

FRANCISCANS AHOY!

Club members prepare to cast off for a day's sailing.

A day at the races.

St. Francis College Sailing Club was born on the Great South Bay on Labor Day weekend, 1964, as four students of the College enjoyed a lazy weekend of sailing. Their experiences that weekend gave them the idea of a sailing club here at the College. The success of that idea was proven with the overwhelming acceptance by the student body. The membership grew from the original four to an active membership of thirty within a month of its initiation. Under the auspices of Brother Lewis Cunningham, O.S.F., the club began its sailing practice sessions and at the same time sought to enter national competition. As it turned out, the team was accepted as a member of the Middle Atlantic Intercollegiate Sailing Association. Entrance into this organization brought with it much work and many problems for the founders, John Kane and Al Pottie. However, with every member's cooperation the club emerged a young adult from the organizational stage. From now until the spring thaw, the club will be busily insuring its place in the life of the College. The Sailing Club looks forward to tough competitive schedules in both the spring and fall racing sessions. The future of the club appears to be very bright and it is the hope of every member that in the years to come not only will the Sailing Club endure but also rank as a major sport at the College.

Five yards from shore and still floating!

PHI RHO PI MOVES

This year saw the members of Phi Rho Pi undertake the decoration and occupation of a new house on Atlantic Avenue. The pledges in the fall semester provided cheap 'coolie labor' and helped to sustain the fraternity budget which was put under great strain by the expansion. Those who have visited the house have remarked on the fine quality and the good taste used in decorating and furnishing the house.

The annual Christmas toy drive met its greatest success in recent years as toys and gifts were distributed to more needy children in Brooklyn and Queens than ever before. A new fraternity idea, and one which met with great success was the faculty-student night held in the fall. As the saying goes—a good time was had by all.
