

XI EPSILON OMEGA

The history of XEO is one of short span. Yet within the few years of its existence it has become one of the most outspoken and active groups within the St. Francis community. In actuality XEO has risen up to be a fraternity with many credits and honors. It is a unique fraternity and inevitably has become a *DYNASTY*.

It was preconceived in the Fall 1978 and received its charter by the Spring of 1979. So we can say XEO is going on its fourth year at S.F.C.

XEO is strictly a social fraternity. This enables the members to get better acquainted with the school. We feel this social atmosphere makes for a well rounded student. We can provide the leisure activities that are imperative in a students years at the college and in the future.
