

Faculty Appreciation Day

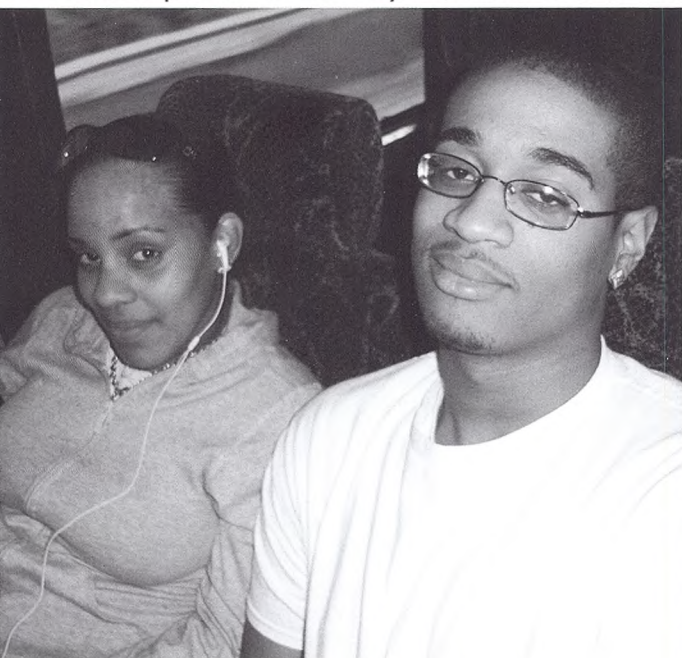

On April 25th students in the St. Francis community came out to thank their professors, advisors and mentors for sharing their knowledge, wisdom and for helping them achieve success. A small ceremony was held in the McArdle Student Center to honor faculty and administration and to just let them know the students appreciate all that they do.

This year, as a token of the Student Government Association's appreciation, all those administration, faculty and staff who participated in the ceremony received a specially wrapped Hershey's candy bar.

Six Flags: Great Adventure

Nothing makes your heart race as much as a roller coaster barrelling down a track at a hundred miles per hour. On May 24, 2007, the Student Government Association sponsored a trip to Six

Flags: Great Adventure in Jackson, New Jersey. Various students from the student body came out to have a day of fun at the theme park. An all day trip, students got to relax after their finals and to just enjoy themselves and the company of friends, while getting a rush of adrenaline.
