There are many people in the St. Francis community. Some come from the Far East, the West Indies, Africa, the Americas and Europe. To give the growing body of foreign undergraduates an opportunity to be together and to be active in the College, the Foreign Students Association was formed in 1973 and is steadily growing.

The Association has worked to encourage its members to participate in the social, academic, and general activities at St. Francis College.

The present moderators of the Association are Professors Monaghan and Languili. Dr. Flynn is the president of the Foreign Students Alumni Association.
