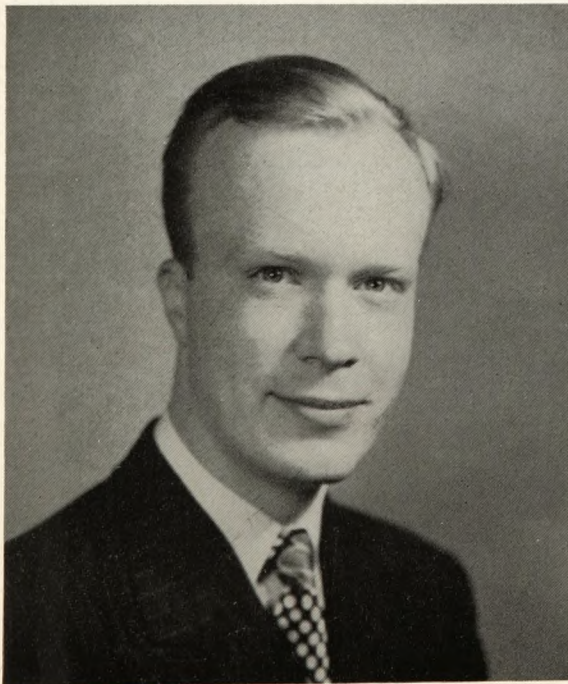

## WILLIAM CHRISTOPHER POWDERLY

*Townsend Harris H.S., Fordham U  
Sodality; Third Order; Duns Scotus; Philo Club;  
Vocation Club; Voice; IRC; Who's Who; NFCCS;  
Bishop's War Relief.*

"Let's go St. Francis" is the only way we can associate Bill with school activities. That tall red-headed gentleman seen posting Sodality notices is none other than Bill. Major: Philosophy, Aim: Priesthood. He likes Philo, basketball, and pinochle. He is gifted with an eloquent speaking ability and a broad intellect. He has a vast amount of knowledge in diverse fields; nevertheless he is as humble and charitable as one can hope to be. With his Franciscan character we know he will make a good priest.

## EUGENE ALPHONSE RICKERT

*Army*

*St. Augustine's D.H.S.*

*Le Cercle Francois; Math Club; Phi Rho Pi; Sodality; Third Order; Voice; C.W.V.*

When Gene completed his Sophomore year he bid St. Francis a fond farewell and took time out to further his education in Europe—at the request of Uncle Sam. Upon his return he decided upon and did very well in the choice of his major field—math. Gene is one of the boys who lives around the corner and still has to drive to school. He is forever telling us of his brother, an alumnus of St. Francis Prep, and now a Maryknoll missionary in South America. Who of us shall forget the day he showed up at lectures in bathrobe, derby, cane, and stogie. At first we gazed in amazement, shook our heads and thought, "Too much Integral." Only when he explained that he was being initiated into Phi Rho Pi were we able to compose ourselves.
