ADMINISTRATION

OFFICE OF ADMISSIONS

Left to Right: Cindy Villaman, Samuel Zucker, Steve Broder, Ingrid Henry, Jackie King.

The Admissions office deals with accepting qualified students into St. Francis. These are the people who review Freshmen High school transcripts and decide which are S.F.C. "material." The material being a competitive average, decent S.A.T. scores and no set plans, other than college, for the next four, five, maybe six years. This is the department that continually sent you mail about your acceptance and then had you come in on the hottest day of the summer to take a placement test. S.F.C. may be private and catholic yet they welcome all individuals to apply. It is the policy of St. Francis to admit as matriculated students only those applicants who present evidence that they can successfully pursue courses leading to a degree.
