

OPEN HOUSE

A.P.D. BLOOD DRIVE

The brothers of Alpha Phi Delta co-sponsored a blood drive, with the student Health Department, on October 4, 1989. The theme for this year's drive was "Jhonathan was born with a hole in his heart. Ten of you saved his life." Mark Bertman, a representative of the Greater New York Blood Program, assisted the brothers and Nurse Ford by preparing a presentation, in McArdle Lounge, on the safeness and easiness of donating blood. The Greater New York Blood Program provided the beds, nursing staff and refreshments for the donors. On October 4, 1989 a total of 30 pints were donated. Alpha Phi Delta reminds you that someday you, a friend, or relative may need blood, so please donate.
