NOW in its seventeenth year of existence, Le Cercle Francois, although technically a departmental club, is open to all members of the Student Body who like their extra-curricular activities seasoned with a touch of "l'esprit Gaulois" and the inimitable "joie de vivre" of Professor Fiorenza. Le Cercle, certainly one of the most prominent and best liked Clubs in the College, works all through the school year to live up to its aim—a social atmosphere in which a true appreciation of French culture can flourish.

ALTHOUGH only in its second year the Spanish Club carried on an intensified activities program. The high-point of the year was the granting of the Inter-American Action Commission by the New York Region of the N.F.C.C.S. In connection with the Commission work, there was a book drive in which 2000 text books were collected. At the Regional Congress the Commission had a brilliant display. The main idea of the Club is to install a deeper understanding of the Spanish language and literature, and to study the many valuable contributions made by the Spanish people.
