

CONNELL J. BOYLE
President

The Student

THE STUDENT COUNCIL is the governing agency of the student body and of its non-athletic extra-curricular activities. Its sole purpose is to realize the best interests and ideals of St. Francis College. To achieve this aim, it has been granted numerous rights along with their corresponding obligations.

At the bi-weekly meetings of the Council, the elected representatives of the classes and clubs make rules and regulations for all student organizations concerning activities and customs. They select the recipients of the Franciscan Spirit Awards and nominate certain students for the Who's Who Award. They also represent the students before the College Administration and pass the latter's recommendations on to the student body. In addition, they assist the administration in the organization of Freshman Orientation and student assembly programs. The Council is solely responsible for conducting the Annual Blood Drive and soliciting contributions from the students for various charitable causes.
