VOICE STAFF

The professor is an alumnus of St. Francis, having graduated magna cum laude in June 1952. He completed the requirements for graduation in three years, receiving approximately fifty A grades, four B's and one C (Speech). He was a member of the Duns Scotus Society and Phi Rho Pi. In addition he was President of the Indicator Club, the forerunner of the present Science Club.

From St. Francis he went to Polytechnic Institute where he earned his master's degree in slightly more than a year's time. The subject matter of his paper was, "The Kinetics of Catalyzed Decomposition of Diazo-Hydrocarbons." While studying for his degrees, he taught both here and at Polytech.

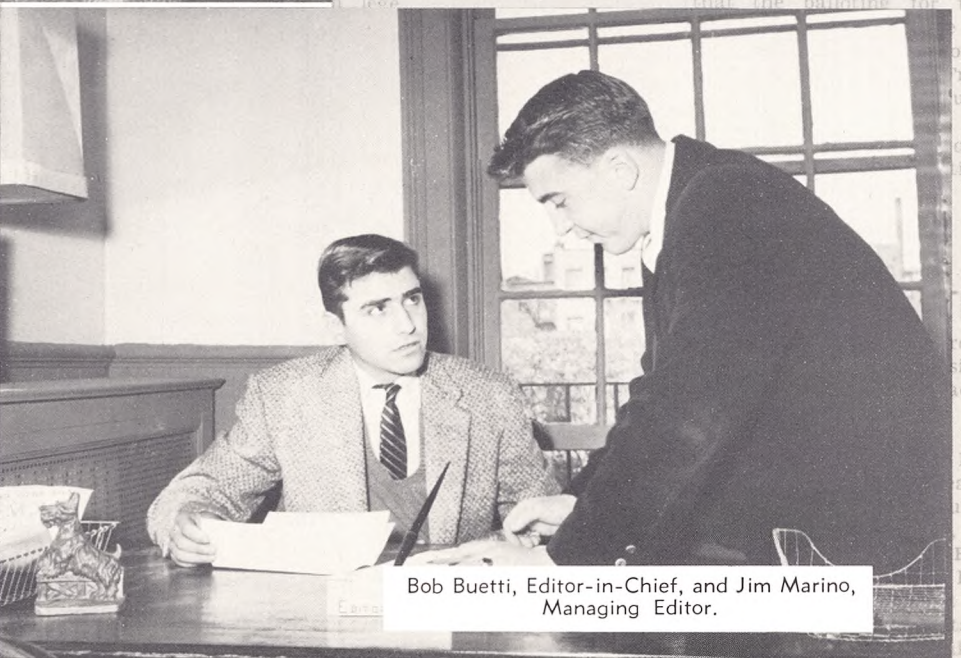

Presently, in addition to his teaching, he is working on a research project sponsored by the Atomic Energy Commission. He also received an offer of a research fellowship at Princeton University which he declined. As to his future plans, he is undecided whether he

moderator, urges all students who are interested in taking part in either one or all aspects of the subscription series, get in touch with Jerry Swietnicki, President of the club for additional information concerning price and proposed dates. Though prices will vary with each performance, it is certain that the entire program will not exceed ten dollars for those men who intend to participate. are asked to see Mr. Swietnicki and settle money matters as soon as possible so that block tickets can be bought for the first performance.

## PHI RHO PI

The Beta Chapter of Phi Rho Pi officially opened the 1955-56 school year with a special meeting on Monday evening, Sept. 26. The purpose of the gathering was to discuss and decide plans for the coming semester.

One of the foremost subjects on the agenda was the admission of new members. A new policy in this regard was estab-

THE last issue submitted for adoption by the College is something the college is the tedious.

If passed, never has given out his other view and dis search in the

The only valid method for the true intellectual, Catholic or non-Catholic, is to examine the object of consideration in its own light and to draw his convictions from it.

# GIVE BLOOD...

Anything from the operation to an automobile accident may call for the most vital of fluids — blood. Where would you get it?

There is a blood bank at St. Francis College which is open to all the members of the College, their families, and their friends. The College's balance in the bank, however, is very low at the moment.

Today we have the same Christ coming down to us. What changes in His reception have we made? Do we rush to meet Him, to take Him to ourselves, or do we give Him the same cold reception He received in Bethlehem? This Christmas and this New Year resolve to meet and welcome Him Who made you. Resolve to always be ready to meet Him Who is always ready to come to you.

# FOR YOU...

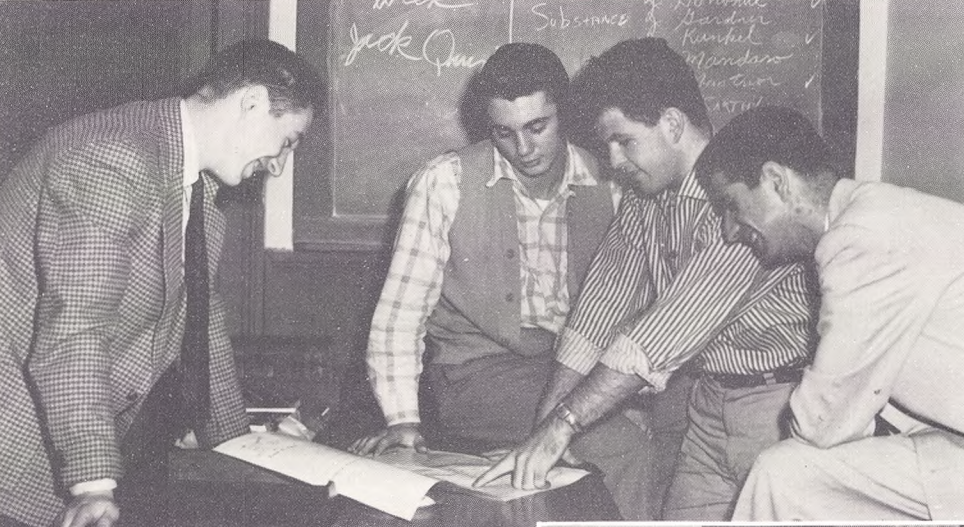

Why is the Sodality of the Blessed Virgin the least known extra-curricular activity around St. Francis College? It seems odd that this should be so in a Catholic college. And yet it is.

ort of  
motion  
s, and  
uncer-

There seemed to be a strong difference of opinion between the lead article and the editorial column in the recent issue of the VOICE. Two questions were raised in the letter and directed to the Student Council and, as President of that body, I submit the following remarks and consider them undebatable.

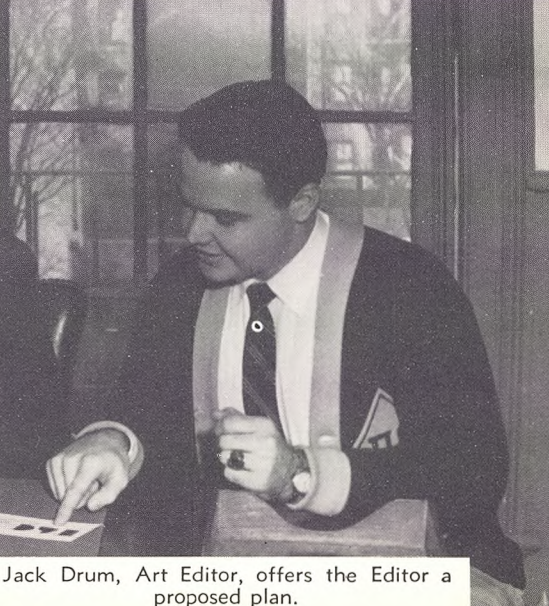

The Office at any hour!!

body. The policy of an individual receiving this award twice, which up until last year was common practice, has been stopped and justly so. During this period the number of juniors receiving the award grew and that of seniors decreased, which is precisely the problem faced by the members of the council, to thoroughly exhaust the membership of the senior class for potential recipients and then turn to the juniors for supplements and alternates. The final vote comes from the Council Body.

Question two: Why did approximately twelve out of the fifteen Franciscan Spirit Awards go to Student Council members, men who voted the awards.

Answer: This question seems to imply that past individuals reneged upon their philosophy; the individuals newly appointed are unfit or that perhaps the list was too confining. The membership of the council is usually a better than average measurement of individuals particip-

Jack Drum, Art Editor, offers the Editor a proposed plan.
