

The Humanities Club

JOSEPH M. BARBIERI
President

During the fall of 1952, the Humanities Club was organized principally for foreign language students and English majors. The new club amalgamated the French, German, Spanish, and Arts Clubs which had previously served the extra-curricular interests in the Humanities Department. Under the guidance of its first and only moderator, Professor Nicholas A. Fiorenza, the club scheduled an agenda of activities in its first year that set an exemplary precedent. The club has done more than its share in fulfilling the most important aim of extra-curricular activities — the production of the well-rounded man.
