

Student Council

"To act as a coordinating agency, to foster a closer relationship between faculty and students in the sense that such is necessary, to regulate and supervise such activities as are placed within its scope and to foster student action in the best interest and ideals of the College . . ."

PREAMBLE

Operating within this framework, the Student Council has labored with varying degrees of success; in some aspects the results have been gratifying; in others, negligible.

The Army schedule was the toughest and largest any "Terrier" team has had to encounter; in line with this, the Student Council instituted a class and club "sponsorship" program resulting in the best armory financial success in our Basketball history.

It was a year that saw the institution of a Senior lounge and recreation room; in making up the social calendar the Council supervised a "Franciscan Dance" for the financial benefit of the Yearbook; further, it conducted a highly successful Japanese War Relief drive.

The crowning achievement of this year's Council was the establishment of a scholarship fund to aid deserving students in attaining a Franciscan education. In furtherance of this theme, a Student Counseling Service was also administered, aiding those underclassmen who found difficulty in adjusting to particular courses in the curriculum.

In all, the Student Council has faithfully represented the student body and made known its wishes to the Administration; and the results of our sharing of trust have been evident. We are genuinely indebted to our Moderator, to the College Administration and the Faculty for their interest and concern and especially to those students who contributed their active support. Whatever small degree of success we have achieved is due, in no small part, to them. It is our fervent hope that such support will increase in volume and intensity, thus assuring the next Council a greater degree of success.

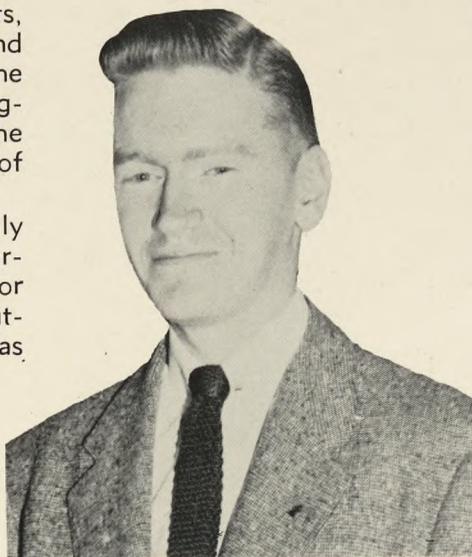

Duns Scotus

The Duns Scotus Honor Society was established at the college in 1935 with a two-fold aim. The first aim is the encouragement, among the students, of a love and desire for excellence in scholarship and service to all the undergraduate activities of the college. The second aim is to give honor and recognition to those worthy students, who have won the esteem of their fellow-students, the members of the faculty, and the administration.

A student is eligible to seek membership only after completion of his sophomore year. Membership does not cease with graduation, Alumni or other distinguished persons, who have rendered outstanding service to the college, may be elected as honorary members.
