

GERMAN CLUB

Once struggling to attain respectable size, Professor Sidney Rutar's German Club is finally coming into its own. With the expansion in membership among sophomores and freshmen, the group, culturally orientated, has made many satisfying incursions into the sphere of German influence in New York City. The annual Steuben Day Parade was well attended by these members, who were pleased and delighted by what they saw and heard there. Films from the Cultural Office of the German Consulate supplement the in-class readings of the student, and help to illustrate the historical, cultural and lingual development of the German people. Also as an aid to beginning students, the Club's tutorial services have been expanded, and are among the most extensive in the College, and among the best attended.

GLEE CLUB

Embarking upon its new season, the signs went up, "Glee Club practice today". Bro. Demetrius, the new director, invited all the older seasoned performers and many new vocalers to come and sing together for St. Francis College. With the Xmas concert on their agenda, the notes and song resounded from the Altos and Basses for our entertainment in the new Donar's hall.

Keeping in mind the constant practice required for a good Glee Club the members put all their efforts towards building a good strong group of men who will be able to carry a song. Future plans, will find the members singing forth at more and more concerts, individually and jointly.
