

PHI ALPHA THETA

OMICRON DELTA EPSILON

The scholastic excellence which membership in these societies represents was well-portrayed this year as these two organizations presented a strong program of speakers and other activities of interest not only to the members of these honor fraternities but also to the entire student body.

Omicron Delta Epsilon with the aid of its moderator, Professor Joseph Ford made trips to the Federal Reserve Bank in New York and were well represented at the fraternity's biennial convention in Boston.

Phi Alpha Theta saw the number of its Brothers grow and with this growth came the fraternity's first history journal. Under the leadership of Dr. James Flynn and John McLoughlin this journal shall be a welcomed addition to the already expanding program of the social sciences at St. Francis.

On an intercollegiate level, Frank Wakely and John McLoughlin represented the college at the national convention of the fraternity held at the U. S. Military Academy at West Point.

Eugene Dorf, Joe Bonaccorso, Joe Kneafskey and Jim O'Connell gather around Joe De Annuntis, Moderator Professor Joseph Ford and Terry Reilly in a quiet corner of the Franciscan office.

Brothers Rudy Maurizio, Steve Lopez, Brother Padraic O'Hare, Jim Candia, Gene Bradley, John McLoughlin, Frank Wakely, Richard Bonnabeau and Paul Guerin gather around fraternity moderator, Dr. James Flynn as they look admiringly at the St. Francis College fraternity charter.

Main Street—Ciudad De Ninos

Some of the Ciudad's younger population and a few 'Gringo' visitors.
