

The members of the Board of Governors of the Ciudad.

Dave Geary, Tom Downes, Bob Allen, Henrique and Erasmo enjoy a lighter moment.

Seven native Brooklynites left Miami on June fifteenth as the second contingent of St. Francis students to spend a summer working at the Peruvian Boys' Town, the Ciudad de Ninos. These weeks were spent roofing a new dormitory, building beds and teaching English despite their poor Spanish. As the 'Norteamericanos' left the Ciudad on that last sad day, little had changed in its physical structure, but many friendships had been built and many unforgettable experiences had past. It was quite a summer.

I.R.C. REVITALIZED

President Jerry Hannon provided active leadership this year.

This year under the leadership of Jerry Hannon, the International Relations Club of St. Francis College saw a reawakening of the activities formerly associated with this organization. The seed planted by the cooperation of Jerry and his presidential opponent Rudy Maurizio reached fruition last fall as Rudy was elected to the important post of President of the Middle Atlantic Region of the I.R.C.

At the college, a program providing prominent speakers from government service and private life, a number of interesting debates and intercollegiate conferences received active student support. In addition, a political science journal was sponsored and published under the club's auspices.

John McLoughlin provided the organizing force for an I.R.C. seminar held at the U.N. this year.
