

The Student Council

THOMAS SMITH
President

The Student Council for the 1952-1953 year has been the most progressive in the twelve year history of the Council at St. Francis College. Action and results have been the criteria.

Working closely with the New Administration, the Council established the new Student Lounge and Recreation Room in Terrier Hall. It also aided in securing volunteers from the student body to carry out the reconstruction necessary in Terrier Hall. Undoubtedly, the establishment of the cafeteria, and all the other facilities in the Hall will go on record as the greatest achievement of any Council.

Once again the Council selected the men whom it regarded as deserving of membership in "Who's Who in American Colleges and Universities," "Franciscan Spirit Awards," and the new "American Student Leaders." These awards are given on the basis of scholastic achievement, participation in extracurricular activities, leadership, and future service and credit to the College.

This year's Council also extended the influence and reputation of the College in such student intercollegiate organizations as "National Federation of Catholic College Students," and "National Student Association." Representatives of St. Francis once again participated in the Student Conference on Public Affairs held in Albany. Again, as has become the tradition, our delegates assumed a prominent position and garnered many honors.

Working under adverse conditions caused by the diminished enrollment, the Social Calendar was successfully administered. The Council supervised the Soph-Frosh Hop and conducted a Smoker. Proceeds from these helped furnish the Lounge.

This year's Armory schedule was the toughest and largest any Terrier team has had to encounter. The Student Council devoted itself to encouraging the success of this program. Baseball and the large intramural program were also fostered by the Council; and great attempts were made to "pep up" student support. All activities such as these depend on a large and enthusiastic response from the students. In view of the existing circumstances, the response had to border on universal cooperation.

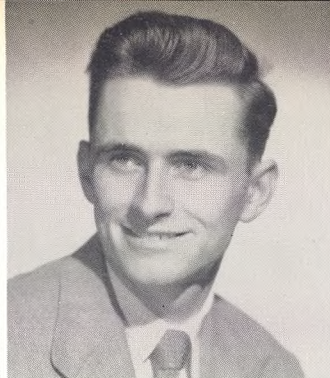

In all, the Council has faithfully represented the student body and made known its wishes to the Administration; and the results of our sharing of trust have been evident. We are indebted to our moderator, the College Administration, and to the students for their interest, concern and cooperation.

It has been a 'good' year.

The Duns Scotus Honor Society

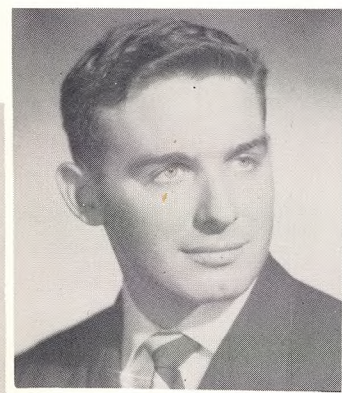

MICHAEL A. FITZPATRICK

VINCENT CLEMENTE

JOSEPH A. GANNON

PAUL L. KRUPA

The Society has as its primary aim the encouragement among the students of a love and desire for excellence in scholarship and service to all the undergraduate activities of the College. The secondary aim is to give honor and recognition to those deserving students who, by outstanding attainment, have won the respect and esteem of their fellow-students and the members of the administration and the faculty. Only after completion of his sophomore year may a student seek membership, membership that does not cease at graduation. At Commencement each member will have the privilege of wearing a distinctive tassel on his cap as an emblem of his membership.
