CROSS COUNTRY

The Cross Country team this year eventually rounded into one of the fastest teams the college has ever produced. The team was equally balanced with senior and sophomore runners. For some unknown reason the best efforts of the veterans and upcoming Terriers could not combine for a team victory. This situation prevailed until the Metropolitan Championships when the team suddenly clicked. The team came on with a good showing only to be moved out of their place by St. John's University. This spirit continued in the following cross country meet with Iona College, which was won by St. Francis College with Captain Welsh setting a new school record of 26 Minutes 14 Seconds for the 5 mile run. Bill Weir and Jack Donovan also broke the existing school record in the same meet. The 1950 Varsity season drew to a close on November 25th when the hill and dalers placed second behind Seton Hall University in the newly founded Eastern Catholic Athletic Conference. The stiffest competition which was encountered in the meet was the hurricane weather.
