

PUBLICATIONS

All the tears, fears, cheers, and years all add up to one big sum of endless memories.

And to say the least, we all have each other to thank for them.

If you take time to think and look back, you will find yourself saying "it wasn't all that bad after all, actually they have been some of the best damn years of my life!"

YEARBOOK

The Franciscan

Eddie Gunderson
Production Editor

Our yearbook is no ordinary book. It is more than written words to a page. It is more than pictures can say. In fact, it is all this and more. It reaches up and beyond to express all that is accomplished.

It shows us what we already know and teaches us that there is still more to do.

Our yearbook is laughter, and smiles and plenty of students.

It's graduating seniors who are proud of their hard work and determination.

All that comes from our yearbook is sincere and every person in the St. Francis community cherishes this once in a lifetime experience.
