

B O W L I N G

The '68-'69 season was one of both triumph and tragedy. The pre-season activities saw St. Francis run away with the team championship in the Siena Tournament of early Fall. They finished, also, extremely high in both singles and doubles competition in the same tournament. (The Siena Tournament involved the Jersey division leaders, St. Peter's, whom many consider to be the East's finest team).

As the league progressed, St. Francis maintained a flexible grasp on the top three positions with Pace and LIU. We had the 2nd highest team average in the league and fought back and forth with Pace for the league lead. However, disaster struck the Terriers in midstream when an attendance problem, due to a few individualistic bowlers, caused St. Francis to play FIVE matches with 4, sometimes 3 bowlers,

causing them to lose 13 out of 15 points eliminating them from top honors.

Presently, thanks to the effort of the dedicated members and Ron Jendras, who volunteered his services so that we could once again play with a full team, St. Francis has won 8 out of 9 for an overall record of 36 wins and 24 losses giving them an outside shot at third. This would definitely be very personally gratifying.

An overall fine effort by George Salicco and David McMullan, co-capt. and Terry McCollum, Frank Cavallo, Frank Seggio, and Ron Jendras has produced a very personally satisfying season for all of us, and the school should be proud of one of its better representatives.

KARATE CLUB

Under the direction of Jim Bruno and Ron Eidshaug, St. Francis College has added a new activity for its students to take part in. Starting with a membership of eighty students, the karate club has grown into an active and spirited club, with some five students being promoted in rank. Plans are underway to affiliate the club with the Japan Karate Association and the American Karate Association.
