

On September 19, 2005, St. Francis College clubs and activities gathered together in the Genovesi Center for the first annual Fall Festival. As on Terrier Tuesday, the Fall Festival was a unique way of gathering students together to help encourage new friendships and a renewed school spirit. The concept for this new event was simple, each participating club and activity had their own space to set up a different type of festival game for students to play, as well as information and sign up sheets to attract new members. It was the hope that by having this fair, students would meet each other and become involved. Games varied from eating contests to trivia games with even a live band for entertainment as students walked from table to table.

Fall Festival
