

# Philosophy

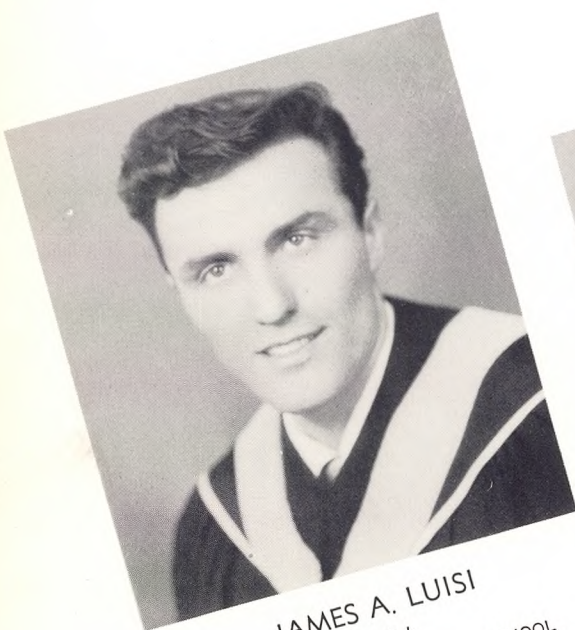

In these days of crisis, the world is seeking a way of life conducive to a lasting peace. This quest will be fruitless unless it terminates in the principles of a true Christian Philosophy. We at St. Francis College, are most fortunate in having a Philosophy Department which inculcates us with the ideals and principles which are so sorely lacking in our modern world. The courses offered leave a lasting impression upon the student in giving him a proper sense of value. The ideals and principles most vital to the entire nature of man are stressed, while those of least significance in aiding man to attain his end are placed in their proper place on the scale of evaluation. This is the true Christian Philosophy which shows man the way to achieve happiness in this life and leads to beatitude in the next. It is only in this way that all mankind can ever hope to attain lasting peace.

## Religion

The Religion Department of our College covers the entire scope of Christ's life and also adds helpful other courses to assist all students in acquiring a clear and comprehensive knowledge of Catholic dogmatic and moral teachings. All the religion courses stress the need of Christian living and leadership in today's society.

The Life of Christ is a basic course to the student since all other courses in religion branch from it. The Fundamental The-
