

# business club

The Business Club started the 1969-70 year as though it was going places.

Letters of introduction were sent to the business division students, advising them of the plans of the club for the year and the advantages which the club holds. Utilizing a two week membership drive, the club was able to establish itself as one of the largest on campus.

Under the leadership of President John Cannone, it tried to inculcate an appreciation for the profession both on its members and on the student body as a whole.

In accomplishing this important goal, the Business Club has established a program designed to supplement classroom theory with actual practice, as they occur in the business field today. Each year speakers representing all phases of the profession are invited to express their views on topics of interest.
