

The thirteen (13) "founding sisters" of P.K.C. have high hopes for the coed future of the college.

As stated in its preamble, St. Francis' first sorority was established to promote social interaction, friendship, and equality among college women in campus affairs.

Although only a new born organization, this sorority has already made its presence felt in the college community. If the present is any indication, the future of this group will be dynamite.
