The Franciscan presents the year 1989 in review. It displays the manifestation of hardwork and achievement pervade in the minds and actions of all students at St. Francis. Captured within these pages are new friends, old buddies, favorite professors; immortalized are the special events, the celebrations, and the victories.

It is a looking glass for all to view. It is a mirror giving forth the spirit of the young, the confidence of the old and the determination of all. The Franciscan represents a speculum reminding us of our hopes, dreams, and aspirations. It is a reflection . . . A Reflection Of How Life Used To Be.
