

# Here It Is

What does the 1994 Franciscan contain? Blood, sweat, tears and laughter. It contains the senses of sight, hearing, smelling, taste and touch. This book was not put together by a select few staff members, but by the 2,000+ students who make up our classes, clubs teams and organizations. Along with the students are the 125+ administrators and faculty members who spend long hours trying to make St. Francis College the best college by being our leaders, guides, moderators and so forth.

So carefully review each page and try to remember and enjoy the story behind each picture.

# Thank You Nurse Ford

## Nurse Ford

Nurse Catherine Ford will be retiring this year after many years of valuable service. The St. Francis community will be losing a treasure. Nurse Ford is always helpful and has a smile on her face which goes with her wonderful personality. She makes your visit to her office as pleasant and painless as possible. We will all miss her and hope that her days are filled with peace and happiness.

Yvonne Marie Roga
