

# STUDENT COUNCIL

Peter Bittel thrilled at the start of another meeting.

*The student council of St. Francis College was dynamically revitalized under the administration of president Peter Bittel. The student council was exceedingly active in '68-'69. Among its main project was an overhaul of the constitution of the student government of St. Francis College, and the passage of a declaration on students rights. Mr. Bittel and Mr. Moriarity provided an articulate and impressive vocalization of the thoughts and needs of the student body at large.*

*Others involved in student government '68-'69 were Paul Townsend and Thomas Brennan, Mr. Townsend handling the newly created office of administrative vice-president with his usual competence; Mr. Brennan handled with style and flair the demanding duties of student parliamentarian. Tom Lavelle served aptly as treasurer.*

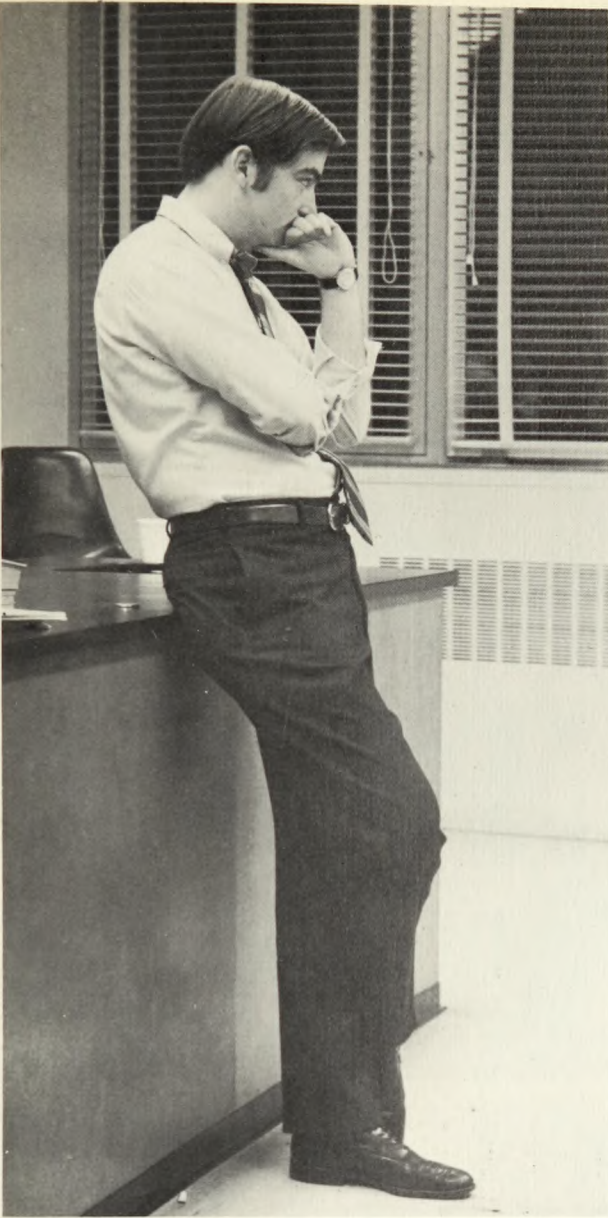

*Among the many other accomplishments of the student government were the newly organized orientation program, and the opening of a channel of communication to the administration.*

You're talking to me?

Peter Bittel, President, in a serious moment.

An intent Mr. Bittel sums up the situation.
