

## Pi Alpha

Since its founding in 1906, Pi Alpha Fraternity has become an integral part of the social life here at the College. It offers to the student that sense of brotherhood so important to a well rounded education. After graduation it becomes the source of those nostalgic feelings which come with memories—of the dances, beer parties, smokers and hazings—of “good times” at St. Francis.

Some may still be wondering what happened to Ciezlewicz after he won the basket of cheer at the annual Pi Alpha Dance. Or how Marty Donahue ever got home from the Bronx last December. George Smith saying “Now listen you guys” will remain with us for many years. How “Big” Dan Walsh ever broke a table by sitting on it will always be a puzzler.

These are only some of the incidents that we will think back upon in later years. But they take their place among those moments of laughter and friendship which go to make up Pi Alpha Fraternity.

From Texas to Wall Street, via Skid Row . . .

Fireman, spare that tree . . .

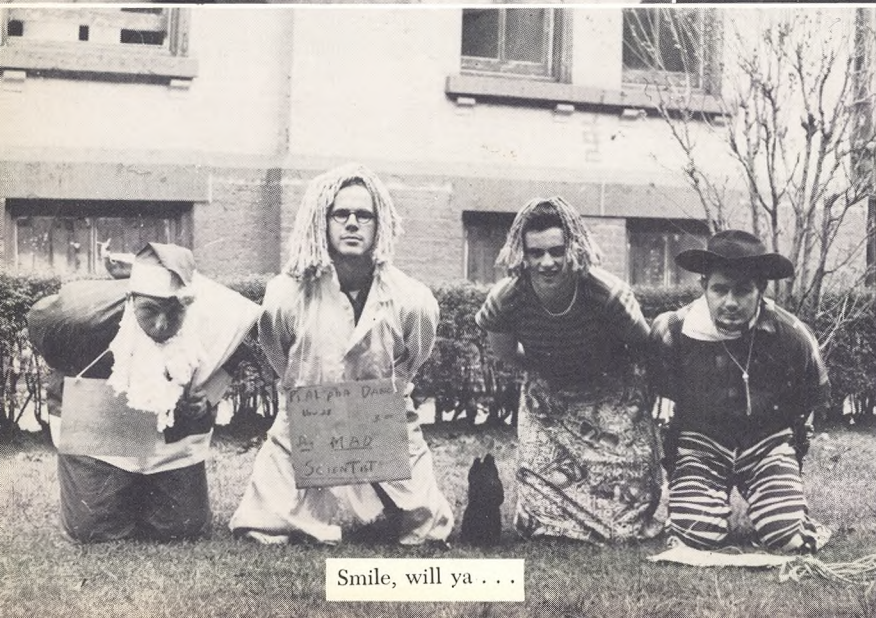

Draw one for the ex Archon . . .
